

INVACARE® SLINGS

Invacare offers a complete line of slings to meet the dynamic needs in both the long-term care and homecare settings. **Invacare® Reliant™ Series Slings** are an industry standard and deliver the ease of use, comfort and security that is standard in all Invacare Products. The **Invacare® Premier Series Slings** offer additional fabric and style options to meet a wider array of needs, as well as value-adding features for the caregiver and patient alike.

Invacare® Reliant™ Slings come in an array of styles to meet a variety of client needs. Reliant slings feature a unique, fully padded fabric that forms a soft yet supportive surface. The soft, brushed lining helps prevent sliding for ultimate comfort and skin protection, and the stretch-resistant feature helps the slings hold their shape for superior support and ease of positioning. For clients and caregivers alike, Invacare Reliant slings are designed with comfort and safety in mind.

Features

Sling size and fit can vary significantly depending on patient weight and girth. These are general guidelines. Consult physician before sling selection.

Washing instructions are on each sling label. Washing temperatures should not exceed 180° F. Air-dry or dry at low temperatures.

All slings are constructed of polyester fabrics which can be used in wet or dry environments.

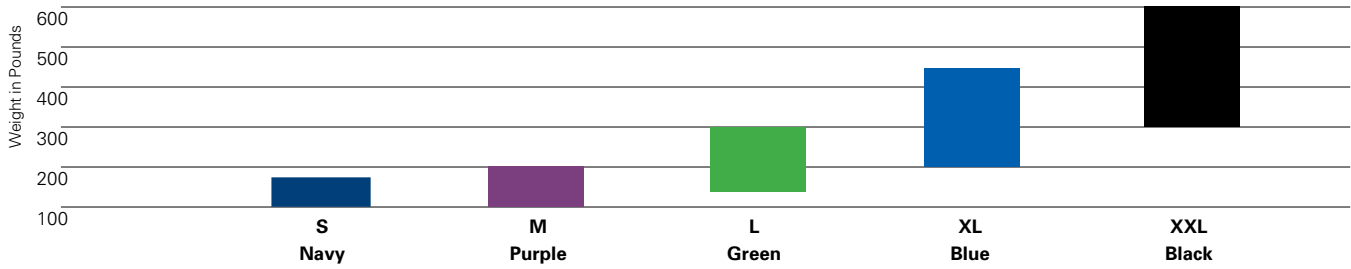

All Invacare® slings were designed specifically for use with Invacare® brand lifts for proper usage and optimal performance. To receive the maximum benefits from Invacare products, please see the size guide, product specs and operator manuals for solutions that best suit your needs.

Full Body Sling With/Without Commode Opening (CO)

An easy sling to use while transferring the patient from the bed to a wheelchair, toilet or shower chair or from floor to bed. It offers total head and neck support and the padded lower section provides additional under-thigh comfort and support. Use the full body sling for patients who are totally dependent, partially-dependent, non-weight bearing, very heavy or have limited head control. Use this sling for amputee patients (in a reclined position).

Compatible with the following lifts:

- Invacare® I-Lift® Series Lifts
- Invacare® I-Transia® Ceiling Hoist
- Invacare® Reliant™ 450, 600 Lifts

Divided Leg Sling

The divided leg sling is a secure, easy-to fit general purpose sling, designed for the majority of sling users. Use the divided leg sling for patients who are totally dependent, partially dependent, non-weight bearing, very heavy or have limited head control. Use this sling when transferring the patient from the bed to a wheelchair, recliner or shower chair. The large opening also accommodates toileting.

Compatible with the following lifts:

- Invacare® I-Lift® Series Lifts
- Invacare® I-Transia® Ceiling Hoist
- Invacare® Reliant™ 450, 600 Lifts
