Baseline® Hand Held Body Fat Monitor

- Measures body fat and water content
- 4% - 45% body fat, 37.8% - 66% body water with 0.1% resolution
- Memory for 8 people
- User modes for adults and children
- Lithium batteries included

Item No. 9949-1013980

Baseline® Smedley Spring Dynamometer

The Smedley Spring Dynamometer is used to measure grip strength. The adjustable grip can be easily adapted to any hand size. Calibration in both pounds and kilograms.

Item No. 9949-1009093

Kern MAP Hand Dynamometer

The different strengths of the individual springs means that this hand dynamometer can be used universally, for patient groups ranging from children to the elderly, or in sports medicine. Measuring equipment by Kern - Made in Germany.

Item No. 9949-1015701

360° ISOM-Goniometer
The 360° head has three scales calibrated for use with the ISOM system of international measurement standards. Linear display in inches and centimetres.

Article	Length	Item No.
A. Plastic 360°	30 cm	9949-1005900
B. Plastic 360°	20 cm	9949-1005903
C. Plastic 360°	15 cm	9949-1009013

Baseline® Hand Pressure Meter

Measures the strength of fingers, key pinch and palm. The display remains at the patient's achieved strength until it is reset. Strength is displayed in pounds and kilograms.

Article	Item No.
13.6 kg, Blue	9949-1013998
13.6 kg, Blue w/case	9949-1009012

Baseline® Body Gauge

This body gauge can be used to determine the orientation of different parts of the body. Ideal for scoliosis examinations.

Item No. 9949-1013983

Baseline® Bubble Inclinometer

The measuring methods used by this inclinometer have been codified and are listed in the third edition of the AMA Guide to the Evaluation of Permanent Impairment.

Item No. 9949-1005901

seca 203 Girth Measuring Tape

Used to measure girth, with a high quality metal scale for measuring waist-to-hip ratio (WHR). WHR is an indirect method of determining the amount of abdominal fat tissue. This provides an indication of the distribution of fat deposits and is a valuable aid in diagnosis.

Item No. 9949-1009149

MGB Designer Bathroom Scale

Designer bathroom scale with glass weighing plate.

- Flat design
- Hygienic and easy to clean
- Safe, non-slip positioning with rubber feet
- Easy to use - one tap of the foot is enough to turn on the scale
- Built-in AUTO-OFF function to conserve battery power
- Unit conversion from kg to lb
- 0-150 kg

Item No. 9949-1015706

MPP Professional

Calibrated personal scales in 2 versions. Kern scales are the standard around the world and now in the medical field. This scale is approved for clinical use.

15 x 91.4 cm	Round	9949-1013961

Rumble Rollers

The brand new Rumble Rollers have a surface profile that has a similar effect to the thumb of a masseur when applied. The material is latex-free and contains built-in protection against bacteria and fungi. Particularly suitable for self-application to gently dissolve trigger points. Ideal accessory for both therapists and sports and fitness clubs.

Width	Article	Item No.
77 cm	Rumble Rollers - Blue	9949-1015737
30 cm	Rumble Rollers - Blue	9949-1015738
77 cm	Rumble Rollers - Black - Firm	9949-1015740
30 cm	Rumble Rollers - Black - Firm	9949-1015739

Duplex Foam

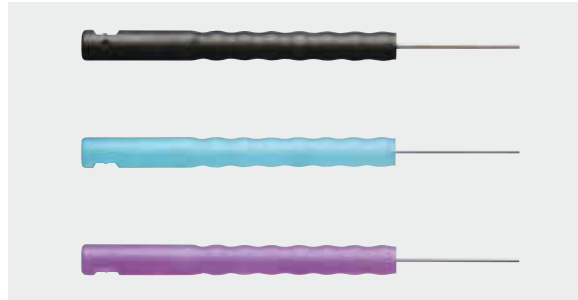

Double-sided foam roller: one side is used like any other roller for self-massage of the myofascial tissue. The second, grooved side distributes the pressure to a smaller surface, allowing for a more intensive massage of the muscles. DVD with instructions for exercises in English included.

Article	Width	Item No.
Duplex Foam Roller & DVD	30 cm	9949-1015742
Duplex Foam Roller & DVD	45 cm	9949-1015743
Duplex Foam Roller & DVD	90 cm	9949-1015744

SEIRIN® B-Type

These high quality acupuncture needles from SEIRIN® have been the world's leading disposable needles for decades. To ensure that the therapist has the right needle for different skin points, SEIRIN® B type needles are available in a variety of thicknesses and lengths. All SEIRIN® acupuncture needles undergo stringent quality checks during manufacture, and are electrolytically cleaned and sterilised. Box of 100.

Description / Colour	Applications	Diameter x Length	Item No.
SEIRIN® B Type / Red	Cosmetic Acupuncture	0.16 x 15 mm	9949-1017648
SEIRIN® B Type / Blue	Ear /Body Acupuncture	0.20 x 15 mm	9949-1017649
SEIRIN® B Type / Violet	Body Acupuncture	0.25 x 30 mm	9949-1017768
SEIRIN® B Type / Violet	Body Acupuncture	0.25 x 40 mm	9949-1017650
SEIRIN® B Type / Brown	Body Acupuncture	0.30 x 30 mm	9949-1017652
SEIRIN® B Type / Brown	Body Acupuncture	0.30 x 50 mm	9949-1017653
SEIRIN® B Type / Black	Body Acupuncture	0.35 x 50 mm	9949-1017654

SEIRIN® NEW PYONEX

New PYONEX Orange, the particularly gentle acupuncture needle, for use with children. The breathable patch is applied to the skin and allows precise, secure and permanent fixing, even when washing or showering. A thin, 0.20 mm needle is hidden on the adhesive surface and is almost imperceptible to the patient. Stimulation of the acupuncture needle is via the easily located pressure point on the top of the patch. This involves the patient actively in the therapy, increasing the therapeutic effect. And another advantage: where necessary, parents can continue treating their children safely at home. Box of 100.

Item No. 9949-1002468

Meridian Notebook

Illustration of the main body and ear points (front and back), multi-coloured, for better patient documentation. Pad with 50 sheets.

Item No. 9949-1002440

MOXSAFE

Safe - smokeless - odourless - precise. Refill pack with 100 pieces of moxa and 6 moxa holders. MOXSAFE consists of a stainless steel holder that houses a cylinder of carbonised mugwort. MOXSAFE is placed on the metal needle and lit with a lighter. The heat generated is transferred directly to the needle and the area of the skin under treatment. Combined with the L type needle from 30 mm in length, MOXSAFE enables an elegant and precise heat treatment for therapists and patients.

Item No. 9949-1009707

HerbaChaud® Natural Heating Plaster

Made of 100% natural and herbal ingredients. Box with 6 plasters. For local treatment of muscular, rheumatic and arthritic pain. Ideal for supplementing moxa therapy.

Item No. 9949-1005928

Glass Cupping Set with Suction Bulb

Set consisting of 5 medical cupping glasses with 5 rubber balls for fire-free cupping. 30-70 mm

Item No. 9949-1017756

3B LASER NEEDLE

3B LASER SHOWER

3B LASER SHOWER was developed specifically for large-area applications. With 14 laser diodes operating simultaneously, it can treat an area of 35 cm². A special filter glass protects the laser diodes and is easy to clean hygienically.

Item No. 9949-1004901

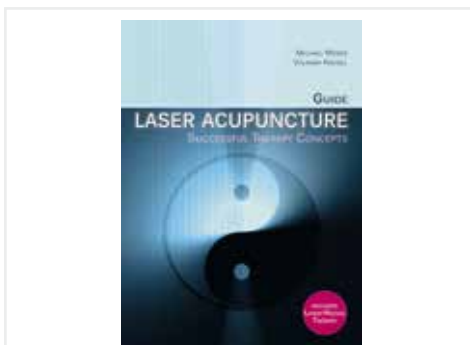

3B LASER NEEDLE

- Used in various medical fields like acupuncture, physiotherapy, rehabilitation and orthopaedics
- Affordable High-Tech medical technology for every practice
- Absolutely painless treatment without side effects
- Scientifically studied

LASER NEEDLE therapy, a method used in low-level laser therapy, has been in medical use for more than two decades. Originally developed for painless acupuncture using lasers instead of metal needles, this method is now used to treat numerous conditions.

Item No. 9949-1008814

Laser Acupuncture Practice Book

We recommend this up to date book as a practical guide for an introduction to laser therapy and for daily practice: Laser Acupuncture – Successful Therapy Concepts
Michael Weber, Volkmar Kreisel
300 Pages, more than 200 coloured illustrations

Item No. 9949-1013451

3B LASER PEN Infrared

Set either the treatment time or the dose, and the 3B LASER PEN 200 mW will calculate the rest automatically. In addition to the pre-set frequencies (Nogier, Bahr, Reiningger, Chakra), you can programme and store your own frequencies from 0.1 to 10,000 Hz (20 storage locations).

Item No. 9949-1013278

3B Scientific® Teaching Materials

3B Scientific is the world's leading manufacturer of anatomical and biological teaching materials for science, education and patient instruction. The high quality of 3B Scientific® products, good value for money and a strong focus on the customer are the key factors in the company's success.

Human Skull on Cervical Spine, 4 Part

In this model, the skull can be removed from the flexible cervical spine. The model illustrates the hindbrain, spinal cord, cervical nerves, vertebral arteries, basilar artery and rear cerebral arteries.

Item No. 9949-1000047

Skeleton Stan on 5-foot Roller Stand

This classic model (we call him Stan) has been the standard for quality in hospitals, schools, universities, and laboratories for over 50 years. Choose from 5 models to suit your individual preference – of course each one has all standard benefits of a 3B Scientific® skeleton.

170 cm; 7.6 kg

Item No. 9949-1013853

Educational Flexible Spine

This model, with a male pelvis, shows the occipital plate, vertebral arteries, emerging spinal nerves, dorsolateral and a herniated disc between L3 and L4. Stand not included.

Item No. 9949-1000128

Stand Item No. 9949-1000132

Hand Skeleton with Ligaments

This high quality 4-part model of the hand and distal forearm shows all bones, muscles, tendons, ligaments, nerves, arteries and veins. The back illustrates the extensor muscles and sections of their tendons as they pass under the extensor retinaculum at the wrist.

Item No. 9949-1000358

Foot Skeleton with Ligaments

This model shows many anatomical details and can be broken down into six parts for closer inspection. In addition to the bony structures, the model also depicts muscles, tendons, ligaments, nerves, arteries and veins.

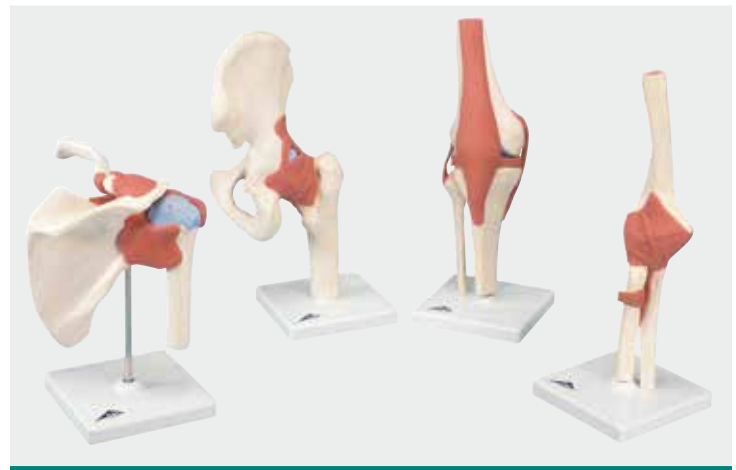

Item No. 9949-1000360

Vertebral Degeneration

The model illustrates degenerative changes in the vertebral bodies and intervertebral discs of the lumbar spine in varying degrees. Based on an original cast of a human lumbar spine, even the finest bone structures are accurately reproduced.

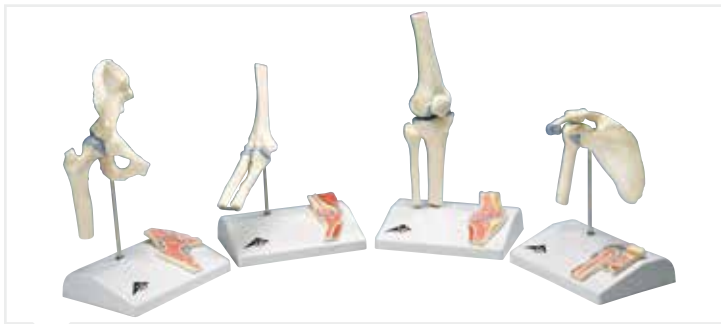

Item No. 9949-1000158

Functional Joint Series Deluxe

These high quality functional models of a lifesized right joint with ligaments shows the anatomy and natural physiological movements (e.g. abductions, anteversion, retroversion, internal and external rotation) in exceptional detail. The colour of the natural cast bones is extremely realistic. The cartilage on the joint surfaces is marked in blue. Mounted on a base.

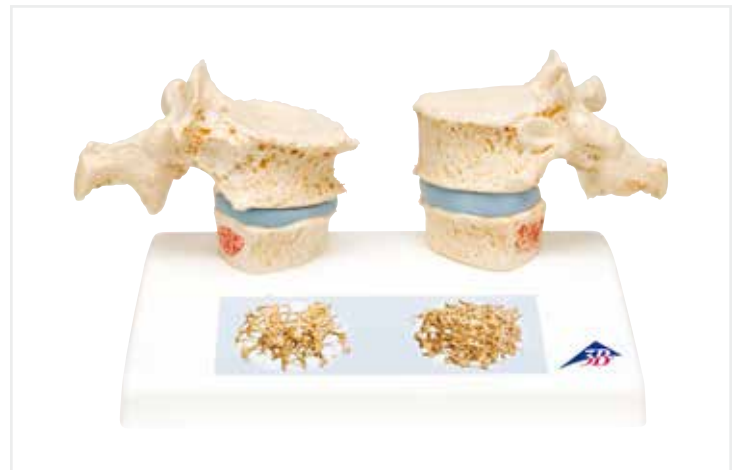

Article	Item No.
Hip Joint	9949-1000160
Elbow Joint	9949-1000162
Knee Joint	9949-1000164
Shoulder Joint	9949-1000166

Mini Joint Series

Ideal for medical practices and teaching. Available in four series with increasing attention to detail. These functional models allow you to very clearly demonstrate anatomy and mechanics to your students and patients.

Article	Item No.
Hip Joint	9949-1000168
Elbow Joint	9949-1000174
Knee Joint	9949-1000170
Shoulder Joint	9949-1000172

Osteoporosis Model

An educationally impressive presentation as a comparison between osteoporotic and physiologically normal thoracic vertebrae. The upper vertebral body is divided in the central plane. The magnetic half-vertebra is easily removable to reveal the sections.

Item No. 9949-1000182

Joint Series Life Size

These functional models provide an accurate demonstration of the anatomy and mechanics of the major joints, allowing better doctor-patient or teacher-student understanding. Use these life size and fully flexible joints to demonstrate abduction, anteversion, retroversion, internal/external rotation and much more. Mounted on a stand.

Article	Item No.
Hip Joint	9949-1000161
Elbow Joint	9949-1000165
Knee Joint	9949-1000163
Shoulder Joint	9949-1000159
