BD – Your Diabetes Injection ExpertsSM

Needle length (mm)

For a comfortable injection experience, shorter needle lengths are recommended and preferred.

BD Nano 4mm and BD Mini 5mm only available in pen needles.
6mm needle only available in syringes.

Needle gauge (G)

The higher the gauge, the thinner the needle.
For example, 32G is thinner than a 31G needle.

Insulin Syringe Volume (mL/cc):

Capacity	For doses up to:
3/10 mL (Half-Unit Scale)	30 units
3/10 mL	30 units
1/2 mL	50 units
1 mL	100 units

The shortest, thinnest pen needle –
BD Nano 4mm x 32 G

(Actual Size)

BD Ultra-Fine™ Pen Needles

BD Ultra-Fine™ Nano	4 mm (5/32") x 32 G
BD Ultra-Fine™ Mini	5 mm (3/16") x 31 G
BD Ultra-Fine™ Short	8 mm (5/16") x 31 G
BD Ultra-Fine™ Original	12.7 mm (1/2") x 29 G

6mm™ The shortest, thinnest insulin syringe needle –
BD Ultra-Fine™ Needle
6mm (15/64") x 31G

(Actual Size)

BD Insulin Syringes with the BD Ultra-Fine™ Needle

BD Ultra-Fine™ 6mm	6 mm (15/64") x 31 G
BD Ultra-Fine™ Short	8 mm (5/16") x 31 G
BD Ultra-Fine™	12.7 mm (1/2") x 30 G

Why switch your patients to a smaller needle?

Here are some important reasons to recommend the new BD Insulin Syringe with the BD Ultra-Fine™ 6mm needle and BD Ultra-Fine™ Nano 4mm x 32G Pen Needle to your patients:

• Effective

As effective as longer needles.^{1-3,5}

• Less intimidating

• Reduces risk of a painful injection into the muscle

Shorter needles reduce the risk of injecting into the muscle.⁴ Avoiding injection into the muscle is important for consistent absorption of insulin and contributes to the management of blood glucose levels.

Not Actual Size

Proper Injection Technique

Proper injection technique is essential to improve consistency in medication delivery and optimize glycemic control.¹ It includes factors such as:

- knowing where the common injection sites are
- understanding how to rotate sites
- ensuring consistent delivery into subcutaneous (fat) layer
- choosing proper needle length
- avoiding injecting into muscle

BD Safe Sharps Disposal

Many common "safe" needle disposal
methods aren't as safe as once thought.

Common containers may break during collection and in the compactor. This exposes everyone to potential health and safety risks, and anxiety.
BD offers a better solution.

BD™ Home Sharps Container

For safe disposal of used insulin
syringes, pen needles and lancets

Catalog No.	NDC/HRI No.
323487	08290-3234-87

BD™ Sharps Disposal by Mail

Sharps-filled containers with
a postage-paid mailing box to
return for proper disposal

Catalog No.	NDC/HRI No.
323488	08290-3234-88

BD Safe-Clip™

Needle clipping and storage device
safely holds up to 1,500 needles

Catalog No.	NDC/HRI No.
328235	08290-3282-35

NEW

BD Safe-Clip™ by Mail

Needle clipping and storage device with
a postage-paid mailing box to return
for proper disposal

Catalog No.	NDC/HRI No.
328335	08290-3283-35

BD Lancets

BD Ultra-Fine™ 33 Gauge Lancets

- No lancet is thinner
- Fits most lancing devices

Quantity	Catalog No.	NDC/HRI No.
100	322057	08290-3220-57

BD Ultra-Fine™ 30 Gauge Lancets

- Ultra-thin for greater comfort
- Fits most lancing devices

Quantity	Catalog No.	NDC/HRI No.
100	325773	08290-3257-73
200	325772	08290-3257-72

BD Accessories

BD™ Alcohol Swabs

For pre-injection and pre-sampling cleansing

Catalog No.	NDC/HRI No.
326895	08290-3268-95

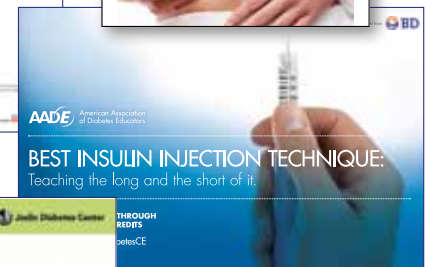

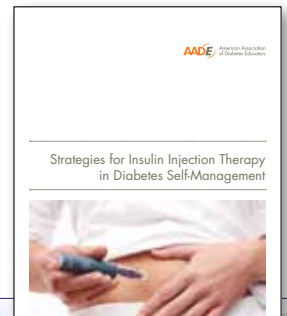

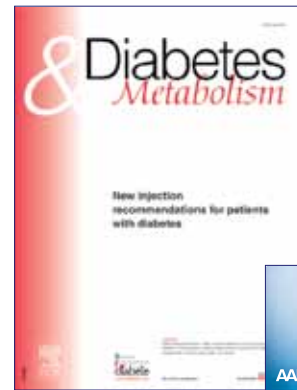

BD Magni-Guide™

Insulin syringe magnifier and needle guide to help patients with vision or dexterity problems

Catalog No.	NDC/HRI No.
328233	08290-3282-33

Leading publications support healthy injection practices with shorter needles

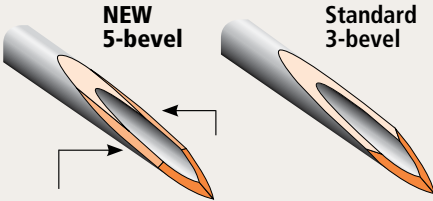

**Recommend what your patients prefer—
and upgrade them from longer needle lengths
to the BD Nano 4mm Pen Needle or
the NEW BD Insulin Syringe with the
BD Ultra-Fine™ 6mm Needle—
Only from BD!**

**New
& Improved!**

BD Ultra-Fine™ Pen Needles

The patented PentaPoint™ needle tip is specially designed with 5 beveled edges that create a flatter, thinner surface allowing for a smoother and gentler injection.

Now with
PentaPoint™
Comfort

More bevels designed for more comfort!

Needles are not shown at actual size.

New

Introducing the BD Insulin Syringe with the BD Ultra-Fine™ 6mm Needle

Over 80% of patients with diabetes preferred the BD Insulin Syringe with the NEW BD Ultra-Fine™ 6mm needle to their current needle^{1†‡}

**NEW 6mm needle
is 53% shorter!‡**

Needles are shown at actual size.

†Compared with the 12.7mm x 30G.

‡Current needle sizes: 12.7mm and 8mm.
