

Coming soon!

SenSura® Mio

Your **SenSura® Mio** urostomy bag is getting a new look – and a new product number.

Learn what is changing and what you need to do.

Coloplast

Secure and leak-tight *with a simple twist**

Easy-to-use twist outlet and new adapter

- Designed to limit the risk of urine drips, the new twist outlet is leak-tight, providing a secure closure with little risk of unintentional opening.
- It gives you a hygienic emptying experience* without getting urine on your hands.

Redesigned faucet-style outlet opens and closes with a simple twist

*Simulated use, Coloplast Data-on-File (09/2023), n=30

SenSura® Mio Uro *with added security*

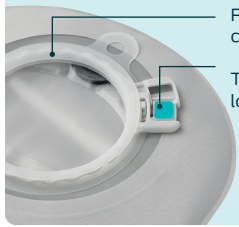

2-piece Click users will notice an improved coupling that is just as secure and easier to apply†

- The improved SenSura Mio Click coupling is leak-tight and just as secure as before^
- Pouch coupling is gentle, easier to apply, and connects securely to your barrier which remains unchanged
- Dotted gray lock tab for an improved grip
- Flexible, adhering to body contours and creating a secure fit
- Easy to remove without causing skin irritation

Improved Click coupling

Current Click coupling

†Simulated use by HCPs, Coloplast Data-on-File (03/2024), n=30; 97% [95%CI: 83%-100%]
^Coloplast, Data-on-File (09/2023), NCT05652010, n=39

ACTION REQUIRED

You will need an updated prescription

Important:

- Your urostomy bag will soon have a new product number and a new reimbursement code
- To continue receiving your SenSura Mio urostomy bag, now with a twist outlet, you will need to update your prescription

Talk to your supplier or prescribing clinician about updating your prescription.

You should also confirm that your supplier updates the product number on your order.

Your new product number will be your current 5-digit number with a "0" added at the end (making it a 6-digit number).

To learn more about the new twist outlet, or to find out how and when to switch, call the Coloplast Care team at 1-855-430-9500.
