## 2MHz Obstetrical Probe

# Newman Medical

Newman Medical ultrasound probes have been designed to provide excellent sensitivity and durability to withstand everyday office use. The **DigiDop 2 MHz Obstetrical Probe** has a large ultrasound beam optimized for deep penetration for late term pregnancy or larger patients. The probe has been designed for comfort for both the provider and the patient. **Made in the USA in Colorado.** Each Newman Medical Doppler and probe must pass a series of comprehensive tests to assure quality and the durability of each product.
