Home Care Beds

High-Quality Beds
Medline beds meet or exceed very stringent dynamic and static load requirements. Each bed is inspected and fully system tested at maximum weight capacity.

Overall Cost Effectiveness
As National Competitive Bidding (NCB) moves forward, reimbursements are being slashed by up to 30 percent.1 To offset these reductions, it’s more important than ever to find new ways to cut costs:

• Reduced overall cost of ownership – Because Medline beds stand the test of time, we offer some of the longest warranties in the industry.
• Reduced risks – Medline has beds and motors that are very light, reducing the risk of back injuries or property damage during storage, setup and transport.
• Economical beds for rentals that you expect to cap out – Our Basic beds offer a lower price-point to help reduce your up-front costs, and they still come with a generous five-year warranty.
• Increased efficiency – The electronics on Medline’s MedLite beds are washable, so cleaning doesn’t require removal of the motor. And with our wide selection, you can get everything you need, without having to shop around.

Reference:

Reliable Service
Medline has a large staff of friendly and knowledgeable home care bed specialists, sales representatives and customer service agents who are waiting to provide you with world-class support.
MedLite Beds

High-Quality
- Premium Linak® motors provide smooth reliable operation for years
- Recessed headspring supports and foot assembly reduce the chance of pinching and injuries

Light
- We have some of the industry’s lightest beds, making transport, setup and storage much easier
- Our MedLite semi-electric bed weighs only 137 lbs (62 kgs)
- The 24V DC motors are also lightweight – and quiet

Strong
- An extra steel plate is welded to the middle of the frame ensuring strong and stable support
- Painted frames have three coats of enamel plus a clear coat for a strong, chip and scratch-resistant finish
- Durable plastic wood grain end panels resist breakage
- Heavy-duty remotes resist breakage and moisture

Easy-To-Use
- The beds can be cleaned without having to remove the motor, and the electronics can be washed down with standard water pressure
- End panels are easy to wipe down and keep clean
- Smooth rolling, casters make the bed easy to move
- Convertible to a low bed using MedLite Low Bed Conversion Kit Sold separately (see p. 102)

Light beds with a great warranty! MedLite beds help reduce the risk of back injuries or property damage because they are among the lightest home care beds in the industry.

“My dealership prefers Medline beds because they’re a good value for the money. They’re very durable and the long warranty gives us peace of mind. Thanks Medline!”

Frank Lopez, AV Pulmonary Care, Lancaster, CA
Growing Number of Injuries Among Delivery Drivers
US Department of Labor Statistics on Occupational Injuries

Increase of 24 percent for light or delivery service truck drivers!

The number of reported nonfatal occupational injury and illness cases that require days away from work to recuperate decreased by 9 percent in 2009 for private industry, state government and local government, according to the Bureau of Labor Statistics. The total incidence rate decreased 5 percent to 117 cases per 10,000 full-time workers. Some of the overall decrease in case counts may be attributed to economic factors, including a decrease in employment and total hours worked, particularly in construction and manufacturing.

CASE CHARACTERISTICS

Overexertion accounted for 22 percent of all occupational injuries and illnesses. Among the seven occupations with high case counts and incidence rates, it was the leading event or exposure for nursing aides, orderlies and attendants; janitors and cleaners; and all truck drivers (except driver/sales workers).

<th>Median Days Away From Work</th>
</tr>
</thead>
<tbody>
<tr>
<td>Truck drivers, light or delivery services</td>
<td>31,600</td>
<td>14</td>
</tr>
</tbody>
</table>

The study also showed that with truck drivers, light or delivery services, there was a median of 14 days away from work as a result of these injuries. With statistics like these, HME dealers can’t afford to take delivery drivers’ backs for granted.

KEY FINDINGS:

Despite the total decrease in the incidence rate, the following occupations in the private sector had increases in their rates:

- Light or delivery service truck drivers (increased 24 percent)
- Restaurant cooks (increased 20 percent)
- Landscapers and groundskeepers (increased 10 percent)
- Registered nurses (increased 5 percent)

DID YOU KNOW

Medline’s MedLite beds are up to 40 lbs. lighter than most other home care bed available today, helping you reduce the risk of injuries to your delivery drivers.
Home Care Beds

Basic Full- and Semi-Electric Beds

Light
- Easy to transport with a foot section that weighs just 42 lbs (19 kgs)

Easy-to-Use
- Convenient DC motor box snaps off quickly, making delivery, setup, and routine maintenance easier

Safe
- A 9V battery back up allows movement to lowest bed position during power failures (batteries not included)
- Headspring supports recessed to resist pinching and injuries
- Foot assembly recessed to reduce chance of pinching

High Quality
- 5-year warranty on electronics and 2-year warranty on mechanical components
- 100% system tested and certified

Comfort and reliability at an economical price

Basic Full-Electric Beds
Provides high reliability at an economical price

Basic Semi-Electric Bed
Features both a smooth high-low motor and a traditional hand crank

Features
- Light weight – foot section weighs just 42 lbs. (19 kg)
- Convenient DC motor box snaps off quickly, making delivery, setup, and routine maintenance much easier
- 9V battery backup allows lowering during power failures (battery not included)
- Recessed headspring supports and foot assembly help reduce the chance of pinching and injuries

Transport your Basic bed with ease. Just fold, attach and roll!
- Makes beds easy to transport and facilitates efficient storage
As of August, 2011, Round One of competitive bidding yielded reductions of 35% compared to the fee schedule, 51% of contracts awarded to small businesses, and no changes in beneficiary health status. Inquiries in the first quarter of 2011 totaled less than 0.9 percent of calls to the Medicare call center, and Medicare received only 45 complaints during that time.1

**THE EXPANDED ROUND TWO CATEGORIES OF PRODUCTS ARE:**

- Oxygen, oxygen equipment, and supplies
- Standard (Power and Manual) wheelchairs, scooters, and related accessories (a new category that combines all mobility devices)
- Enteral nutrients, equipment, and supplies
- Continuous Positive Airway Pressure (CPAP) devices and Respiratory Assist Devices (RADs) and related supplies and accessories
- Hospital beds and related accessories
- Walkers and related accessories
- Negative Pressure Wound Therapy pumps and related supplies and accessories (new category)
- Support surfaces (Group 2 mattresses and overlays)

**CMS will now begin a pre-bidding supplier awareness program for Round Two, and conduct a national mail order competition for diabetic testing supplies at the same time as the Round Two competition.**

A list of ZIP codes included in Round Two and a list of the specific items in each product category are available on the website for the Competitive Bidding Implementation Contractor: [www.dmecompetitivebid.com](http://www.dmecompetitivebid.com)

Additional information on the competitive bidding program is available at: [http://www.cms.hhs.gov/DMEPOSCompetitiveBid/01_overview.asp#TopOfPage](http://www.cms.hhs.gov/DMEPOSCompetitiveBid/01_overview.asp#TopOfPage)

Bariatric Full-Electric Bed

Split-spring design provides for easy setup with minimal tools and trouble-free delivery. Three powerful AC motors raise the head section, foot section and overall height with ultra-quiet and smooth operation.

Features
- Split-frame design provides for easy setup with minimal tools and trouble-free delivery
- Mattress not included
- Three AC motors for the head section, foot section, and overall height

Specifications
- Weight capacity: 600 lbs. (272 kg)
- Extra-wide pan deck: 42” (107 cm) x 80” (203 cm)
- Assembled weight: 320 lbs. (145 kg)
- Height range: 18”-26.5” (46 cm-67 cm)
- Casters: Four (2 locking)
- Warranty: 2 years for electrical and mechanical components; lifetime for the bed frame

Features
- Comfortably accommodates larger patients with a 600 lb. (272 kg) weight capacity and an extra-wide deck: 42” (107 cm) x 80” (203 cm)
- Reinforced pan deck creates a strong bedding surface

Easy
- Split-frame design sets up with minimal tools and simplifies delivery
- Smooth rolling casters allow easy positioning of bed

Reliable
- Strong AC motors provide reliable lifting for years
- Durable remote features easy-to-access buttons

Premium Extra Weight Capacity Full-Electric Bariatric Bed

Ultra-strong beds with a full 1,000 lb. (454 kg) weight capacity

Features
- Linak motors allow for dynamic movement without disturbing a partner or surrounding residents
- Includes mattress
- Foot section does not pitch down, but plateaus to help reduce edema of lower extremities
- Multiple positions (Trendelenberg, Reverse Trendelenberg and Cardio Chair)
- Independent head and knee gatch for personalized positioning

Specifications
- Weight capacity: 1,000 lbs. (454 kg)
- Height range: 15.25”-24.5” (39-62 cm)
- Casters: Four locking casters
- Warranty: 1 year for electrical and mechanical components; 5 years for the bed frame
Premium Full-Electric Bariatric Beds

Two available widths in one easy-to-operate bed. Slide feature adjusts the bed width from 38"-48" (97-122 cm), allowing the bed to be used as a gurney for easy transfer through doorways.

Features
- Linak motors allow for dynamic movement without disturbing a partner or surrounding residents
- Foot section does not pitch down, but plateaus to help reduce edema of lower extremities
- Includes mattress
- Three DC motors for the head section, foot section and overall height
- Optional bed-mounted trapeze, 6" (15 cm) extended length to 86" (218 cm), heavy-duty side rails and digital scale

Specifications
- Weight capacity: 750 lbs. (340 kg)
- Height range: 15"-28" (38-71 cm)
- Casters: Four locking casters
- Warranty: 1 year for electrical and mechanical components; 5 years for the bed frame
