

Liquigen

A fat emulsion consisting of medium chain triglycerides (MCT) for fat malabsorption conditions

Features

- 4.5kcal/ml
- 50g fat per 100ml
- Can be used as an energy enhancer in tube and sip feeds or part of a modular feed
- Can be used to fortify drinks and foods or as a milk substitute where MCT is required
- Can be flavoured
- Suitable for infants, children and adults
- 50% MCT (based on fractionated coconut oil) and 50% water

Indications

For the dietary management of:

- Patients with fat malabsorption and conditions where a high intake of MCT is indicated, such as:
 - Chylous ascites
 - Chylothorax
 - Fat malabsorption due to liver disease, short bowel syndrome, cystic fibrosis and gastrointestinal disorders
 - Hyperlipoproteinaemia type1
 - Long chain fatty acid oxidation disorders
- Patients with intractable childhood epilepsy or cerebrospinal fluid glucose transporter defect requiring the ketogenic diet

Precautions

Liquigen is not suitable for the following:

- Sole source of nutrition

Age restrictions

- Suitable for infants, children and adults

Important Notice

- Not for intravenous use
- Liquigen should be introduced slowly into the diet over a period of days according to individuals tolerance
- May need to be diluted for children under 5 years of age
- Flavouring is not recommended for infants under 6 months of age

Ordering Information

Liquigen	Presentation	Nappi Code	Unit per Case
Unflavoured	250ml bottle	716734001	12

Directions for use

- Usage and amount should be determined by a healthcare professional
- Discard unfinished feeds one hour after use

Storage

- Store at ambient temperature (4-25°C)
- Always replace the container lid after use
- Once opened, store in the fridge and use within 14 days
- Unopened shelf life is 12 months

A food for special medical purposes; must be used under strict medical supervision
