

# WINGS™ Premium Underpads

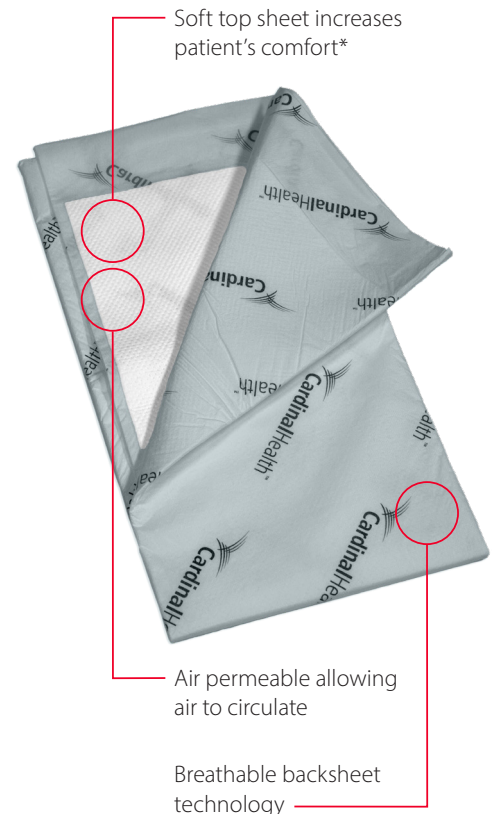

Moisture-wicking technology helps keep patients' skin dry and healthy.

- Strong backsheet resists tearing while maintaining the pad's integrity
- Super-absorbent core is designed to quickly lock in fluid and neutralize unpleasant odors
- Moisture vapor permeable film allows moisture vapor (gas) to transfer away from the patient while protecting bed linens/clothing from bodily fluids, leaving the patient drier and more comfortable

Super-absorbent core to wick fluid away from patient's skin
