Super Chloe™
Patient Care Simulator
S222.100

- Airway management
- Breast examination
- Heart and lung sounds
- Blood pressure training arm
- Gynecologic examination
- Fully articulating
- Stylish wig for haircare exercises and surgical draping
- Ophthalmic exercises
- Ear canal for otic drops and irrigation
- Injection arm for IV, IM, Sub-Q and intradermal exercises
- Pass NG and OG tubes
- Practice colostomy, ileostomy and suprapubic care/irrigation exercises
- Bilateral IM sites, arms and legs
- Interchangeable genitalia
- Urinary catheterization
- Enema administration
- Decubitus ulcers
- Ulcerated foot
- Chest compressions and airway ventilations are measured and logged with Omni controller
- View and log CPR feedback in any computer with CPR Link software included with Omni Code Blue Pack

Includes Omni® Code Blue® Pack

Monitor and log compressions and ventilations with Omni Code Blue pack. Pack includes CPR Link software which allows you to connect Omni to any computer for CPR logging and feedback.

Monitor and computer not included

Ulcerated Foot

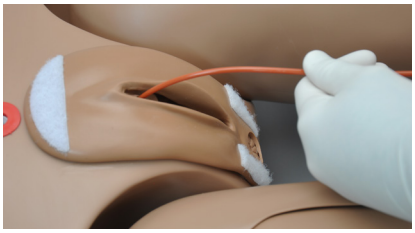
Manual bilateral carotid and right radial palpable pulses. Automatic left radial pulse when Omni is connected to BP arm

Breast Palpation

7 breast options for palpation and examination, including chronic mastitis, benign growth, carcinoma and the “orange skin” effect, giant sarcoma, scirrhus carcinoma, the lymphatic drainage system.

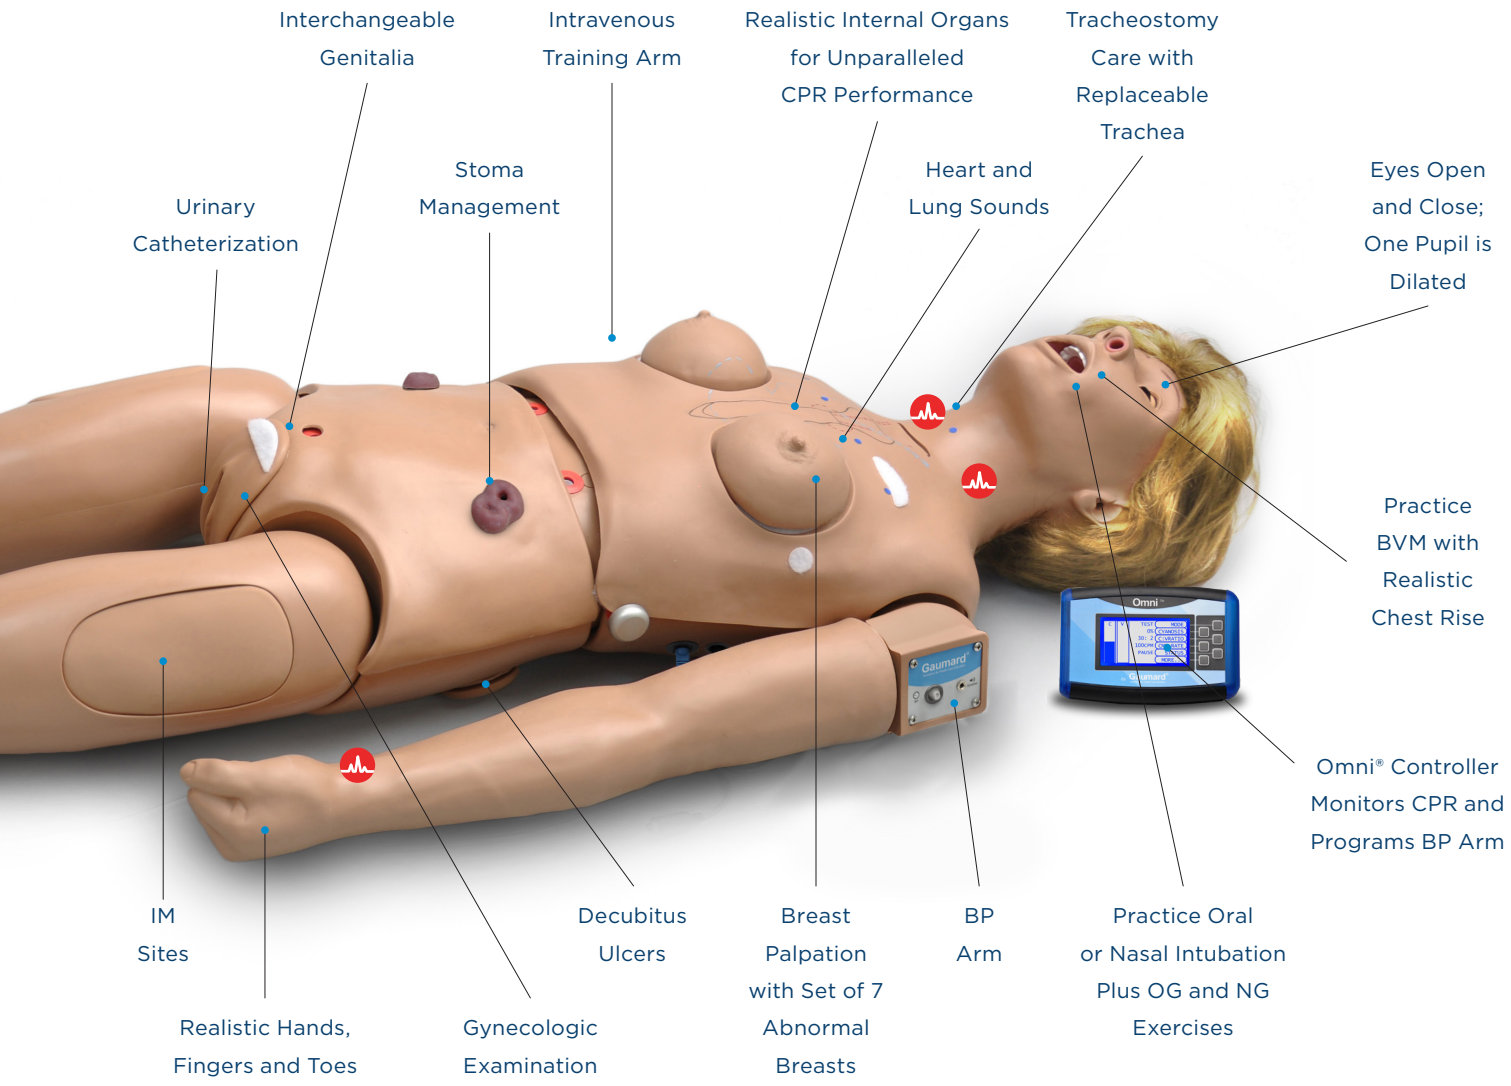
Gynecologic Examination

Practice multiple examination exercises including vaginal douching, PAP smear, visual recognition of normal and abnormal cervices, and more.



Catheterization

Tricuspid valve permits male or female catheterization with soft silicone catheters.



Omni Blood Pressure Arm

Adjustable systolic and diastolic pressures, auscultation gap, and pulse rate. Display tracks cuff pressure.

Injection and Infusion

Injection arm for IV, IM, Sub Q and intradermal exercises.

Heart and Lung Sounds

Sensor network hidden beneath the skin. Hear the appropriate heart or lung sound as bell of stethoscope is moved across the front and back of the torso.

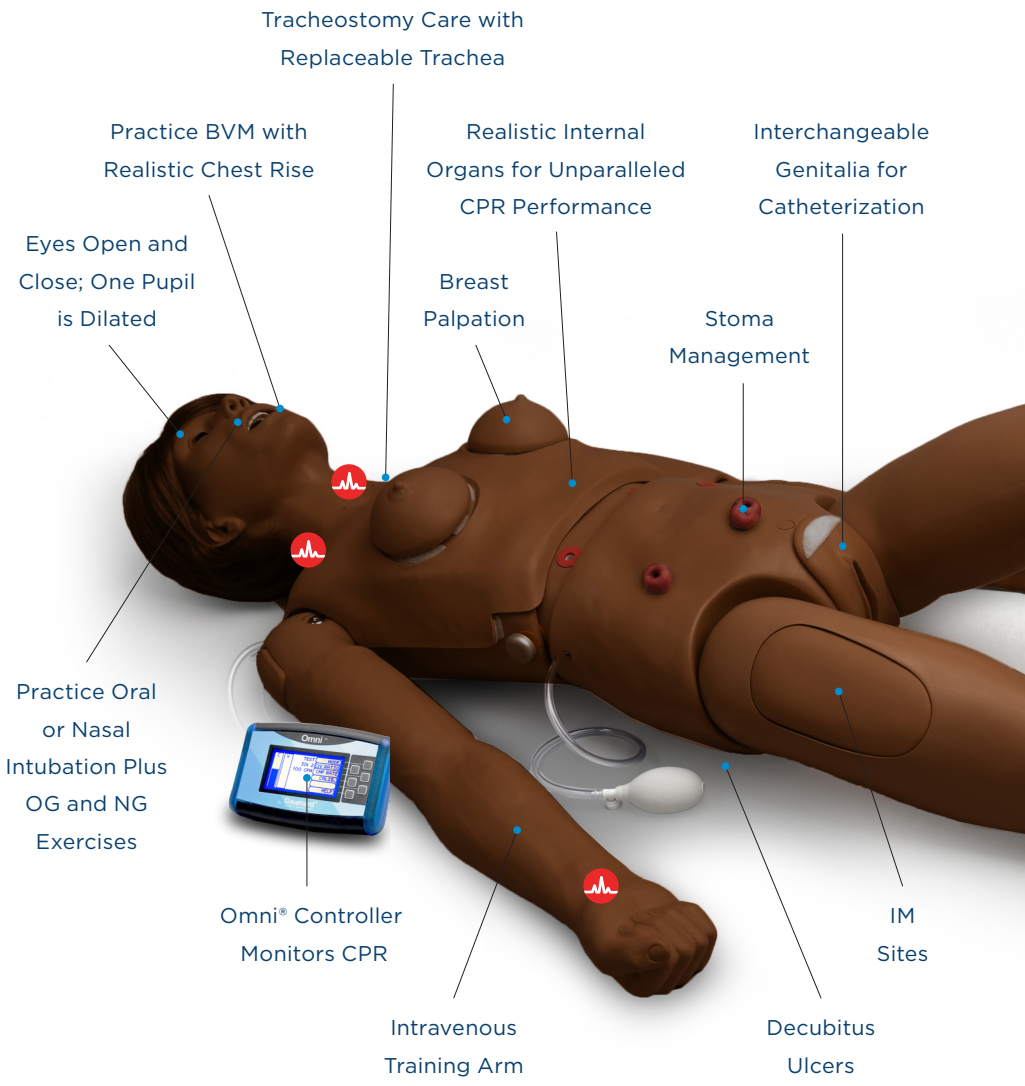
Clinical Chloe™ Advanced | Advanced Patient Care Simulator

Clinical Chloe™ Advanced
Patient Care Simulator
S222 $1,995

- Soft, lifelike faceskin and stylish wig
- Advanced training arm and hand for IV, IM, and Sub-Q techniques
- Ophthalmic exercises
- Movable jaw
- Ear canal for otic drops and irrigation
- Pass NP and OP tubes
- Bends at waist as in human
- Jointed elbows, wrists, knees, and ankles
- Detachable at waist for easy storage
- Intramuscular and subcutaneous injection sites in the deltoids, quadriceps, and left upper gluteal region
- Interchangeable male and female breast inserts (left breast contains malignancy)
- Interchangeable genitalia
- Tricuspid valve permits male or female catheterization with soft silicone catheters
- Practice transverse colostomy, ileostomy, and suprapubic procedures using quality internal, removable tanks
- Enema administration
- Vaginal douching and pap smear exercises with realistic vagina and cervix

Airway Management

- Fully articulating head, neck, and jaw
- Anatomically accurate airway
- Tonque, epiglottis, vocal chords and esophagus look and feel real
- Trachea, bronchi, and lungs enable assessment of airway management skills
- Realistic heart, lungs, ribs, stomach and liver for unparalleled CPR performance
- Chest compressions and ventilations are measured and logged with Omni Code Blue Pack
- View and log feedback in any computer with CPR Link software included with Omni Code Blue Pack
- Pass ET, NP, OP tubes



Manual Bilateral Carotid and Right Radial Pulses

Tracheotomy
Pierce the replaceable trachea and insert a tracheostomy tube with an attached positive pressure device to observe chest rise.

Injection and Infusion
Injection arm for IV, IM, Sub-Q and intradermal exercises.
