Part 2

Buy-Back:

If customer decides to not keep the concentrator, Vitality Medical will Buy-Back the concentrator less the cost of days used, as per return tracking. Vitality Medical will subtract this cost from the specified value of that concentrator, and additional batteries if added to the agreement, and refund the reminder.

Example: Customer buys a concentrator for hypothetical value of $2500. The concentrator arrives on Nov 30. On Dec 6th customer sends the concentrator back to Vitality Medical. Customer will only be charged for the 5 days and refunded the rest.

5 days x $40 per day = $200
$2500 - $200 = $2,300 Buy-Back Refund

Loss or Damage: In the event that the concentrator or any of its parts or accessories are damaged or the concentrator has been exposed to tobacco smoke, Vitality Medical may not be able to offer the buy-back program. However, Vitality Medical may be able to work with the customer to deduct the cost of repair and/or cost of filters if the concentrator is repairable.
