

3M™ Cavilon™ No Sting Barrier Film and 3M™ Cavilon™ Advanced Skin Protectant

Not all skin protectants are created equal. Some contain alcohol and can cause pain on application. Others wipe away or wash off. Traditional ointments and creams may not hold up to moisture and require removal that can be painful for the patient and time-consuming for clinicians.

At 3M, we can help you protect your patient's skin like no other partner can. Because we apply ingenuity to innovation like no other partner does. When your patient's skin integrity depends on you, you can depend on the skin care solutions engineered with integrity in mind.

Choose a skin protectant with a clear advantage

Key benefits

Effective: Proven and unique non-cytotoxic formulation

Durable: Long-lasting, fast drying, waterproof and does not wash off

Comfortable: Forms a thin, non-stinging coating

Breathable: Allows moisture vapor transmission from the skin, helping to reduce risk of Moisture-Associated Skin Damage (MASD)

Transparent: Allows visualization of the skin

Convenient: Removal is not required

3M™ Cavilon™ No Sting Barrier Film

Supported by over 80 pieces of clinical evidence than any other moisture barrier or barrier film, Cavilon No Sting Barrier Film is ideal for the routine protection of periwound skin in low risk patients (e.g., intact skin and low levels of exudate/moisture).

Cat. No.	Size	Items/Box	Boxes/Case	HCPCS Code
3343	1.0 mL wand	25	4	A6250
3344	1.0 mL wipe	30	4	A6250
3345	3.0 mL wand	25	4	A6250
3346	28.0 mL spray bottle	12	1	A6250

3M™ Cavilon™ Advanced Skin Protectant

The only one of-its-kind, Cavilon Advanced Skin Protectant is ideal for managing moderate to severe skin damage or protecting intact skin in higher risk patients (e.g., macerated skin, medium to high levels of exudate/moisture, prolonged exposure).

Cat. No.	Size	Items/Box	HCPCS Code
5050	2.7 mL applicator	20	A6250

HCPCS codes have been provided to assist you in the preparation of insurance claims. Please note, however, that the reimbursement information provided by 3M Health Care and its representatives is intended to provide general information relevant to coverage and coding for 3M products. Insurers' reimbursement policies can vary and the use of the codes discussed here does not guarantee that an insurer will cover or pay at any particular level. Health care providers should exercise independent clinical judgment in choosing the codes which most accurately describe the products provided.
