# WE CARE HEART AND SOLE

Josh White, DPM, CPed

OrthoFeet was established in 1984 by Ron Bar, PhD (Biomedical Engineer) and his brother Michael (Mechanical Engineer). In 2020, OrthoFeet added to its team, Josh White, DPM, CPed, an expert in diabetic and therapeutic footwear.

OrthoFeet's mission is to combine attractive footwear styling with innovative therapeutic features, to alleviate symptoms associated with common foot conditions, such as plantar fasciitis, bunions and arthritis.

OrthoFeet shoes are covered by Medicare for people with diabetes and are a favorite of podiatrists and other foot care practitioners because of their unique ways of customizing the fit and improving support.

The thousands of outstanding online customer reviews speak to how well OrthoFeet shoes improve mobility by addressing foot conditions and are a testament to the superior functionality that OrthoFeet has to offer.

## The OrthoFeet Advantage

State of the art footwear technology combined with a passion for advanced foot biomechanics are fundamental in designing OrthoFeet footwear.

The innovative shoe construction along with the anatomical orthotic insoles have helped millions of users improve mobility, enhance comfort from heel to toe, and get relief of heel, foot, knee, and lower back pain.

### Innovative Ortho-Cushion™ System

- ✓ Contoured orthotic insole with anatomical arch support.
- ✓ Superior cushioning.
- ✓ Ergonomic sole with mild rocker design

### BENEFITS

- ✓ Softens every step you take.
- ✓ Reduces pressure under the heel.
- ✓ Enhances comfort and adds spring to your step.
- ✓ Works wonders to alleviate heel pain & plantar fasciitis.

### Single Last Technology

All OrthoFeet shoes are built on one last shape to ensure a proper, consistent fit across different styles.
