SCIENTIFICALLY ENGINEERED TO BE THE WORLD'S LIGHTEST, MOST POWERFUL & MOST FLEXIBLE COMPRESSION

2XU is the global leader in converting scientific, evidence-based research into the world's best performance enhancing compression garments.

We have scientifically engineered the **LIGHTEST, MOST POWERFUL** and **MOST FLEXIBLE** compression fabric in the world, which retains its strength and integrity well beyond our competitors. Our garments are independently tested at every stage of development to give athletes the ultimate edge in training, performance and recovery. But don't take our word for it. More than a decade of research by the world's leading independent research institutes shows the true biomechanical and physiological benefits of 2XU compression.

2XU COMPRESSION FABRIC

#1 POWER BALANCE & RESIDUAL STRETCH

WEFT & WARP STRETCH [%]

MORE THAN
TWICE
THE COMPRESSION POWER
OF OTHER BRANDS*

POWER RESULTS (NEWTONS)

*BASED ON AVERAGE NEWTONS MEASURED FOR 8 COMPETITOR COMPRESSION BRANDS

TRAINING & PERFORMANCE

GAINS OF UP TO **10.6 SECONDS** OVER A 5KM RUN

REDUCES OSCILLATORY PROPERTIES

OF QUADRICEPS, CALVES AND SURROUNDING SOFT TISSUE

REDUCES **HEART RATE** BY UP TO 2.5% FOR EXERCISE BOUTS LASTING UP TO 15mins

5%↑ PEAK POWER GAINS **18%** BLOOD FLOW INCREASE TO THE QUADS

DELIVERS **LOWER** MARKERS OF BLOOD CLOTTING IN A MARATHON

POWER IMPROVEMENT OF UP TO 1.4% FOR EXERCISE BOUTS UP TO 30 MINUTES

EVEN IMPROVEMENT OF THIS MAGNITUDE MAY INFLUENCE COMPETITION SUCCESS

RECOVERY

4.8% INCREASE IN BLOOD LACTATE REMOVAL IN A 60 MINUTE RECOVERY PERIOD

REDUCED SWELLING TO THE THIGH BY 1.1cm TO THE CALF BY 0.6cm

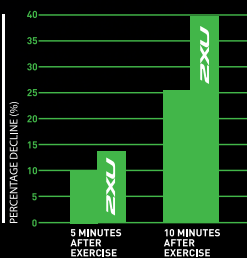

BASED ON GIRTH MEASUREMENT WHEN WORN IN A 60 MINUTE RECOVERY PERIOD

POWER IMPROVEMENTS OF UP TO 2% WHEN WORN FOR RECOVERY BETWEEN REPEAT BOUTS OF EXERCISE

33% IMPROVED RECOVERY BASED ON PERCENTAGE DECLINE IN BLOOD LACTATE LEVELS

SPEEDS UP RECOVERY	
REDUCED SWELLING	Powerful graduated compression prevents the retention of fluid in tissue by reducing the amount of swelling and by increasing its removal through improved venous return and lymphatic drainage.
REDUCED DOMS	Reduces oscillation and micro-tearing during exercise, and compressing muscle belly after exercise, reduces bleeding within the muscle and thus prevents delayed onset of muscle soreness (DOMS)
FASTER MUSCLE REPAIR	Graduated compression improves blood flow and lymphatic drainage, removing toxins and speeding up muscle repair.

COMPRESSION FABRIC TECH INFO

Compression Pressure Measurement Guide

30-40 mmhg – EXTRA FIRM COMPRESSION

20-30 mmhg – FIRM COMPRESSION

15-20 mmhg – MODERATE COMPRESSION

8-15 mmhg – MILD COMPRESSION

This information should not be construed as medical advice. Please seek professional advice for any medical conditions for appropriate compression.

Tights and Legs Sleeves	mmhg Rating *	Compression Guide
Power Recovery Tight	25-30 mmhg	FIRM
MCS Cross Training Compression Tights	23-26 mmhg	FIRM
Refresh Recovery Tight	20-25 mmhg	MODERATE/FIRM
TR2/Accelerate/Midrise Compression Tights	22-25 mmhg	MODERATE/FIRM
Flight Compression Tights	15-20 mmhg	MODERATE
Compression Flex Recovery Leg Sleeves	28-33 mmhg	FIRM/EXTRA FIRM
Compression Calf Guards	17-20 mmhg	MODERATE
Tops and Arm Sleeves		
Compression Long Sleeve Top	12-16 mmhg	MODERATE
Compression Short Sleeve Top	12-16 mmhg	MODERATE
Compression Sleeveless	12-16 mmhg	MODERATE
Custom Compression Arm Guards	17-20 mmhg	MODERATE
Socks		
Compression Socks for Recovery	28-33 mmhg	FIRM/EXTRA FIRM
Flight Compression Socks	15-20 mmhg	FIRM/EXTRA FIRM

RECOVERY COMPRESSION - MENS

GET YOUR BODY BACK TO PEAK LEVELS IN THE FASTEST POSSIBLE TIME

During training the body can be subject to explosive movements and strain on muscles that can leave you depleted and sore. 2XU graduated compression increases venous return to the heart. This helps with the removal of blood lactate from muscles to return oxygenated blood to the body, help reduce swelling and speed muscle repair for faster recovery.

POWER RECOVERY TIGHTS

The ultimate compression tights for those wanting to get back to their peak in the fastest possible time. The tight provides over-foot compression for rapid recovery. Engineered with powerful PWX 105D fabric combined with stamping technology to create greater power, and graduated compression to help reduce muscle soreness and overall recovery time. Ideal for powerful short-term wear to maximise recovery (1-3 hours).

REFRESH RECOVERY TIGHTS

Superior gradient compression to stabilise muscles and promote increased blood flow for faster recovery and return to form. Comfort waistband allows for extended hours of wear. The perfect recovery tool after rigorous training and competition for fresher legs. Ideal for extended wear to maximise recovery (1-6 hours).

TRAVEL

TRAVEL

2XU GRADUATED COMPRESSION

The 2XU Travel range delivers the highest grade graduated compression. This powerful compression fits firm (15 - 20mmHg) to improve blood flow and lymphatic drainage, removing blood lactate and speeding up muscle repair. These benefits are further enhanced by graduated stamping technology and overfoot compression to accelerate muscle recovery.

POLYGIENE

Polygiene is permanently intergrated into fabric to provide lifetime anti-odour by preventing the growth of odour-causing bacteria and fungi. Garments last longer due to the reduction in bacteria and excessive washing.

ELITE SPORTS COMPRESSION

COLORED CUSTOM COMPRESSION FOR
THE OUTPERFORMERS

Customize your compression to your team colors.
Wear under uniform during practice and games to
increase performance and reduce muscle soreness.
Add team logos or order your compression blank
to stay compliant.

2XU
HUMAN PERFORMANCE. MULTIPLIED.

teamwear@2xu.com

- 7-9 week delivery
- Minimum 10 per style; 20 total
- With or without 2XU logos

CUSTOM PERFORMANCE COMPRESSION - MEN'S

IDEAL FOR BOTH HIGH AND LOW IMPACT TRAINING & COMPETITION

COMPRESSION BENEFITS

- Reduced muscle fatigue and soreness
- Reduced muscle damage and risk of overuse injuries
- Improved performance
- Improved muscle alignment
- Increased agility
- Faster recovery

GARMENT FEATURES

01. Compression support to adductor, glute, quad and hamstring muscles to reduce muscle vibration
02. PWX 70D front and 105D back panels (PWX 70D only or Sleeves and Sleeveless Top)
03. Tights & Shorts feature 2XU accelerate waistband for comfort
04. Flatlock seams to reduce chafing

FABRIC BENEFITS

01. Lightweight yet powerful PWX fabrics
02. Durable yarns that outlasts the competition
03. Multi-directional stretch
04. Flexible & breathable
05. Moisture wicking yarns to help keep you dry
06. Antibacterial
