- 1 Nutrition support of infants and toddlers who require extra calories, minerals, and vitamins and/or protein restriction.
- 1 Use under medical supervision.
- 1 Protein-free to permit protein restriction or the addition of extra energy, minerals, and vitamins.
- 1 L-carnitine (25 mg/100 g) and taurine (50 mg/100 g) to help supply amounts normally found in human milk and foods of animal origin.
- 1 Approximately 49% of energy as fat to help achieve acceptable formula osmolality.
- 1 7.8% of energy as linoleic acid.
- 1 Nutrient profile specifically designed for infants and toddlers. May be used by children and adults.
- 1 Lactose-free.
- 1 Gluten-free.
- 1 Halal.

Safety Precautions

- 1 Give only to infants and toddlers who require extra calories, minerals and vitamins and/or protein restriction who are under medical supervision. Must be supplemented with protein and fluid in prescribed amounts to completely meet protein and water requirements.
- 1 Not intended as a sole source of nutrition.
- 1 Not for IV use.
- 1 Do not boil mixture or use terminal sterilization.
- 1 **Never use a microwave oven to warm formula.** Serious burns can result.
- 1 Powdered infant formulas are not sterile and should not be fed to premature infants or infants who might have immune problems unless directed and supervised by your baby's doctor.
- 1 To meet the nutrient needs of the infant or child, infant formula, breast milk or additional food choices must be given to supply protein requirements. These may be added to the Pro-Phree mixture or prepared separately as instructed. Depending on the specific needs of each patient, preparation will vary as prescribed by physician.

Ingredients

Powder Unflavored:

Preparation

Directions for Preparation and Use: Use Only As Directed by a Physician

Your baby's health depends on carefully following these directions. Proper hygiene, handling and storage are important when preparing infant formula. Failure to follow these directions could result in severe harm. Ask your baby's doctor if you need to use cooled, boiled water for mixing and if you need to boil (sterilize) bottles, nipples and rings before use.

- 1 Wash your hands, surfaces and utensils.
- 1 Pour prescribed amount of water into a clean container.
- 1 Add prescribed amount of Pro-Phree powder (and other ingredients if recommended).
- 1 Shake well for 10-15 seconds; if using a blender, mix no more than 5 seconds.
- 1 Pour mixture into clean feeding bottles or container; cap.
- 1 Once feeding begins, **use within 1 hour or discard.**

Approximate Weights for Unpacked, Level U.S. Standard Dry Household Measures for Powder*

Household Measure (US)	Weight (g)
1 Tbsp	8
1/4 Cup	30
1/3 Cup	40
1/2 Cup	60
1 Cup	120

* For most accurate results, Pro-Phree should be weighed on a scale that reads in grams.

Storage & Handling

Powder

- 1 Once mixed, store bottles or container in refrigerator and **feed to baby or child within 24 hours**
- 1 Store unopened or opened can at room temperature; avoid extreme temperatures.
- 1 **Use opened can contents within 1 month.**
