Oral Syringes

Medline's Oral Syringe offering is tailored for pharmacists to easily dispense liquid solutions or give almost any medication available as a capsule or tablet as an oral liquid. Medline's low dose tip, self righting caps, and precise graduation measurements allow pharmacists to accurately and efficiently deliver medication.

Clear Oral Syringes, Non-Sterile

- Syringes with 0.81 mm slip tip designed for easy dispensing
- Will not accept hypodermic needles
- Graduations are in mL only per ISMP recommendations for more precise measurements
- Self-righting caps help pharmacist affix the cap with one handed operation
- Caps are bagged separately so the pharmacy can organize as needed

Drug Disposal Takes Only Three Easy Steps

1. Dispose

Place unwanted non-hazardous medication—pills, liquids and transdermal patches—into the bottle.

2. Invert

Invert and swish the bottle twice.

3. Discard

Discard the bottle in regular trash*—not hazmat.

*All federal and state guidelines require non-hazardous unused pharmaceuticals be rendered undesirable and unusable. Please refer to your federal, state, local, and tribal regulations to ensure specific compliance.

Eye & Face Protection

USP 800 Guidelines

- Eye and face protection must be worn when there's a risk for spills or splashes of HD materials when working outside of a C-PEC
- A full-face piece respirator provides eye and face protection
- Face shields alone do not provide full eye and face protection—goggles must be used when eye protection is needed

Face Shields

- Lightweight, anti-fog protection from splashes or sprays
- Optically clear polyester
- Foam band not made with natural rubber latex
- Can be worn with glasses
