Blenders and hand mixers are also great tools for bulk mixing SimplyThick. Bulk preparation

Measure 32 oz./960 ml of beverage for each packet of SimplyThick, or dispense SimplyThick into beverage according to the chart on the left.

Ensure there is at least 2-3" (5-7.5 cm) of head space. Mix briskly with whisk – like beating an egg – for 20-30 seconds.

SimplyThick's pre-measured packets allow for fast and easy preparation of beverages anywhere. Each packet produces either nectar or honey consistency. Two honey packets produce pudding consistency.

The SimplyThick® brand thickener dispenser bottle is designed for simple, quick use in situations that require maximum flexibility in thickening. Simply add the appropriate amount of gel and mix.
