

What does “MADE IN THE USA” really mean?

The FAWSsit™ Fold Away Wheelchair Showers are proud to fully comply with the U. S. Federal Trade Commission (FTC) requirements for “Made in the USA”.

Per their website, “The Federal Trade Commission (FTC) is charged with preventing deception and unfairness in the marketplace. The FTC Act gives the Commission the power to bring law enforcement actions against false or misleading claims that a product is of U. S. origin.”

Unfortunately, many companies still claim to be in compliance when in fact many of their components are not made in our country; but the FAWSsit™ has made a concerted effort to ensure that its components and assembly are all fully in compliance with this legal requirement.

And, the FAWSsit™ Portable Shower company is a U. S. Veteran-owned business. As a service-connected disabled veteran, the owner of the FAWSsit™ Portable Showers takes special pride in providing the highest quality showering solution for not only his fellow veterans, but also for any senior or person with disabilities. His service to the United States of America has made him particularly focused on providing a fully compliant “Made in the USA” product, unlike companies who may use multiple “off-shore” elements or assembly organizations who attempt to plagiarize the “Made in the USA” status.

The FAWSsit™ Portable Shower company is also in full compliance with all U. S. Department of Revenue requirements and all other agencies appropriate to its operation.
