

FRIO® Facts

~Keeps insulin cool and safe
~Refrigeration NOT needed -
Simply activates with cold water!

~Reusable
(a very **green** product)

~Light and compact

~Perfect for travel

~Perfect for power outages

~Available in several sizes and colors

~Great in **HOT** weather!!! FRIOs® have been used in temperatures in excess of 120° F with complete success.

~Tests prove that FRIOs® retain their contents at around 25°C (77-79°F) for a minimum of 45 hours per immersion period in a constant environmental temperature of 38°C (100°F).

~FRIOs® have considerable insulation properties, preventing insulin from freezing at cold temperatures.

~FRIOs® give you convenience, freedom and, most importantly, peace of mind.

FRIO® Cooling Case

The FRIO® Cooling Case will change the life of any insulin-dependent diabetic or anyone who is dependent on medication that needs to be kept cool.

Unlike a traditional medication-cooling carrying case, the FRIO® is a pouch whose cooling properties do not come from an icepack - or anything that needs refrigeration. Its cooling properties come from water. The FRIO® contains crystals activated by immersion in cold water and maintains its low temperature for a minimum of 45 hours through the evaporation of the water.

With the FRIO®, the person dependent on medication that must remain cool is not dependent on ice or refrigeration in any way or at any time.

For a FRIO® to be activated, it simply needs to be soaked in water for 5-10 minutes and it retains its cooling properties - for a minimum of two full days. After that, it again only needs to be soaked in water and it is good for another two days - and so on, and so on...

So, while a traditional medication-cooling case gives you a six to eight hour "tether" to refrigeration, the FRIO® breaks that tether, giving you the safety of not being dependent on refrigeration for the life-critical cooling of your insulin. It gives you the freedom to enjoy life as you choose.

Furthermore, because you do not need an icepack or the surrounding insulating materials, the FRIO® wallet is lighter and smaller than traditional medication-cooling cases. There are various sizes of FRIO® available - some small enough to fit in your jean pocket!

PERFECT FOR
EMERGENCY KITS, CAMPING & BIKING TRIPS,
PICNICS, TRAVEL, DIABETIC CARE CENTERS, GIFTS

These are some examples
of how the
FRIO®
will change
your life...

Travel ~ When you travel, you need to find a way to re-freeze a traditional cooling case throughout the day or overnight. Although many hotels have in-room refrigerators/freezers, many do not. Regardless, advance arrangements need to be made. With the FRIO® you need not worry if there is a refrigerator in the room or one you can access - all you need is water.

Camping ~ With a traditional cooling case, camping or backpacking becomes difficult or even impossible. After soaking your FRIO® in water, you can go on a full two-day trip. As long as there is water, the trip can be as long as you want it to be - with no worries!

Confidentiality & Convenience ~ It is difficult to maintain confidentiality when you need to take out a large carrying case. You can carry a smaller-sized FRIO® in your pocket. The convenience and confidentiality are both a welcome difference.

Safety ~ After the hurricanes in New Orleans, diabetics died - because of the lack of electricity. Without electricity, there was no refrigeration. Without refrigeration, traditional cases could not be kept cool. Without a case that would keep insulin cool in the hot weather, the insulin went bad. With FRIO®, this did not happen. FRIO® users had no such issues. With a FRIO® you are no longer dependent on ice or refrigeration. **The FRIO® is a basic necessity for the emergency preparedness of any insulin-dependent diabetic.**

FRIO® Products

Mini ~ 3" x 4"
1 vial

Individual ~ 2.5" x 7"
1 pen or 1 to 2 vials

Extra Small/Eye Drop ~ 5" x 5"
2 vials or 3 eye drop bottles

Small ~ 5.5" x 6"
2 to 3 vials or 10 cartridges

Duo ~ 3.25" x 7"
2 pens or 1 pen & 2 cartridges

Large ~ 5.5" x 7.5"
Up to 5 pens/vials or combo

Extra Large ~ 6" x 8.25"
Up to 8 pens/vials or combo

Pump ~ 3.75" x 4.75" (internal)
Comes w/liner. Holds most pumps.

Medium/Injector ~ 6" x 6"
Comes w/liner
1 Innova Injector & 2 cartridges or 2 Innova Injectors

Vitesse Travel Case ~ 9" x 6.25" x 2.5"
Handy insulated Travel Case for storing all your diabetes equipment.
Does not come with FRIO®

Other FRIO® Products Available:
Head/Neck Coolers, Wrist Bands, Ankle Bands,
Drink Coolers

Colors ~ Black, Blue, Burgundy, Green, Red*
(*Head/Wristbands not available in Red.
Vitesse available in Black only)
