Handwashing Gets Results

Study of 305 Detroit students who washed four times a day:
- 24% fewer colds and 51% less stomach upset.

Minnesota daycare-teachers helped the kids wash their hands every morning when they arrived and the staff disinfected all area parents may have touched.
- Result was 50% fewer illnesses at daycare.

Another Minnesota school has begun using foam soap.
- Result is 75% increase in hand washing rates.
