

Disposable Razors

McKesson Disposable Razors are available in various styles, including single, twin and triple blade designs. The single-blade, double-edged prep razor is designed for single use, and features a sure-grip handle and narrow razor teeth with beveled edges to help reduce the risk of pulling, clogging and nicking. Our twin blade razors are available with or without a lubricated strip, and either a flip-off or slide-off razor cover. The triple blade razor also features a lubricated contact strip to help provide a close, clean shave. Its pivoting head helps follow skin contours, and an ergonomically designed ribbed handle allows for secure grip and better handling.

Features and Benefits

- Single, twin and triple blade designs available
- Both fixed and pivoting head styles available to meet a variety of needs
- Ribbed and contoured handles for a comfortable grip
- Available with or without a moisturizing strip for added protection and comfort
- Comes with removable blade protectors to help prevent injury
- Disposable; designed for single patient use
- Non-sterile
- Not made with natural rubber latex
