SilvaKollagen Gel
Silver Antimicrobial Collagen Gel

SilvaKollagen Gel is a silver antimicrobial gel with hydrolyzed collagen. The patented formula absorbs 8 to 10 times its weight in fluid and contributes moisture if the wound is dry. Published abstracts report improved healing\(^1\)\(^-\)\(^4\), improved pain control with decreased need for narcotics\(^1\)\(^-\)\(^4\) and expedient debridement\(^3\). SilvaKollagen Gel also helps control bleeding, deodorizes, and minimizes scarring.

**Benefits:**
- Ionic antimicrobial activity with 1% silver oxide
- Fragmented type 1 bovine collagen has many active sites to facilitate wound healing at the cellular level
- Absorbent gel able to donate moisture to dry wounds or absorb up to 10 times its weight from exuding wounds
- Augments autolytic debridement via moist wound healing & formation of occlusive gelatinous barrier
- Helps control pain at the wound site
- Conforms to any wound site
- Biocompatible & biodegradable

**Indications:**
For the management of chronic or acute wounds, including:
- Pressure ulcers
- Venous ulcers
- Diabetic ulcers
- Donor & graft sites
- Arterial ulcers
- Superficial wounds
- Traumatic wounds
- Surgical wounds
- First & second degree burns
