

● Archimedes Bath Lift

The Archimedes Bath Lift will lower a person into a bath, on a fixed position seat, using a battery powered hand control.

Easy to fit

- Simple to fit – separates into three pieces, making it portable and lightweight
- Fits further back in the bath to maximise leg room and to avoid most bath handles and anti-slip coatings
- Unique 4 way quick release suckers make removing the Bath Lift simple – reducing strain on your back

Simple to maintain

- The easy to clean steel base unit has been designed with a structure that maintains strength whilst reducing weight
- No LOLER test required for two years
- Divides into three so it can be removed and cleaned with ease

Safe to use

- Unique flexible flaps that bend on contact with an obstruction, limiting the damage caused by entrapment
- Bath flaps have an anti-pinch design, eliminating the risk of skin being trapped between the seat and the flap on transfer
- Only lowers a person into the bath when there is sufficient battery power to raise them back out again

Improves well-being

- Bathing can reduce pain and promote a feeling of well-being
- Equipment will reduce the amount of moving and handling required from a carer
- Can be removed from the bath so enabling a more flexible environment for shared bathrooms

Technical Specifications

Max user weight	364 lbs
Max height	17"
Min height	2.75"
Seat depth	17"
Total length	15.5"
Width (ex side flaps)	15.55"
Width of side flap	6.69"
Total product weight	22 lbs
Back/headrest length	26"
