We focus on your business so *you can focus on your patients*

When manufacturers and retailers work together, patients win. We're here to help by providing a wide variety of incontinence products in various sizes and absorbencies. We also take it a step further by supporting your business with merchandising tools like planograms, and — if you're a Patient Home Delivery Provider — single-pack samples that let your patients try on products. Because at the end of the day, making the lives of your patients a little easier goes a long way.

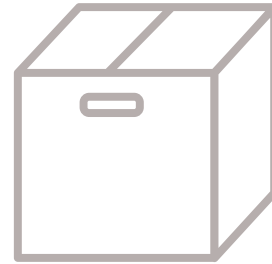

When your patients need products, *McKesson delivers*

Absorbency and Coverage

A complete line of absorbent *incontinence solutions*

Briefs

McKesson Brand briefs are designed to be as comfortable as they are secure. Each features gentle outer leg gathers and flexible hook tabs that can refasten anywhere on the brief. A premium acquisition layer and dual-core performance help quickly absorb fluids and pull wetness away from the skin for better odor control and less irritation.

Underwear

McKesson Brand underwear pulls on and off like regular underwear, with a cloth-like stretch waist and tear-away sides that make each pair easy to remove. A premium acquisition layer rapidly absorbs fluids, while dual-core performance locks wetness away. Patients can rest easy with premium odor control that prevents odors from forming.

Liners and Pads

McKesson Brand liners and pads offer outstanding coverage and comfort. Each is made up of a soft, cloth-like inner and outer material, and is held in place with an adhesive patch. A contoured shape provides extra leak protection, while an inner shield quickly absorbs fluids into the core with the help of an absorbent polymer.

Underpads

McKesson Brand underpads are comfortable and effective. Soft, non-woven edges, fluff core and superior mat configuration provide gentle protection for patients. At the same time, a bonded topsheet and absorbent polymer help lock wetness away and keep skin clean and fresh.

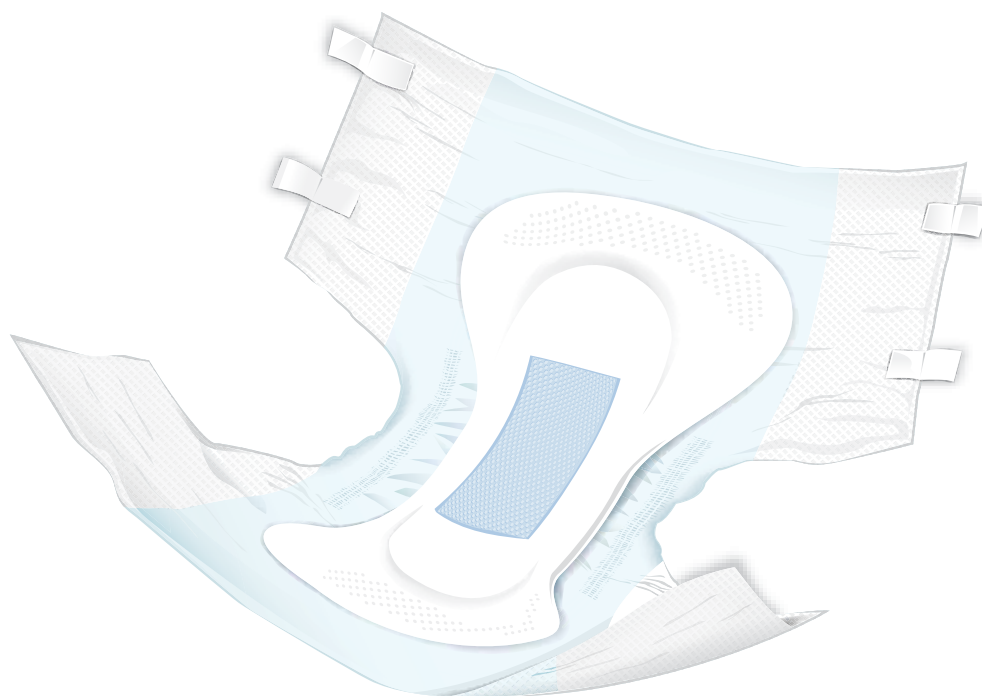

Baby and Toddler

McKesson Brand baby and toddler products meet the needs specific to young children. Each offers a snug, comfortable fit with leg gathers to prevent leaks. A super-absorbent core helps absorb fluids, while features like tear-away sides and stretchable fasteners make them easy to remove.

Quality products to promote healthy skin

Healthy skin begins with clean skin. Our line of disposable washcloths, cleansers and creams works together to clean, soothe and minimize irritation. Each is made of high-quality, hypoallergenic ingredients that are as effective as they are gentle.

StayDry® Washcloths

Our StayDry® Disposable Washcloths provide sanitary, hypoallergenic cleansing with an alcohol-free, rinse-free formula that includes vitamin E and aloe. Made from pre-moistened, soft and non-woven fabric, they offer the right amount of stretch and strength to avoid tearing. And, with a soft pack design, one-handed dispensing and a snap lid, your customers can take them wherever they travel.

Thera™ Moisturizing Body Shield restores hydration to dry, cracked skin through a long-lasting, nourishing formula that relieves dryness and abrasion. It is suitable for the whole body, but ideal for heels, legs, elbows or areas that may need softening or added protection. Dimethicone (1.5%) provides an effective, long-lasting moisture barrier against incontinence episodes and helps restore skin health.

Thera™ Dimethicone Body Shield is a long-lasting body moisturizer for people with varying degrees of dry or sensitive skin. The 5% dimethicone formulation helps to prevent water loss by forming a hydrating barrier. Offers mild protection against irritation from chapped or cracked (but not broken) skin and helps to relieve itching. It is suitable for treating the effects of incontinence-associated dermatitis.

Get the right size for the right results

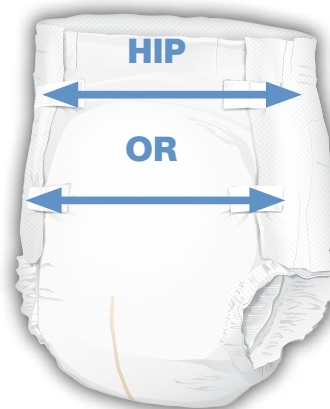

To make sure you select the right size for your patient, start by measuring hip to hip. **Take that number and multiply it by two, then add two inches.**

Hip bone to hip bone = 19" (49 cm)

19" x 2 (49 cm x 2) = 38" (96.5 cm)

38" + 2" (97 cm + 5 cm) = 40" (102 cm)

40" (102 cm) = Medium or Regular brief

Once you have the total hip measurement, use the McKesson sizing charts provided here to determine which size will best fit your patient.
