

Same trusted products. Brand new packaging.

Get reacquainted with the Cardinal Health™ Incontinence portfolio

As you know, Cardinal Health recently acquired Medtronic's Patient Recovery business, including the incontinence product portfolio.

We are working diligently to transition the familiar products you use every day to our exciting new Cardinal Health branding and packaging.

Rest assured that the products themselves are not changing. We will continue to deliver the **same trusted products** with the same benefits, quality and features you expect — now with a **fresh new look**.

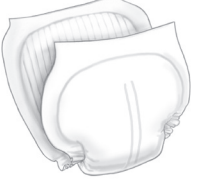

Use this guide as a resource to visually identify the new and existing packaging. You'll also find information regarding any changes in product names, descriptions and item codes.

These resources make it simple to allow for easy cross-referencing as new Cardinal Health product artwork and packaging is introduced.

We are proud to offer a full line of products to help manage incontinence. Our trusted technologies deliver performance and inspire confidence through a comprehensive approach that takes every element of a patient's health into consideration.

If you have any questions, please contact your sales representative or visit [cardinalhealth.com/label-updates](https://www.cardinalhealth.com/label-updates).
