Simply Intuitive.
The Hill-Rom® Advanta™ 2 Bed
WE LISTENED TO NURSES FROM MED-SURG UNITS EVERYWHERE TO INTEGRATE A NUMBER OF FEATURES THAT FACILITATE AN INTUITIVE, EMPOWERING EXPERIENCE.

The Care Grip patient egress assist handle is designed to facilitate safer bed entry and exit by providing ergonomically correct leverage for patients.
**Advanta™ 2 Bed: Simply Intuitive.**

At Hill-Rom, we understand that Med-Surg caregivers must possess a multitude of capabilities to treat patients effectively. We listened to nurses from Med-Surg units everywhere to make sure the Advanta™ 2 bed can help you navigate your ever increasing daily challenges.

The results: the Advanta™ 2 bed integrates several features that facilitate an intuitive, empowering experience for caregivers and patients alike.

**An intuitive caregiver experience.**

- Four-corner brake and steer for easy mobility
- One-button Dining Chair® feature places patients at a low height
- Built-in bed extender lets a single caregiver add length to the bed
- Integrated Line Manager keeps IV lines untangled and out of the way

**Protect your patients from skin breakdown.**

Designed by experienced clinical professionals, our comprehensive Safe Skin® program for the prevention and treatment of skin breakdown helps improve outcomes with the goal of making them repeatable and sustainable.

The bed’s open architecture also lets you stretch your budget by choosing virtually any available support or therapy surface. By empowering patients with features that enhance their autonomy and facilitate their independence, the Advanta™ 2 bed improves their experience and is designed to deliver comfort.

**An empowering patient experience.**

- Care Grip patient egress assist handle
- In-rail storage compartment
- Siderail patient positioning controls are freely accessible to the patient
Advanta™ 2 Bed: Simply Reliable.

Patient safety is the number one concern of every caregiver. That’s why we created these state-of-the-art features to help the caregiver avoid potential safety issues and support fall prevention programs or protocols. The Advanta™ 2 bed is designed to promote safety at the bedside and throughout the facility.

One-button Dining Chair® position enables caregivers to place patient in the chair position while the bed remains at a low height.

The Electric Vascular Foot allows the caregiver to raise patient’s feet without having to lift the weight of the patient’s legs.

Point-of-Care® siderail controls are conveniently located in a central location, on both sides of the bed, where patient and caregiver interaction occurs.

The ergonomically correct Care Grip handle provides just the right grip for safer bed exit.

SlideGuard® bed articulation technology helps support patient positioning.

Convenient siderail storage provides the patient access to their cell phone, glasses or other personal items.
Advanta™ 2 Bed: Simply Outstanding.

The Advanta™ 2 med-surg bed is designed to help you best meet your daily challenges. Its intuitive and integrated functionality—like positioning, transporting, communication, monitoring, and alerts—deliver the features to help address your top priorities and enhance your experience as a caregiver.

Three-Mode Bed Exit System with three different sensitivities—Patient Movement, Bed Exiting, and Out-of-Bed—may help reduce false alarms with normal patient movement.

SafeView® Alert System keeps staff informed of a patient’s bed status.

The Advanta™ 2 bed connects to send data to NaviCare® Nurse Call, EMRs or other clinical applications.
Advanta™ 2 Bed: Simply Empowering.
