Thank you for contacting Inogen and for your interest in the Inogen One – the one solution for portable, stationary, and travel oxygen use. The Inogen One was designed to provide oxygen users unparalleled independence and an ability to live life without the restraints imposed by traditional oxygen therapy devices.

We look forward to introducing you to the Inogen One and the exciting benefits it can offer you.

Please call us toll-free at **1-866-516-6994** to learn how you can upgrade to the Inogen One Portable Oxygen Concentrator to enjoy the convenience of unlimited oxygen anytime and anywhere you need it – ***it's oxygen therapy on your terms.***

## Inogen offers a variety of options to help you upgrade to the Inogen One:

### 1. Medicare/Insurance

If you have Medicare or Insurance, you may be able to use your benefits to upgrade to the Inogen One. Call today and an Inogen Product Specialist can help you get started!

### 2. Purchase

You may prefer to purchase your Inogen One directly from Inogen rather than go through the Medicare/Insurance process. Please call to discuss our current pricing and to determine if the Inogen One is the right product for your desired lifestyle. Ask about our LIFETIME WARRANTY and 30-Day Risk Free Trial!

## A single solution that can do it all!

The Inogen One is one solution for stationary, portable, and travel use, for daytime and nighttime, and it's a concentrator, so it never has to be refilled.

*“This is great, since we never need to worry about running out of tanks.”*

*Nathan Fisch*

- ✓ No more worries about running out of oxygen ever again.
- ✓ No more relying on others for your oxygen supply.
- ✓ No more waiting for deliveries.

**Reclaim your freedom and independence today. Call us toll-free at 1-866-516-6994**

## The INOGEN ONE

is designed to provide unparalleled freedom for oxygen users. With the Inogen One you can eliminate all of the cumbersome oxygen tanks. Because the Inogen One makes its own oxygen from the air around you, there are no tanks to refill or replace. That means your Inogen One will never run out of oxygen.

The Inogen One is made to make your life easier. There are no regulators to switch or portable tanks to refill, just a couple of buttons. That's it. Once you try it, you'll wonder why anyone would use something else.

**Embrace the simplicity of the Inogen One and eliminate the worry of ever running out of oxygen.**

## You may qualify to get an Inogen One at little or no additional cost!

The Inogen One is **covered by Medicare**. Inogen will work directly with your doctor, Medicare, and your Insurance company to make sure the Inogen One is right for you. We have thousands of oxygen users across the country that have already received the Inogen One through Medicare or Insurance – join our growing family and see if you’re eligible to reclaim your freedom and independence at little or no additional cost!

**We’ll check your eligibility for free with no obligation.**

# Is your current oxygen therapy holding you back?

What have you given up since you started oxygen therapy? Where would you like to go, what would you like to do?

With the Inogen One, almost anything is possible. The Inogen One is truly Oxygen. Anytime. Anywhere. Head home when you want to, not when your oxygen tank gauge says you have to.

*“I can travel anywhere and not worry about running short of oxygen.”*

*Paul Joslin*

# oxygen. anytime. anywhere.®

Restoring your freedom and control of your day is a big part of what makes the Inogen One so special. You can power the Inogen One by plugging it into a wall outlet, DC outlet in your car, or for hours at a time with each rechargeable battery. So go ahead, jump in the car to run errands or take a weekend trip to see family. Come and go as you please without having to switch equipment. Or take that long trip you thought you'd never again have the chance to take. The Inogen One is made to follow you anywhere, whether it's around town, on the road, on a cruise, or in the air. Where you go is now up to you with Oxygen. Anytime. Anywhere.

The Inogen One is approved for use onboard all airlines in the United States – so you can **finally travel again!**

## We're here for you, every step of the way.

A dedicated case manager gives you personal attention and works with you throughout the entire process as you transition to Inogen's service.

When you're part of our family, we're just a phone call away - you'll have a dedicated hotline number to call if we can assist you in any way.

### Clinical services

Inogen goes above and beyond many other homecare providers. We offer complimentary clinical services from licensed nurses and respiratory therapists. Many other homecare providers have eliminated clinical services altogether, but Inogen's first priority is to ensure your oxygen therapy is tailored to your individual needs. As one of our users on service with us, you will be evaluated by a registered clinician based on your individual therapy needs defined by your doctor.

*"Inogen provides extraordinary customer service at home or abroad."*

*Cynthia Hazlewood*

## Meet Mae – the inspiration behind Inogen.

A beloved grandmother unwilling to accept the status quo of oxygen therapy alternatives, Mae's candid observations and longing for improved quality of life provided the impetus for Inogen to create a better solution.

Mae was presented the first Inogen One in October 2004. And we knew immediately that we'd done something right. Her reaction? "Better than anything I could have ever hoped for."

Today Inogen is committed to improving the lives of millions of oxygen users like Mae worldwide. Thousands of oxygen users have already switched from their existing homecare providers and have joined the Inogen family.

**Call today to see how easy it is to switch and to reclaim your freedom and independence.**

 **1-866-516-6994**

## 5 simple steps to reclaim your freedom and independence\*:

### STEP 1:

First, we'll check your eligibility with Medicare or your Insurance company.

### STEP 2:

Next, if you're eligible, we'll work directly with your doctor to see if the Inogen One is right for you and obtain the required paperwork.

### STEP 3:

Then, you'll receive the Inogen One System and an in-home backup concentrator.

### STEP 4:

Next, we'll test your oxygen levels with one of our staff nurses or respiratory therapists to make sure the Inogen One is meeting your needs defined by your doctor.

### STEP 5:

After you return the Medicare/Insurance paperwork, the last step is to remove your current oxygen equipment and to finally say goodbye to all those tanks. At that point you'll be on service with Inogen and part of our growing family.

\* for Medicare/Insurance orders

Thousands of oxygen users have already switched to Inogen's service and reclaimed their freedom and independence with the Inogen One.

We're here for you every step of the way and want to do everything we can to help you reclaim your freedom and independence.

**Call now and let's get started.**

*"When I first got the Inogen One I thought this is a God send... this is a real piece of art."*
