MEDLINE

FALLS MANAGEMENT AND PATIENT SAFETY CATALOG

The right products, best practices and safety essentials.

Elevate patient safety.

Help reduce falls with targeted solutions.

Patients may be at risk of falling. The challenge is how do you identify and protect the patients most at risk while keeping everyone safe—and on their feet? Medline answers the call. We offer hundreds of **quality products and a unique falls management program** to help drive best practices and reduce patient falls.

Strengthen your Falls Management with smart solutions designed to help elevate patient safety and improve patient care. From falls risk recognition to safety essentials, we have everything you need to empower your team.

And your bottom line.

"Patients deserve to be safe and clinicians deserve to be supported. We're here to care for everyone."

— Jay Hamilton-Roque BSN, RN

Fight falls with our proven products. And powerful program.

Are you doing everything you can to protect your patients? The right products are critical to falls protection. But it's a complex issue that also demands expert support. That's why we've developed **Stand FIRM™—Falls Intervention and Risk Management.**

Developed by clinicians for clinicians, Stand FIRM is a simple, four-step program that makes falls management easy—and effective. We give you the practical tools and ongoing support you need to help protect patients and drive lasting change.

STAND FIRM

Falls Intervention & Risk Management

Q&A

Q. Why aren't falls products enough to help protect patients from falls?

A. Products are a key component of any falls management program. They are essential in supporting a strong clinical program to help keep patients safe.

Q. We already have a falls management program. Why change?

A. Stand FIRM is a comprehensive program and can complement your existing program, allowing you to assess patients from every angle and support your clinicians every step of the way. Your staff will be empowered to deliver the highest level of falls management care and you see lasting, meaningful change.

Q. How easy is Stand FIRM to use?

A. We've simplified our program into four easy-to-follow phases, carefully guided by us, every step of the way. We work with you to tailor Stand FIRM to your exact needs and seamlessly integrate it into your practice.

Q. How does Medline continue to support us with Stand FIRM?

A. Adopting the program is just the beginning. We partner with you for the long-term to evolve Stand FIRM as your needs change.

Let's Stand FIRM against falls.
Contact your Medline Sales Representative today to schedule an onsite assessment.

Falls Risk Recognition

Best practices lead to better outcomes.

Make it easy to do the right thing. Arm your team with the tools they need to quickly identify at-risk patients.

Falls Prevention Slippers

- Bright colored slippers help identify at-risk patients
- Double-sided, non-slip treads help patients stay on their feet
- Soft, breathable terrycloth interior keeps feet comfortable, dry and warm

PSY6311L

Torso Wedge

- Help keep bed-ridden patients repositioned and comfortable
- Ideal for use with alternating pressure mattresses to help maintain support without slipping like foam products
- Easier to shape and position than regular foam pillows
- Lightweight with polystyrene bead filling for reduced heat build up
- Washable mesh cover

Item No.	Description	L x W x H	Pkg.
PSY6311L	30/60 degree angle, XL	27 x 22 x 18"	ea

Bed Assist Bar

- Provides help getting in and out of bed
- Features a soft grip for comfort, pocket for handy storage and straps for added safety
- Built to last with quick and easy tool-free assembly
- Includes a nylon bag for storage

Item No.	Description	Pkg.
MDS6800BA	Bed Assist Bar	3/cs

MDS6800BA

Side Rail Protector

- Help reduce entrapment by closing up gaps within and between the bed side rails
- Wipeable vinyl composition
- Pads secure easily with multiple hook and loop attachments

Item No.	Description	Pkg.
MDT821570	Side Rail Protector	ea

MDT821570

Advantage Mattress Bolster

- Transform any mattress to a raised edge mattress
- 8" bolsters help prevent patient falls and lower the risk of entrapment
- Quick installation and removal
- Easy-to-clean waterproof nylon cover reduces shear and friction

Item No.	Description	Pkg.
MDTMATBOLST	Mattress Bolster	ea

MDTMATBOLST

Get the ongoing support you need to drive lasting change.

Sensable Care Proactive Patient Monitoring System

Reduce bed falls with a high-tech solution

The only clinically proven technology available that has reduced bed falls and alarm fatigue.

Enhance patient safety and security with Sensable Care, a state-of-the art monitoring system that detects early patient movement patterns and alerts staff prior to a potential bed exit.

Item No.	Description	Pkg.
MDT9590B1	Sensor Pad	ea
MDT9500	Alarm Monitor	ea
MDT95DASH	Dashboard	ea
MDT95SERVER	Computer Server	ea
MDT9590SHEET	Fitted Sheet	ea

Sensor Pad
MDT9590B1

A. Sensor Pad
Lightweight, thin, reusable pad is inserted into the fitted sheet to monitor patient movement from the shoulders to the thighs, detect potential bed exits, and reduce bed falls. It also issues repositioning alerts.

B. Alarm Monitor
When there's an unscheduled bed exit attempt, this bedside device flashes red, issues an audible message to remind the patient to wait for caregiver, and alerts staff.

C-D. Dashboard and Computer Server
Placed at the nursing station, the nursing dashboard receives real time data from the alarm monitor and can simultaneously monitor up to 35 beds in real time. The computer server collects data from sensors and devices to generate unit-specific reports.

E. Customizable Fitted Sheet
Poly sheet accommodates the sensor pad and is customized to your bed size.

Free Mobile Device App
Nurses receive potential bed exit alerts and notifications to reposition patients via the free Sensable Care App available for Apple iOS® and Android™ devices.

MDT8800

Smart Caregiver® Wireless Pressure-Sensing Monitoring Systems

- Wireless monitor helps reduce tripping hazards and eliminates broken or tangled pad cords
- Cordless pads communicate with the monitor using wireless technology with both an audible and visual alert
- Mount the monitor 15-20 feet away from the sensor pads to eliminate bedside alarm noise in the resident's room
