

Incontinence Care

For skin. For dignity. For life.

CardinalHealth
Essential to care™

Defenders of dignity

So much to protect

At Cardinal Health, we know that incontinence care is about so much more than just keeping skin dry. Incontinence-associated dermatitis and pressure injuries can be life threatening — lives that could be those of our brothers, sisters, parents or friends.

The complete portfolio of innovative Cardinal Health™ Incontinence Products, coupled with our expert team, provides true protection for your patients' skin, for their dignity and, ultimately, for the reputation of your facility.

For skin. For dignity. For life.

Collaboration is key

The team at Cardinal Health works closely with clinicians to combat the effects of incontinence, listening to their concerns and ideas about the products that can help solve daily challenges. Guided by that perspective, we develop new, advanced technologies and a simplified set of products to help you save as you care for incontinence.

Put advanced technology to work for you

Guided by experienced hands — yours to deliver care, ours to provide the tools you need — our products deliver the most effective solutions. Together, we can help lessen the effects of incontinence on your patients' quality of life, as well as your organization's bottom line.

Our advanced technology features:

- A nonwoven hydrophilic layer that is soft and durable
- Super-absorbent polymer (SAP) to draw fluid away from the skin, locking it in the product's core
- An advanced core design that improves absorption rates and skin dryness

Choosing the right products

Light Incontinence

Intermittent or constant leakage of small amounts of urine.

Underpads protect skin first — as well as beds and furniture — from urine and help keep patients comfortable and dry.

Pads, Liners and Undergarments are used in conjunction with our **Mesh Pants** to provide flexible coverage for all levels of incontinence.

Medium Incontinence

Constant urge to urinate. Bladder contractions followed by a loss of urine.

Underpads protect skin first — as well as beds and furniture — from urine and help keep patients comfortable and dry.

Briefs and Underwear, available in an array of sizes and absorbencies, both provide coverage for our mobile patients.

Juvenile Care offers a full line of infant crib liners, baby diapers, training and youth pants.

Pads, Liners and Undergarments are used in conjunction with our **Mesh Pants** to provide flexible coverage for all levels of incontinence.

Heavy Incontinence

Regular loss of entire contents of bladder.

Underpads protect skin first — as well as beds and furniture — from urine and help keep patients comfortable and dry.

Briefs and Underwear, available in an array of sizes and absorbencies, both provide coverage for our mobile patients.

Juvenile Care offers a full line of infant crib liners, baby diapers, training and youth pants.

Pads, Liners and Undergarments are used in conjunction with our **Mesh Pants** to provide flexible coverage for all levels of incontinence.

Underpads

Defending his dignity

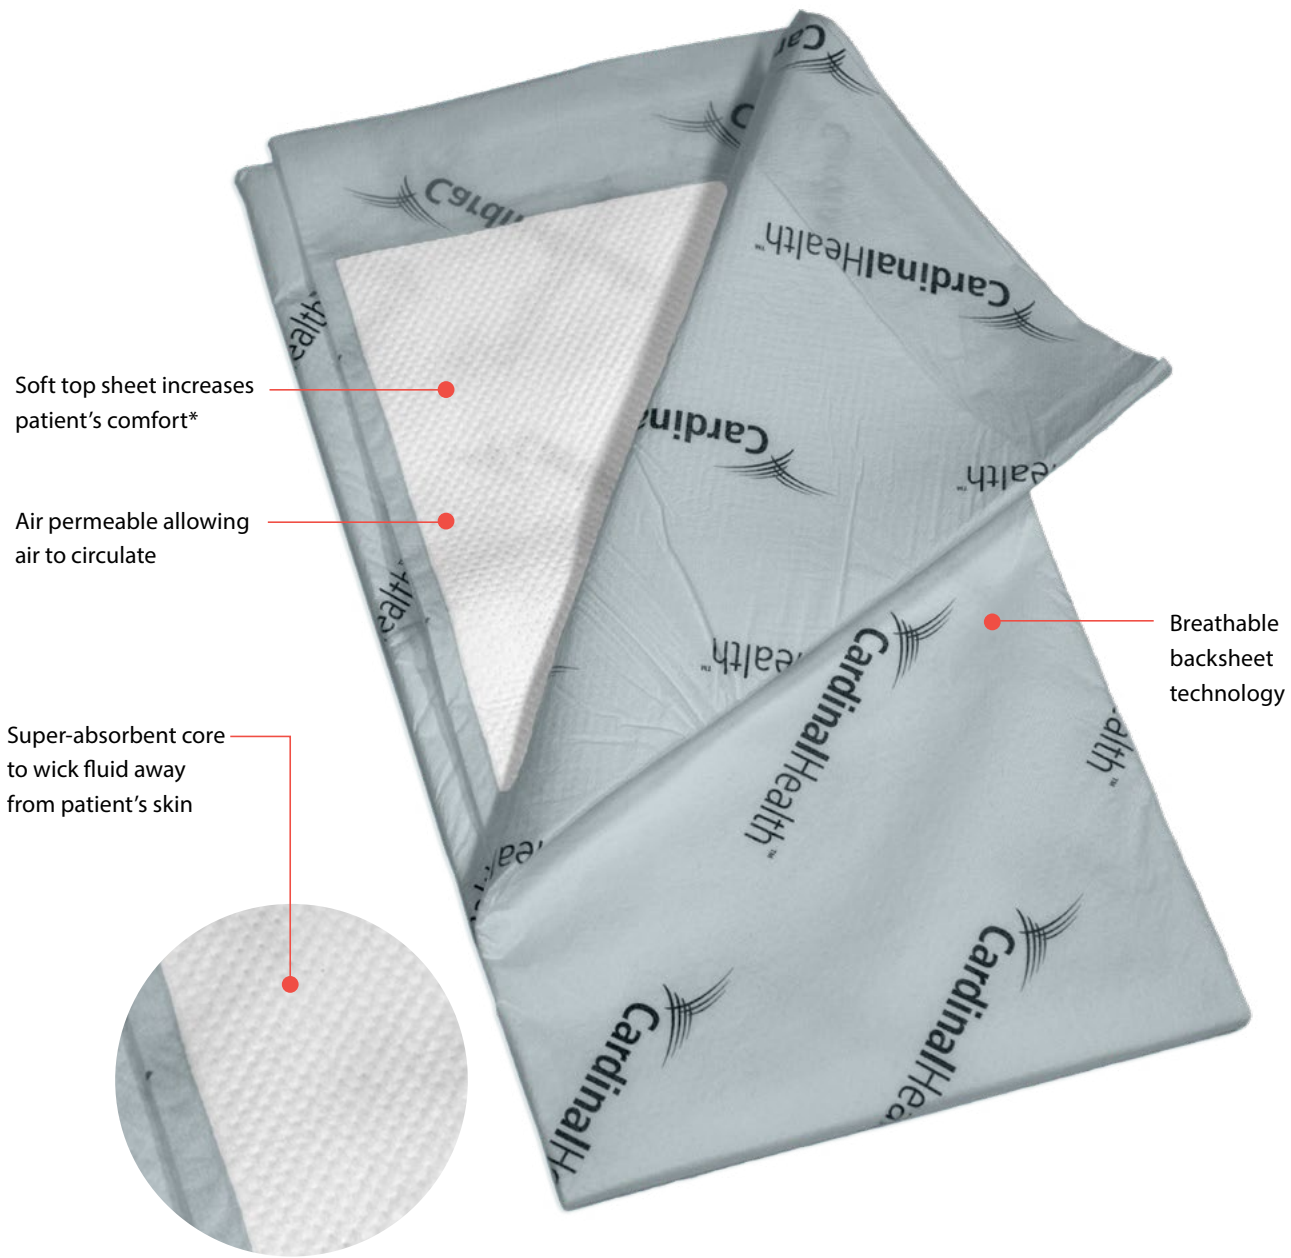

He is a loving husband of 60 years, a father and “Papa” to 17 doting grandchildren — the true patriarch of his family. He served in World War II as a skilled aeronautical engineer, designing propellers for military planes. Never missing a single day of work, his story has been one of virtue and honor.

Now, he is in your care. The next chapter is in your hands, and we take seriously our commitment to provide you with the right pads, underpads and other incontinence care products that will help keep his skin — and his dignity — safe and protected.

For skin. For dignity. For life.

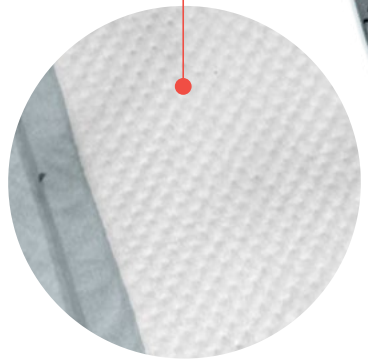

Premium Underpads

Soft top sheet increases patient's comfort*

Air permeable allowing air to circulate

Super-absorbent core to wick fluid away from patient's skin

Wearables

Protecting her legacy

Ever since she was a little girl, she dreamed of being an esteemed dancer with the Rockettes. Discipline and intense focus — the themes of her dancing career — led to five graceful and glamorous years on the Radio City Music Hall stage.

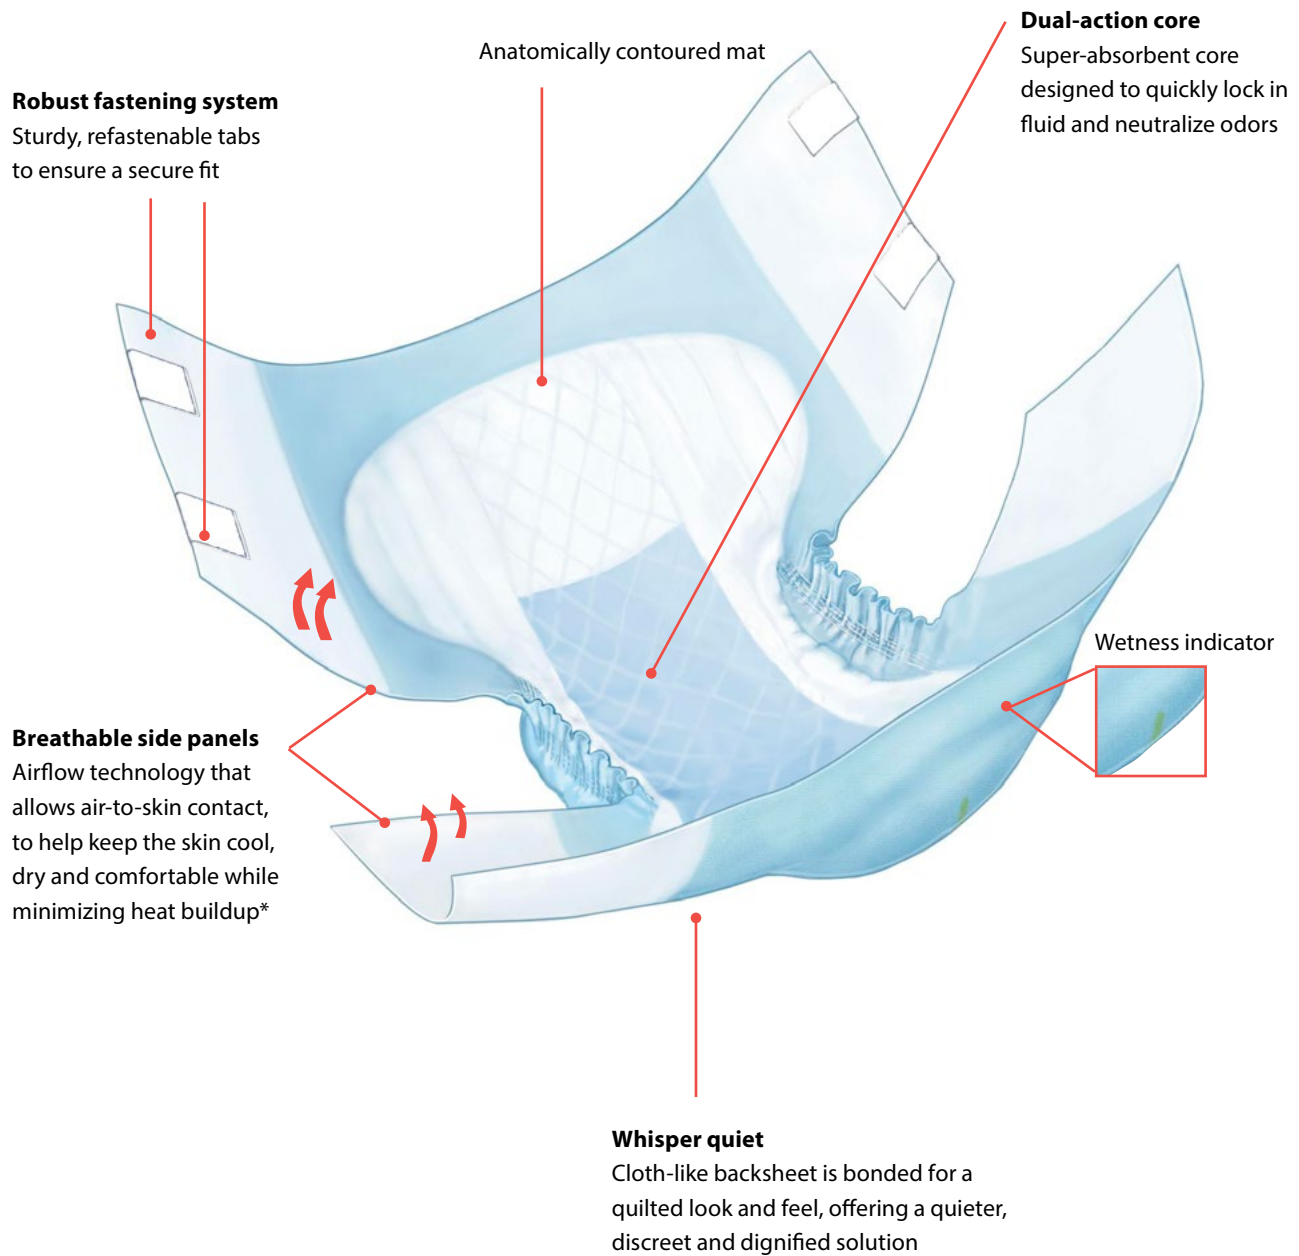

Now, her dancing days are a fond memory, but you honor her story with a daily “dance” around the courtyard. Count on Cardinal Health to provide you with the best wearables and other incontinence care products — along with the support of our expert team — to keep her skin, her dignity and her dancing legacy safe and protected.

For skin. For dignity. For life.

Briefs with BreatheEasy™ Technology

Briefs with BreatheEasy™ Technology: The newest innovation in the Cardinal Health portfolio

We all have flora on our skin. But when skin flora is out of balance due to excessive heat and moisture, it can lead to serious skin problems. The fully breathable line of incontinence products from Cardinal Health allows you to BreatheEasy™ by promoting an optimal microbiome balance that helps keep skin flora at a healthy level.
