

# BackJoy care

## Comfort-Tech™ Wheelchair Seat

### airflow

port and pillar design provides continuous airflow to reduce seat surface temperature and moisture to the skin for extra comfort

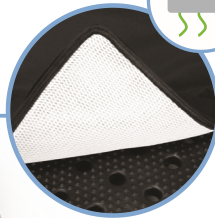

### correct posture

contoured design relieves pressure on the pelvis so it remains upright in proper alignment, reducing stress on the lower back

### breathable cover

Slip-on cover provides temperature control and maximum air circulation. Machine wash warm, tumble dry low.

### waterproof

durable closed-cell EVA is completely waterproof and is heat resistant to 180°F (82°C) for easy cleaning

### weight distribution

patented port + pillar design reduces peak pressure by 70% and evenly distributes weight to make sitting more comfortable

The only seat cushion endorsed by the International Chiropractors Association
