Subject: 510k and MSDS Information

Julie,

With regard to the 510(k)s, Detecto Scale is exempt from having to have them. The 510(k) is a premarket notification from the FDA but, because all of our clinical products are considered Class 1 medical devices, we are exempt per FDA regulations from having to have premarket notifications.

Per the OSHA standards, Detecto Scale is not required to include the MSDS sheets with the shipment of our Clinical scales.

Should you need anything further, please contact us.

Sincerely,

**Mary L. Cryer**
