

FABRICATION ENTERPRISES INCORPORATED

ABOUT THE MANUFACTURER OF CANDO:

(FEI) Fabrication Enterprises Incorporated has just celebrated its 35th year in business. From the first day of business over 35 years ago until now, Fabrication Enterprises has continually sought to bring Clinically Effective, High Quality Products to the Health Care Professional.

Through constant dedication to the clinician, listening to the needs of therapists and patients, and continually improving customer service and product availability, Fabrication Enterprises has grown to be one of the largest producers/suppliers to the Physio/Rehab market in the USA. Based in White Plains, New York, Fabrication Enterprises is now well positioned to be a major supplier to the needs of the Global Physio/Rehab market.

These High Quality Brands produced by Fabrication Enterprises are now Globally available:

- CANDO® Exercise Band, Tubing, Balls, Vestibular Products, and Accessories (this catalog)
- CANDO® Theraputty™ Exercise Putty (this catalog)
- BASELINE® Measurement Instruments
- RELIEF PAK® Hot and Cold Products
- SKILLBUILDERS® Positioning Products
- WAXWEL™ Paraffin Baths and Refills
- CUFF®, POUCH™ and SOFTGRIP™ Exercise Weights (this catalog)
- DIPSTERS® Patientwear

LOW POWDER EXERCISE BANDS

- an economy solution for upper and lower body exercise
- lightweight, compact and portable
- durable
- effective when used alone, or with handles and anchors
- color-coded according to the exercise band's resistance
- Cando® is licensed to use the Thera-Band® color sequence
- so resistance level is easily identified
- uniform width - each band is 5" wide
- available in 8 levels of resistance
- time-tested and user-tested in clinics since 1987

PERF-100 DISPENSER

- economy bulk size roll is best value
- easy to dispense; just pull and separate
- 60 5-foot perfect-size pieces for all exercises

40 PIECE DISPENSER

- box dispenses individually wrapped bands for ease of use
- 40 bands per box
- 1.2 meter

SINGLE EXERCISER

- pre-cut 4 foot bands
- individually wrapped

PEP™ PACK

- used for a complete progressive resistance program
- illustrated instruction chart

No Latex Exercise Bands

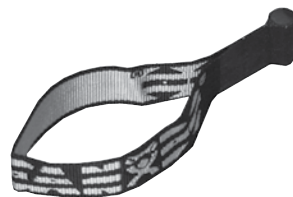

NO LATEX EXERCISE BANDS

- used in clinics for rehabilitation, conditioning and training
- available in 8 strengths to allow for progressive exercise
- color-coded according to the exercise band's resistance level
- identifiable as "no latex" by checkered pattern on packaging
- effective when used alone or with handles, anchors and stirrups
- specially formulated to mimic the stretch characteristics of latex band
- each band is 5" wide

10-5330
Handles

- thread band through strap, pull to secure
- firm foam grip handle

10-5320
Nub Anchor

- loop at one end, nub at other end
- place in doorway, close door to secure
- use with wall pulley system

10-5325
Disc Anchor

- loop at one end, disc at other end
- place in doorway, close door to secure
- use with wall pulley system

10-5310
Stirrup Anchor

- double loop; place band through one loop, other loop around stationary object

NO LATEX EXERCISE BANDS

---------	----------

CANDO® DELUXE DISPENSER RACK

10-5111	5 Roll Capacity
---------	-----------------

ACCUFORCE™ BAND

- know how much force is used when exercising
- simple to use:
 - stretch Cando® AccuForce™ exercise band
 - when a rectangle forms a square, the force indicated on the square has been exerted
 - allows for 20 measurable levels of progressive exercise therapy (4 levels for each of 5 resistances)
 - each level has four indicators that show 50%, 100%, 150%, and 200% elongation
- AccuForce™ band is 5" wide
- made of high quality latex

LIGHTWEIGHT CANDO® BAND RACKS

- lightweight, stackable plastic rack holds 5 50-yard rolls of resistive exercise band
- rod-in-tube technology facilitates smooth dispensing

CANDO® LOOPS

- made of high quality latex exercise band pre-formed into a loop
- can be used to perform upper and lower body exercises
- lengths represent loop when flat, 10" loop is equivalent to 20" of flat band cut and tied in a knot
- loops are 3" wide
- FULL BODY SET contains 10", 15" and 30" loop of specified level for full-body workout

- 10-5095 Overhead Section

PULLEYS AND ANCHORS

- 10-5088 Pulley Attachment
- 10-5089 Additional Sliding Anchor

WALSLIDE™ EXERCISE STATION 2.0

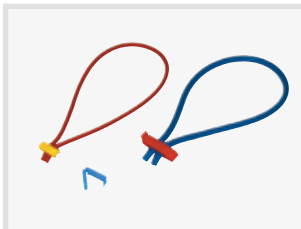

- 10-5070 WalSlide 2.0
- 10-5071 WalSlide 2.0 Adt'L Anchor

10-5360 Band Klip

form the exercise band into a loop and secure with clamp

10-5365 Tube Klip

can be used to clamp tubing loop and to prevent one end of tubing from being pulled through an anchor

10-5322 D-Ring Strap

- position strap around ankle, wrist or thigh and secure with hook and loop
- D-ring can be used as an anchor for the band or tubing to perform various exercises

COMPLETE WALSLIDE™ EXERCISE STATION

- contains top overhead section, wall piece, sliding anchors for both top and wall pieces
- sliding attachment mechanism allows overhead section to vary in height
- easy assembly, simple to use, takes up very little space
- anchor on track allows for unlimited height positions
- heavy duty aluminium frame

WALSLIDE™ 2.0

- slender design uses minimal wall space
- lightweight channel attaches to wall studs
- anchor (included) moves along center channel and locks in place by tightening with screwdriver
- adjust anchor to any height along 36" channel
- works with any elastic band or tubing
- band, tubing, and handles sold separately

CANDO® DIGI-FLEX EXERCISER

- develops isolated finger strength, flexibility, and coordination for rehabilitation of carpal tunnel, arthritis, stroke, fractures, tendon injury, nerve lacerations, tennis elbow and more
- comes with exercise pamphlet

CANDO® DIGI-SQUEEZE® EXERCISER

- 3 different sizes for small, medium and large hands
- develops isolated finger strength, flexibility, and coordination for rehabilitation of carpal tunnel, arthritis, stroke, fractures, tendon injury, nerve lacerations, tennis elbow and more
- comes with exercise pamphlet

CANDO® VIA® EXERCISER

- soft finger pads and palm rest
- ergonomic design
- non-intimidating design appeals to children and seniors

CANDO® PRO EXERCISER

- larger body
- heavier tensions
- 5 color-coded resistances
- soft finger pads
- contoured palm rest

RUBBER BAND HAND EXERCISER

EXERCISER W/ 5 RED (LIGHT) BANDS

Latex	Latex-Free	
10-0800	10-1860	1 Set

EXERCISER W/ 25 BANDS (5 EACH COLOR)

Latex	Latex-Free	
10-1800	10-1865	1 Set

25 ADDITIONAL BANDS

10-1820	10-1850	XX-Light	Tan
10-1821	10-1851	X-Light	Yellow
10-1822	10-1852	Light	Red
10-1823	10-1853	Medium	Green
10-1824	10-1854	Heavy	Blue
10-1825	10-1855	5 Each Of	Yel Red Gre Blu Blk

FIXED RESISTANCE GRIPS

10-1804	3 Lbs. X-Easy	Yellow
10-1805	6 Lbs. X-Easy	Red
10-1806	12 Lbs. X-Easy	Green
10-1807	24 Lbs. X-Easy	Blue
10-1808	48 Lbs. X-Easy	Black
10-1809	5 Pair Set	

RUBBER BAND HAND EXERCISER

- ideal for finger flexion exercises
- vary resistance by increasing or decreasing number of rubber bands, or by changing to a different color-coded set of bands
- range-of-motion may be decreased by using flexion limiter
- comes with 5 red bands or with 5 sets of color-coded bands (25 bands - 5 of each color)

FIXED RESISTANCE GRIPS

- resistance sequence on grips covers needs from earliest stage of rehabilitation after a stroke (yellow) to advanced athletic training (black)
- force requirement doubles with each level

Hand and Finger Exercisers

DIGI-EXTEND EXERCISER

- isolate the extension of all five fingers and each of the individual finger joints
- focuses on extensor mechanism of one or all fingers
- professional step-up from the simple devices for extensor strengthening and conditioning
- four color-coded band resistance levels included in each kit allow user to increase level as increased strength is achieved
- develop isolated finger strength, flexibility, and coordination for rehabilitation of carpal tunnel, arthritis, stroke, fractures, tendon injury, nerve lacerations, tennis elbow and more...
- comes with exercise pamphlet

6 SPRING HAND GRIP

- vary tension by using up to six springs
- use for finger, hand, and forearm exercisers

GEL HAND EXERCISE BALLS

- hand exerciser for grip strength, dexterity, mobility, and fine and gross motor skills
- heat or chill for use in hot or cold therapy

MEMORY FOAM BALL EXERCISERS

- memory foam balls are perfect for early stages of hand therapy
- pliable and workable just like putty
- color coded pairs offer 3 different resistive levels

PUTTYCISE® TOOLS

- The puttycise® tool can be pushed, pulled or turned through putty to produce specified exercises. Changing the putty resistance will increase or decrease the difficulty level.
- The puttycise® family consists of 5 tools which all function by inserting the tool base into a resistant putty.
 - simulates functional activity
 - teaches joint protection techniques
 - easy to use, easy to teach

PUTTYCISE® KITS

Each kit includes:

- 4 Theraputty™ resistances (1 each as indicated below)
- set of 5 Puttycise® tools (1 each)
- set of instructions

DIGI-EXTEND EXERCISER

CANDO® THERAPUTTY™

- standard in resistive hand exercise material
- each color-coded putty has a different consistency ranging from XX-soft for strengthening the weakest grasp to extra-firm
- available in convenient easy-to-open plastic containers (2, 3, 4 and 6 ounce) for individual patients to use at home and a choice of larger containers (1, 5 and 50 pound) for the hospital or clinic
- Cando® Theraputty™ material is gluten, casein and latex free

Finger and Hand Exercisers

CANDO® PLUS THERAPUTTY™

- same resistance level and size choices as standard Theraputty™ exercise material
- antimicrobial agent inhibits degradation from microorganisms, odor from microorganisms, and protects from fungal growth
- antimicrobial putty retains the non-greasy, clean feel that has made standard Theraputty™ such a popular hand exerciser
- Cando® anti-microbial Theraputty™ material is gluten, casein and latex free

CANDO® VARIABLE STRENGTH THERAPUTTY™

- work pliable pellets into base putty to increase resistance
- pack contains 4 pellets

CANDO® SCENTED THERAPUTTY™

- makes therapy more pleasant for youngsters
- fun way for children to develop grip
- strength and stay attentive and participate in physical therapy

CANDO® GLITTER THERAPUTTY™

- glitter Theraputty™ sparkles!
- hand therapy becomes visually stimulating

CANDO® MICROWAVABLE THERAPUTTY™

- new formula allows you to warm exercise putty in a microwave
- use warmed putty to perform soothing hand exercises

Hand and Wrist Exercisers

CANDO® WEB

- perform flexion, extension, opposition and supination exercises
- resistance may be modified by adjusting the hand position, depth of finger insertion, or by moving to a different resistance (color) web
- web is available in both the standard 14" diameter size and the small 7" diameter size
- color coded resistance levels

FINGER WEIGHTS EXERCISER

- weight belts for each finger
- each weight is adjustable with up to 3 10-gram inserts

10-0819 Psytech™ Wrist Exerciser

- wrist flexion and extension exerciser strengthens grip and forearms
- adjustable resistance to 20-foot pounds

TWIST-BEND-SHAKE™ BAR

- change resistance by varying distance between hands and/or by changing to a different resistance bar
- TWIST:** with both hands on the bar, twist by flexing one wrist and extending the other
- BEND:** place both hands on or near the ends of the bar. Keep your hands in position and exert force to bend the bar
- TWIST-N-BEND:** combine Twist and Bend methods
- SHAKE:** place hand(s) at center or one end, shake the bar
- OSCILLATION:** hold bar at center or end, oscillate in circular motion

TWIST-N-BEND™ BAR

- lightweight, portable, used for hand, wrist and shoulder
- promotes coordination, increases ROM
- consistent bar diameters throughout resistances means you use the same muscles with each bar
- 24" lengths are easier to bend; ideal for older people

MOBILE WEIGHT RACK

10-0150 Mobile Weight Cart

THE ORIGINAL CUFF® WEIGHT

- flexible weight contours to snugly fit the ankle, wrist.. and even thigh
- long closure strap for comfortable secure fit
- heavy-duty materials and double-stitching
- color-coded weight levels
- marked with both pounds and kilograms
- grommeted for hanging on any weight rack

10-0250

Functional set

10-0150

Mobile Weight Cart

- heavy-duty steel rack helps keep weights and accessories organized
- holds up to 500 pounds on the 2-sided pegboard and tray
- 3-inch wheels allow rack to easily be moved (even over carpet)
- assembly required; assembled rack measures 24" x 35" x 48"

Cuff® Deluxe and Pouch™ Weights

DELUXE CUFF® WEIGHT

- the Deluxe Cuff® weight has all the features of the original Cuff® weight PLUS an extra-long loop strap with extra hook tabs
- extra long loop strap allows for firm closure on the largest wrist and ankle and facilitates use on larger areas such as the thigh
- extra hook tabs add additional fastening point and prevent extra-long strap from dangling

POUCH WEIGHT SETS

- weight is varied by inserting or removing the individual weight packets
- consists of 5 weight packets and weight shell for example, a 5-lb. Pouch™ weight
- includes five 1-lb. weight packets

SOFTGRIP™ HAND WEIGHTS

comfortable SoftGrip™ hand weight is an alternative to standard dumbbells

- easier to grasp and less intimidating than traditional dumbbell
- comfortable, soft, not floppy
- color-coded to indicate weight
- stores on standard Cuff® weight rack
- made in USA

HANDY GRIP™ BALLS

- achieve the benefits of traditional weight training without grasping metal dumbbells
- ergonomic shape makes for easy grasping and textured surface adds grip
- enables a variety of strength training activities and functional movements
- secure ball to hand with adjustable strap for firm grasp
- available in 1-5 lb. weights™

WATE™ HAND BALL

- color coded weighted balls
- small enough and flexible enough to grasp with one hand, yet big enough to hold with two hands
- increase in weight from 1.1 lb. through 6.6 lbs. (0.5 to 3 kgs.) while maintaining a constant 5" (12.7cm) diameter
- use a bicycle pump to inflate/deflate to make ball easier to grasp

MEDICINE BALLS

- available with increasing diameter (traditional medicine balls) or with constant 7.5" diameter (plyometric balls)

Medicine Balls and Kettle Bells

DUAL HANDLE MEDICINE BALL

- for abdominal strengthening, rotational movement and upper and lower body strength training
- dual, soft grip handle is easy to grip with one or two hand handles enable wide ranges of movements
- each ball is 9" / 23cm diameter
- color coded to indicate weight

VINYL COATED KETTLEBELL

- for rehabilitation, strength training and toning
- vibrant colors for easy weight identification
- coating reduces potential floor scratching
- available in convenient weight increments

ADJUSTABLE ANGLE REBOUNDERS

CANDO® RECTANGLE REBOUNDER

10-3110	Square Rebounder
10-3132	with 5 PT Balls: 2,4,7,11,15 Lbs.
10-3131	with 5 Balls & Vertical Rack

CANDO® ROUND REBOUNDER

10-3112	Round Rebounder
10-3136	with 5 PT Balls: 2,4,7,11,15 Lbs.
10-3135	with 5 Balls & Vertical Rack

5 BALL STAND

10-3120	Vertical Ball Rack
10-3121	Horizontal Ball Rack

RUBBER MEDICINE BALLS

- textured surface of ball for easy grip
- balanced, uniform weight
- color coded for easy identification
- constructed with rubber to bounce

P.T. PLIABLE MEDICINE BALLS

- textured tactile surface is easy to grip, grasp and catch
- increase/decrease air in ball to enhance grasp
- use for upper body rehabilitation and fitness exercises
- designed to throw against plyometric rebounders

10-3110
Rectangular Rebounder

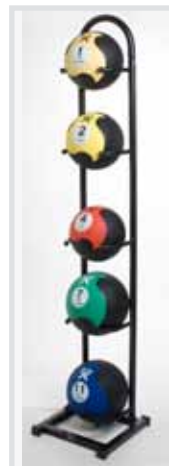

- angle adjust: 0-60 degrees (any angle)
- 39" diagonal surface (27.5" x 27.5")

10-3112
Round Rebounder

- angle adjust: 0, 28, 33, 39 & 42 degrees
- with floor tray to store balls
- 27" diameter rebounder surface

10-3120
Vert. Rack

Bi-Directional Pedal Exercisers

CANDO® PEDAL EXERCISER

- 10-0710 Preassembled
- 10-0711 Assembly Required (KD)

DIGITAL PEDALER

- 10-0712 Digital Pedaler

PEDALER WITH HANDLE

- 10-0713 Pedaler

CANDO® CHAIR CYCLE

- 10-0720 Cando® Standard
- 10-0722 Cando® Deluxe W/ Adj. Pedals

OPTIONAL ACCESSORIES FOR

DELUXE EXERCISER

- 10-0724 Upper Body Kit
- 10-0725 Long Leg Brace

VESTIBULAR STEPPER

- 30-1935 Stepper

10-0710 Cando® Pedal Exerciser

- portable lower and upper body exerciser
- use when exercise bicycle is not available or is contra-indicated
- wide leg spread and rubber non-marring feet keep exerciser stable
- when patient has little muscle control use wrap around adjustable straps to secure feet or arms
- tension knob turns clockwise towards "High" to increase difficulty or counter clockwise towards "Low" to reduce difficulty

10-0712 Digital Pedaler

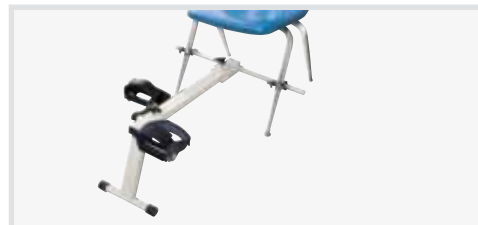

- digital counter keeps track of amount of exercise performed
- folds for easy storage
- used for both upper and lower body exercise
- pedal action is bidirectional

10-0713 Pedaler With Handle

- handle provides added stability while using pedaler
- four anti-slip rubber pads prevent sliding and protect floor
- safe and gentle form of low impact exercise
- stimulates circulation
- ideal for toning leg muscles
- tension can be adjusted
- attractive chrome finish
- handle can be removed easily

10-0720 Cando® Chair Cycle

- for individuals who cannot sit safely on a stationary bike
- resistance adjusts from 0-29 lbs. (0-13 kgs.)
- length can be adjusted to accommodate various leg lengths
- ideal for hospital, nursing home, or clinical settings
- deluxe model has features of standard model PLUS unit has adjustable pedals

10-0724 Upper Body Kit

10-0725 Long Leg Brace

30-1935 Vestibular Stepper

- double chambered inflatable stepper can be used for lower extremity exercises, balance training and vestibular orientation
- use to improve coordination and motor skills
- two chambers are connected by a valve which adjusts the air-flow (level of difficulty)

Magneciser™ ROM / Strength Exercise Systems

MAGNECISER™ ROM / STRENGTH EXERCISE SYSTEMS

- easy to assemble
- bi-directional operation
- variable resistance (turn knob to change resistance)
- improve circulation, muscle strength, joint range-of-motion and coordination
- 5-function digital display standard on all units
- wall mountable units include mounting hardware

MAGNECISER™

ROM / STRENGTH EXERCISE SYSTEMS

- 01-8030 Pedal Exerciser
- 10-0714 Table Top Upper Extremity
- 10-0714PAD Optional Pad For The Table Top Upper Extremity
- 10-0716 Upper & Lower Extremity Wheelchair Accessible
- 10-0715 3 In 1 Exerciser Rotation/Supination
- 01-8025 Vertical Shoulder Exerciser (Shoulder Wheel)

PEDAL AND ARM EXERCISERS

- 01-8010 Cando® Deluxe Pedal Exerciser

01-8030
Magneciser

- quiet, magnetic, bi-directional
- for upper / lower body exercises
- adjustable base for stability
- small and portable

01-8025
Vertical Shoulder Exerciser

- constructed with a steel base for secure wall mounting
- arm length adjusts 13" (33 cm) to 22" (56 cm)
- height adjusts

10-0714
Table Top Upper Extremity

- for muscles and joint of shoulder, arm, wrist and upper body
- arm length adjusts from 13" (33 cm) to 22" (56 cm)
- optional non-skid table-top pad

10-0715
3 In 1 Exerciser

- comes with 3 attachments: wrist, shoulder, elbow, arm
- length adjusts 13" (33 cm) to 22" (56 cm)
- height adjusts

01-8010
Deluxe Pedal Exerciser

- bi-directional exerciser can be used for upper/ lower body
- resistance can be adjusted with one easy-to-use dial
- fully automated electronic monitor with LED display
- lightweight with non-skid footpads to ensure safety

ROM / Strength Exercise Systems

OVERDOOR PULLEY EXERCISER

- 50-1023 Single Pulley with Strap
- 50-1024 Single Pulley with Clamp
- 50-1010 Double Pulley with Bracket

SKATE AND POWDER BOARD

- 10-1130 6"X6" Skate Board
- 10-1131 6"X12" Skate Board
- 10-1120 Powder Board

FINGER/SHOULDER LADDERS

- 10-1160 Wood (Left)
- 10-1167 Plastic (Right)

CANDO® ELASTIC STRETCH STRAP

- 10-1385 Strap

CANDO® STRETCH-RITE™ STRAP

- 10-1380 Stretch-Rite Strap

FOUR-LEVEL INCLINE BOARD

- 10-1179 4-Level Board

50-1023
Single Pulley/Strap

50-1024
Single Pulley/Clamp

OVERDOOR PULLEY EXERCISERS

- pulley exercisers increase shoulder ROM
- position clamp or strap in top door jamb

50-1010
Double Pulley

- heavy duty shoulder pulley is popular in physical therapy exerciser to increase shoulder range-of-motion
- deluxe exerciser has 2 pulleys and bracket for smooth and easy operation
- portable exerciser can be easily transported and fitted to most doors

SKATE

exercise skate may be used on floor, table or powder board

POWDER BOARD

facilitates various exercises. Portable board has a 30"x40" top and folds from its 7" height to 2"

10-1385
Elastic Stretch Strap

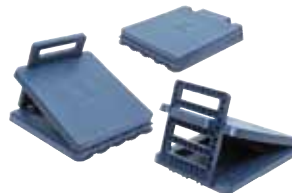

- dynamic stretch strap is made with elastic pockets that allow the user to ease into a stretch
- permits dynamic stretching
- designed for "facilitated stretching", an active form of stretching that uses isometric contractions to achieve greater flexibility gains than from static stretching
- reduces the need for a stretching partner

10-1380
Stretch-Rite™ Strap

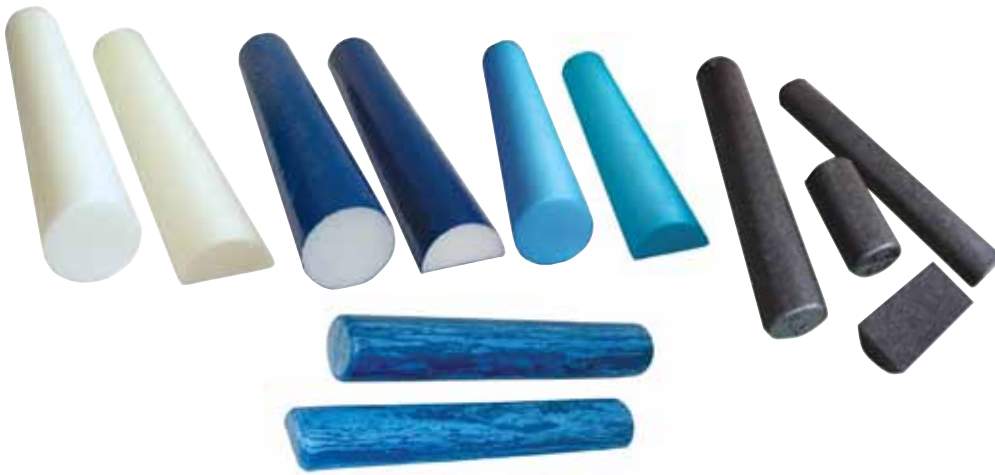

- features six progressive handgrips to provide controlled stretch for improved flexibility and ROM
- increase stretch by moving to next handgrip position
- lightweight and portable

10-1179
Four-Level Incline Board

- board increases extension in the lower and upper back while stretching the calves
- made of a composite plastic rated over 500 lbs.
- adjusts to 4 levels and folds flat (3-inches) to store easily
- levels: 10°, 15°, 20° and 30°
- last slot on the board makes an excellent hand-hold for stretching
- non-slip top is 14"x14"

Round & Half-Round Foam Rollers

ROUND & HALF-ROUND FOAM ROLLERS

- for positioning, balance, postural and muscle re-education, spinal stabilization, body awareness and coordination, and ranging and strengthening activities
- half round roller for ankle stretching and knee rehabilitation; use half roll as rocker board by standing on flat side; diameter refers to the width of the half-round profile
- polyethylene foam rolls and half rolls are strong enough to be used by large adults and active children
- available in 48", 36" and 12" lengths with either a round (circular) or half-round (semi-circular) profile
- can be used alone or with other exercisers such as Cando® exercise band, tubing, weights and balls

- White Rollers - best seller, economic choice for quality roller
- TufCoat™ - foam rollers for washability, firmness and durability
- Blue Foam - rollers have polyethylene foam like white rollers
- EVA Foam - rollers have an attractive finish and extra firm feel
- Black Foam - rollers made of molded foam for increased firmness

FOAM ROLLER STORAGE

30-2180	Foam Roller Storage
---------	---------------------

WHITE FOAM ROLLERS

STAR ROLLERS

- durable white polyethylene foam
- octagonal gear shape prevents unit from rolling around the floor
- units can be chained together like gears

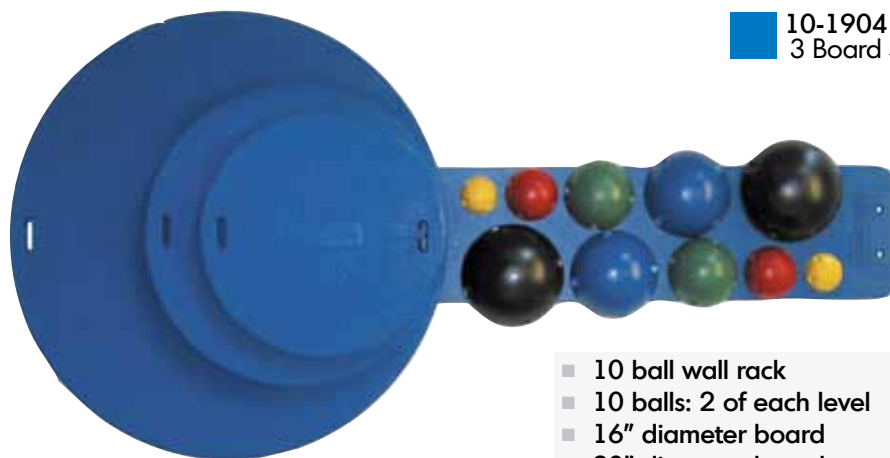

INFLATABLE ROLLERS

- ball rollers inflate like inflatable ball
- fully inflate to increase instability, and partially inflate for added stability

FOAM ROLLER COVERS

- convenient covers slip over a foam roller
- covers are washable and protect foam rollers against dirt and nicks

10-1904
3 Board Set

MVP™ BALANCE SYSTEM
10-1904 3 Board Set

- 10 ball wall rack
- 10 balls: 2 of each level
- 16" diameter board
- 20" diameter board
- 30" diameter board

ADDITIONAL PLATFORMS

10-1776	16" Diameter	Hard
10-1786	20" Diameter	Medium

10 BALL SET

10-1766 Set Contains 2 Each Of:
Yel Red Gre Blu Blk

10 BALL RACK

10-1743	Rack with 2 Each Of: Yel Red Gre Blu Blk
10-1744	10 Ball Rack Only

MVP™ BALANCE SYSTEM

MVP™ system offers an unstable and sensory-stimulating platform to facilitate balance and proprioceptive training and postural reactions. The boards can be used for: balance, coordination and proprioceptive training; ankle and knee strengthening and rehabilitation; core strengthening and stability; ankle range-of-motion and flexibility; and improved posture.

- use as wobble or rocker board, one ball for wobble board, two balls for rocker board
- level of difficulty is variable
- color coded
- five sizes of instability balls
- largest ball most unstable
- balls screw in/out of platform with ease
- three sizes of platforms, smaller is more difficult
- slots in platform fit band/tubing
- use hanging rack for compact storage
- holds 10 balls and 4 platforms

Multi-Axial Platform System

PROFESSIONAL MULTI-AXIAL PLATFORM SYSTEMS

- 10-1730 Board with Balls, Rods
- 10-1731 Board with Balls, Rods, Weights, Rack
- 10-1735 Board with Balls, Rods, Weights, Tub

PROFESSIONAL ACCESSORIES

- 10-1732 Multi-Axial Board Only
- 10-1740 Wall Rack For 5 Balls And Board
- 10-1741 Storage Tub
- 10-1733 Motion Limiter
- 10-0601 2.5 Lb. Weight Plate
- 10-1770 Weight Rod (Each)
- 10-1780 Dycem® Foot Pad

INDIVIDUAL INSTABILITY BALLS (HEMISPHERES)

Height Challenge

- 10-1760 1" X-Easy Yellow

- 10-1764 3" X-Hard Black
- 10-1765 5 Ball Set with Yel Red Gre Blu Blk
- 10-1742 Rack with 5 Ball Set Of Yel Red Gre Blu Blk

MULTI-AXIAL PLATFORM SYSTEM - HOME

ADULT MODEL (Over 120 Pounds) - Blue

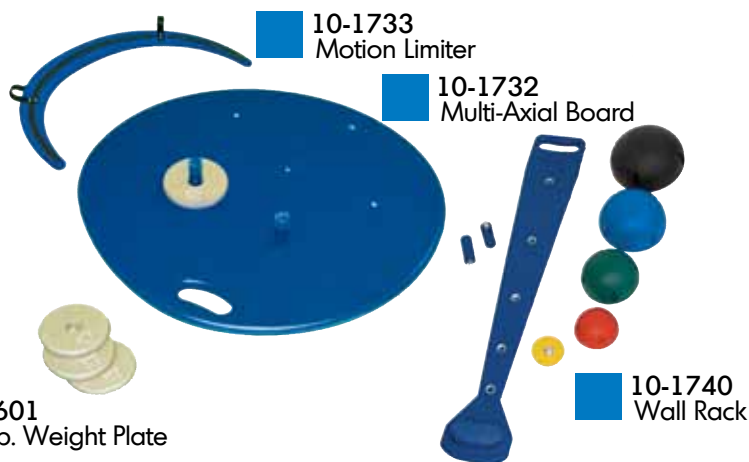

- 10-1752 Home Board For Right Foot
- 10-1753 Home Board For Left Foot

CHILD MODEL (Under 120 Pounds) - Yellow

- 10-1750 Home Board For Right Foot
- 10-1751 Home Board For Left Foot

NON-SKID ACCESSORY

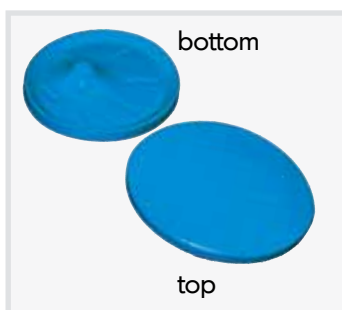

- 10-1780 Dycem Foot Pad For Added Traction

PROFESSIONAL MULTI-AXIAL PLATFORM SYSTEM

- Multi-Axial Platform System offers adjustable ROM and weight training to maximize lower body rehabilitation. Includes reversible board (1 side for left foot and one side for right foot). 5-ball set (color-coded yellow, red, green, blue and black from least to most difficult). Balls screw into board to provide vestibular challenge.
- Comes standard with 2 weight rods, 10 pounds of disk weights and a wall rack.
- Optional motion limiter is used to limit ROM.

10-1731 Board, Balls, Weights, Tub

HOME MULTI-AXIAL PLATFORM SYSTEM

- board is elliptical with off-centered pivot
- select board for specific foot, and weight class

HEAVY DUTY BALANCE BOARDS

- strengthen and condition lower body
- improve ankle ROM, balance, body awareness, and develop joint mobility and reaction skills
- durable, heavy-duty and non-skid
- lightweight, compact for portability

CANDO® MODULAR STABILITY TRAINER

- use to challenge balance skills
- to increase difficulty inflate stone, use larger stone, or smaller board
- place non-slip board on top of stone
- stone can be placed flat side up or down

BOARD-ON-STONE™

- combines the vestibular disc and non-slip board to make a stability trainer
- stack discs or use smaller board for added difficulty
- stand on disc and shift weight to perform stability exercises

10-1745
Economy Wobble Board

- 14" diameter wobble board makes balance training fun
- raised circles on surface makes the board slip resistant

CANDO® HEAVY-DUTY BALANCE BOARDS

RECTANGULAR ROCKER (15X18")

10-1100 Basic: 2" Flat Bottom
10-1101 Intermediate: 2.5" Bottom

CANDO® CORE TRAINER DOME

30-1902	Dome
---------	------

CANDO® PROGRESSIVE INSTABILITY PADS

- each pad in the series of 5 progressive balance pads has a different level of "give" and offers a different vestibular challenge
- yellow is the least unstable (easiest), and black is the most unstable (most challenging)
- surface made from molded foam
- combination of foam and cut-out design yields comfort and functionality
- pads can also be used as core-strengthening vestibular seating cushions

32-1500B
Balance Pad

- free of phthalate plasticizers, latex and triclosan
- sanitized coating protects against microbes and unpleasant odors
- resists sweat and saliva
- closed cell foam provides excellent elasticity and energy absorption
- coarse surface for traction

30-2120
Low Impact Aerobic Pad

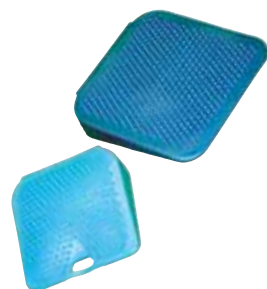

- designed to be the most effective and functional pad for low impact aerobic exercises and group classes
- both top and bottom surfaces are textured for non-slip, secure footing
- great economical price!
- colorful pads make the perfect cushioned exercise surface in any setting

30-1868
Vestibular Disc

- large vestibular disc can be used as a balance board or sitting disc, depending on how much it is inflated.
- inflates with standard pump
- tactile side offers user feedback and stimulation

VESTIBULAR WEDGE

- inflatable wedge requires active participation from user for correct sitting posture
- dynamic seating and static positioning
- inflate or deflate wedge to vary difficulty

30-1868
Vestibular Disc

- inflatable dome on rigid base can be used flatside up or down
- dome is 21" diameter
- complete with pump, resistance tubing, instructional DVD

Inflatable Exercise Balls

INFLATABLE EXERCISE BALLS

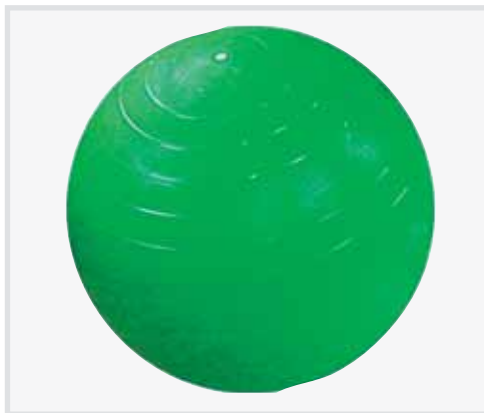

- used to improve balance, coordination, flexibility, strength and even just for fun.
- used by therapists as an aid for vestibular movement and equilibrium therapy, by fitness professionals as an aid for stretching and strength programs, as seats, and even by pregnant women in birthing classes
- non-slip surface is ribbed for extra security
- under inflate to give a soft, mushy feel or fully inflated for a firm, bouncy feel
- support 300 pounds (136kg)

DELUXE ABS BALL

- deluxe balls are made with a specially formulated slow-deflate material
- non-slip surface ribbed for traction
- "mottled" color differentiates it from standard balls
- supports 600 pounds (272kg)

SUPER DUTY EXERCISE BALLS

CANDO® SENSI BALL

- sensi-ball has a specially textured "nubby" surface that adds tactile and visual elements to ball therapy
- used to improve balance, coordination, flexibility, strength and even just for fun
- supports 300 lbs. (136kg.)

CANDO® BODY BALL

- strong, light, easy to grasp and have a large inflation range
- attractive pastel colors

CANDO® ECONOMY BALL SETS

- 30-1845 55cm Ball/ Pump
- 30-1846 65cm Ball/ Pump
- 30-1847 75cm Ball/ Pump

PLASTIC BALL STOOL/TRAINER

- 30-1796 Mobile Exercise Ball Stool

INFLATABLE SADDLE ROLLS

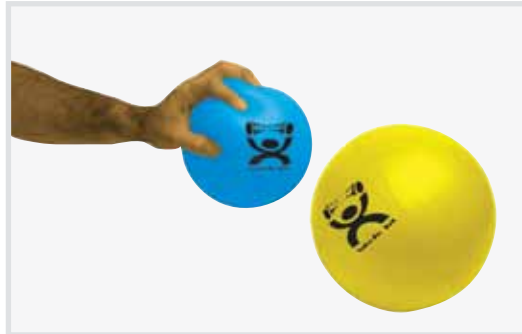

- easier to control because motion is limited to forward and backward direction
- aids in developing muscles, coordination and balance
- the "saddle" offers extra support for the patient
- supports up to 600 pounds

SENSI SADDLE ROLLS

- textured "nubby" surface adds tactile and visual elements to ball therapy
- easier to control than balls
- built-in saddle gives user added sense of security
- supports 600 lbs.

CUSHY AIR™ BALL

- soft, cushy material inflates to desired firmness
- light and easy to grasp.

INFLATABLE STRAIGHT ROLL

- straight roll only moves in a side-to-side manner making it easier to use than the ball
- added length of roll makes it possible for two people to be on one roll
- 300 lb. weight capacity

JUMP BALL

- jump ball is ideal to provide proprioceptive and vestibular stimulation
- ball has heavy-duty grip handles designed to give secure control at all times
- available in four sizes
- 300 lb. weight capacity

BALL WITH FEET

- stabilizing "feet" keep ball from rolling when not in use
- weight of person makes the "feet" retract into ball so it can function like any other inflatable exercise ball
- non-slip surface is ribbed for extra security
- supports up to 300 pounds

PLASTIC BALL STOOL/TRAINER

- versatile exercise ball chair holds a 50cm ball (included!) securely in place
- use as a chair, or use as an inflatable exercise dome
- casters have locking mechanism to make chair stationary
- lock casters when using during vestibular exercises . . . you do not want exercise ball chair to roll away

Exercise Balls and Accessories

PLASTIC BALL CHAIR

- mobile ergonomic seating system combines the benefits of ball therapy with the convenience of a chair base
- ball held securely in place by the base
- features removable back, without arms
- casters glide on carpet or hard surfaces
- includes ball
- light assembly required

METAL BALL CHAIR

- mobile ergonomic seating system combines the benefits of ball therapy with the convenience of a chair base
- ball held securely in place by the base
- features removable back
- casters glide on carpet or hard surfaces
- includes 55cm ball
- light assembly required

PLASTIC BALL CHAIR

- 30-1792 Adult Size W/ 55 cm Ball
- 30-1795 Child Size W/ 35 cm Ball

METAL BALL CHAIR

- 30-1791 with Arms
- 30-1790 without Arms

CANDO® DYNAMIC BALL STABILIZER BASE

- 30-1848 Dynamic Base

CANDO® BALL STABILIZER BASES

- 30-1840 Small (For 45cm, 55cm)
- 30-1842 Medium (For 65cm, 75cm)

CANDO® BALL STACKER

- 30-1830 3 Ring Stacker Set

INFLATORS/BALL PUMPS

MANUAL PUMPS

- 30-1051 A Double Piston
- 30-1047 6" Hand
- 30-1048 B 12" Hand
- 30-1038 C Small Bellows
- 30-1039 D Large Bellows

ELECTRIC PUMPS

- 30-1054 E Inflator/Deflator (120V US)
- 30-1829 Ball Plug Remover

30-1848
Dynamic Base

- base has 4 built in anchors and 2 grooves for exercise band and tubing
- lightweight, portable gym ball
- base measures 19.5" diameter and fits a 45, 55, 65 and 75 cm exercise ball.
- use base to stabilize exercise ball and prevent ball from rolling around gym
- use base with band or tubing for dynamic workout

BALL STABILIZER BASE

- plastic base provides extra protection and stability for the ball during use
- ideal for individuals who are not prepared for instability of therapy ball
- prevents ball from rolling away

30-1830
Ball Stacker

efficient way to store balls and conserve floor space

- stack 35cm - 95cm balls
- set includes 3 adjustable rings
- stack balls up to three high

INFLATORS/BALL PUMPS

- for optimal inflation, use electric first then fully inflate with manual pump
- double piston and electric pump has inflation and deflation valve
- colors may vary

- 32-1490 Floor Rack with Casters, Holds 20 Mats

ARMASPORT® EXERCISE MATS

- tough enough for clinic, school and fitness center
- extra thick and extra soft
- free of phthalate plasticizers, latex and triclosan
- sanitized coating protects against microbial attack and unpleasant odors
- resists sweat and saliva
- can be hung using integral flexible grommets (.6" fit, body, star and top mats)
- closed cell rubberized latex-free foam provides excellent elasticity, energy absorption and resistance
- great for physiotherapy, hydrotherapy and fitness

Wall Rack

10-1490
Floor Rack

PLUSH EXERCISE MAT

- cushioned exercise mats offer superior comfort, quality and durability, yet are lightweight and sturdy enough for commercial use in health and fitness clubs
- colorful, non-leaching, soft, resilient closed-cell foam material
- waterproof and sanitary. Mats can even be used as a pool float
- latex free

INDIVIDUAL EXERCISE/REST MATS

- therapy mat is available with or without centerfold
- choose polyurethane (PU) foam or EnviroSafe™ foam
- foam mats are covered with 18oz. tough fire-retardant phthalatefree PVC coated vinyl. Cover is sewn around foam

YOGA AND EXERCISE MAT

- thin and lightweight, yet cushioned and strong mats roll-up to compact roll to fit in gym bag
- PER (polymer environmental resin) yoga mats comply with the European Environmental Protection Test Standard
- no pthalates, dioxin, furons, phenol, or heavy metals

ACCORDIAN FOLD MAT

- Mats are covered with 18oz. tough fire-retardant phthalate-free PVC coated vinyl. Cover is sewn around foam.
- Vinyl coated nylon cover is strong, mildew resistant, anti-bacterial and wipes clean with a damp cloth.
- Mat is made with square side walls and is reinforced at all stress points for added durability.
- PE and PU Foam Options: poly-ethylene (PE) foam - 1 3/8" thick PE mats have a hard feel, used for more strenuous exercises. Poly-urethane (PU) foam - 2" thick PU mats have a softer feel, used when cushioning is most important.
- Mat folds every 2 feet to minimize storage space when not in use
- Velcro ends allow mats to safely connect to other mat to "expand" and form a larger mat surface
- Mat folds in 2 foot sections for easy storage and transportation

ADD-A-MAT™ EXTENSION PANELS

- increase the length of any accordion fold mat by adding an "add-a-mat" panel
- velcro ends allow for easy attachment to any accordion fold mat

Cando® Center-Fold and Non-Folding Mat

CENTER-FOLD AND NON FOLDING MATS WITH HANDLES

- reinforced handles can be used to carry and to store mat

CUSHY-AIR™ MATS

- lightweight and portable
- adult and child mat comes with a carry bag and has die-cut handles
- adult mat has 2 pieces the fit together in jigsaw pattern
- "air channel" construction allows mat to conform to body position

CANDO® ROLLS, WEDGES AND INCLINE MATS

- positioning and vestibular shapes covered with heavy-duty vinylcoated nylon, filled with high compression urethane foam
- inexpensive shapes are ideal for institutional use in physical therapy departments, home use for positioning rolls and wedges, special education programs, pre-school programs, physical education classes and the gym

INCLINE MATS

- wedge shaped mats can be used to facilitate gross motor activities like rolling, tumbling and crawling
- safe, soft mats encourage participation
- incline mats with straps can be used for adaptive positioning

THICK MATS

- thick mats give added support and cushioning to increase the confidence level of the child using the mat
- side vents allow air to flow in and out

Exercise and Rehabilitation Positioning

SKILLBUILDERS® WEDGES

- wedges are ideal positioning shapes for exercise therapy
- put under back, arm or leg of patient for comfortable and functional positioning
- provides necessary leverage to promote exercise regime; i.e. under the knee to enable weighted ankle lifts

SKILLBUILDERS® HALF ROLLS

- half rolls combine stability of a wedge with the positioning versatility of a roll
- use with hook on bottom to anchor roll
- provides stable base for knee flexion and extension

QUAD BOARDS

wood

- provide support by forcing the proper amount of knee (or arm) flexion
- used on a treatment table or floor
- board folds flat when not in use

steel

- each section can be adjusted independently to match exact femoral and tibial lengths
- adjustability of this quadboard allow for the knee to be fixed to any degree
- chrome plated steel, folds flat

SKILLBUILDERS® ROLLS

- rolls, like wedges, are used to foster exercise therapy and general positioning
- for example: roll can be placed under the knee to allow weighted ankle lifts

SKILLBUILDERS® KNEE SUPPORT WEDGES

- supports knees and lower legs when user is in supine position

FABRICATION ENTERPRISES INCORPORATED

BASELINE[®]

ABOUT THE MANUFACTURER OF BASELINE:

(FEI) Fabrication Enterprises Incorporated has just celebrated its 35th year in business. From the first day of business over 35 years ago until now, Fabrication Enterprises has continually sought to bring Clinically Effective, High Quality Products to the Health Care Professional.

Through constant dedication to the clinician, listening to the needs of therapists and patients, and continually improving customer service and product availability, Fabrication Enterprises has grown to be one of the largest producers/suppliers to the Physio/Rehab market in the USA. Based in White Plains, New York, Fabrication Enterprises is now well positioned to be a major supplier to the needs of the Global Physio/Rehab market.

These High Quality Brands produced by Fabrication Enterprises are now Globally available:

- CANDO® Exercise Band, Tubing, Balls, Vestibular Products, and Accessories
- CANDO® Theraputty™ Exercise Putty
- BASELINE® Measurement Instruments (this catalog)
- RELIEF PAK® Hot and Cold Products
- SKILLBUILDERS® Positioning Products
- WAXWEL™ Paraffin Baths and Refills
- CUFF®, POUCH™ and SOFTGRIP™ Exercise Weights
- DIPSTERS® Patientwear

Want to know more? We hope so! Please contact us for any additional information and pricing. You may reach us at:

MMT HANDLE WITH 3 PUSH PADS

12-0580	Fits All Hydraulic Dynamometers
---------	------------------------------------

(See page 8 for details)

Baseline® hydraulic hand dynamometer gives accurate grip strength readings without the subject being able to "feel" the handle move. Internationally accepted design ensures reliability, user convenience and measurement repeatability.

- Baseline® dynamometers have been manufactured in the USA since 1978.
- The Baseline® hand dynamometer is engineered to be durable, so it will last for years and years.
- Maximum reading remains until the unit is reset.
- Five position adjustable handle and body design yield results that are consistent with published Baseline® and Jamar® studies.
- The strength reading can be viewed as pounds or kilograms.
- CE certified.

12-0240
91 Kg. (200 Lb.) Standard

The 91 kg. (200 lb.) dial Baseline® hand dynamometer has become a popular tool used by therapists all across the world. The standard 6 cm (2.5") diameter head is used throughout the industry.

12-0246
ER HiRes™ Head

The ER (extended-range) dial can measure grip strength up to 300lbs/135kg. The 300 lb. (135kg.) Baseline® hand dynamometer is only available with a HiRes™ 9 cm (3.5") diameter head. The dial contains 5-pound / 2.5 kg gradations.

12-0247
Digital ER Head

The 300 lb. (135 kg) digital hand dynamometer has added advantage of an LCD display. Features an electronic zero calibration system and 2 "AAA" batteries. Push button console includes button to zero last maximum reading stored in memory, a max button to display highest reading, clear button, and a lb./kg. toggle.

12-0580
MMT Handle With 3 Push Pads

Converts any grip strength dynamometer into a manual muscle tester

Pneumatic and Spring Dynamometers

12-0291 Pneumatic Dynamometer

The Baseline® squeeze (bulb) dynamometers are the inexpensive way to measure hand and finger strength. The dynamometer is available with and without a maximum pressure indicator (reset) that remains at the maximum reading until reset. Unit is calibrated in PSI (pounds-per-square inch).

12-0297 3-Bulb Dynamometer

Adjustable dynamometer/pinch gauge measures both grip and pinch strength. Comes with three different sized interchangeable squeeze bulbs that can be easily fitted to the gauge. Lightweight and portable. Maximum reading remains until reset. Unit is calibrated in PSI (0-30). This unit is similar to the Martin Vigorometer.

12-0281 Baseline® Smedley Spring Dynamometer

The Smedley spring-type dynamometer has been used successfully for many years to measure grip strength. Adjustable handle comfortably accommodates any hand size. Unit is calibrated in both pounds and kilograms.

12-0286 Baseline® Digital Smedley Dynamometer

Digital, lightweight Smedley dynamometer offers accurate grip strength readout. Has 5-preset grip sizes. Auto captures and displays maximum grip force. Assesses results according to age and gender. Saves/stores results for fast retrieval with up to 19 users.

PNEUMATIC DYNAMOMETERS

12-0291	with Reset, 30 Psi
12-0293	with Reset, 15 Psi
12-0290	30 Psi
12-0292	15 Psi
12-0297	3-Bulb Dynamometer with Reset, 30 Psi

SPRING SMEDLEY DYNAMOMETERS

12-0281	Adult Spring 100kg (220 Lb.)
12-0282	Child Spring 50kg (110 Lb.)

DIGITAL SMEDLEY DYNAMOMETERS

---------	-----------------------

Hydraulic Wrist / Forearm Dynamometers

BASILINE® WRIST/FOREARM 224 KG. (500 LB.)

12-0250 Analog (Dial) Readout

12-0251 Digital (LCD) Readout

Both include door knob grip and carrying case

MEASUREMENT ACCESSORIES (OPTIONAL)

12-0261 Door Knob Grip [Supination / Pronation]

12-0262 Shovel Handle [Supination / Pronation]

12-0263 Lever Handle [Abduction / Adduction]

12-0264 Rod/Pipe Grip [Flexion / Extension]

Measurement accessories easily snap on and off.

MEASUREMENT HANDLES (OPTIONAL)

12-0385 Single Grip Handle

12-0389 Dual Grip Handle

12-0266 Table-Mount Bracket

Shown with Dual Grip Handle and Lever Handle

WRIST STRENGTH CAN NOW BE MEASURED

- Simply and accurately measures the strength of the wrist muscles during flexion, extension, abduction and adduction and the forearm muscles during supination and pronation
- The Baseline® wrist/forearm dynamometer features the time proven hydraulic system used in the industry accepted Baseline® and Jamar® hand dynamometers
- For hand held use, the dynamometer can accommodate the Baseline® dual-grip (12-0389) handle
- For stationary use the dynamometer can accommodate the Baseline® Table Mount Bracket (12-0266)
- Maximum reading remains until the unit is reset
- The strength reading can be viewed as pounds or kilograms
- Comes with portable carrying case
- Made in USA with a 1-year manufacturers warranty
- CE certified

MECHANICAL PINCH GAUGES

Measure tip, key and palmer pinch strength in both kilograms and pounds. Measurements are accurate and repeatable. Results are consistent with published Markowitz studies. Indicator remains at the maximum reading until reset.

Thumb-Index Pulp Pinch

Lateral Pinch

Chuck Pinch

HYDRAULIC PINCH GAUGES

- The Baseline[®] hydraulic pinch gauge uses a hydraulic system to assure convenience, product reliability and measurement accuracy and repeatability.
- The therapist can support the pinch gauge during testing. This yields a more accurate result for all pinch tests including tip, key and palmer.
- Baseline[®] pinch gauges manufactured in the USA since 1978.
- The results are consistent with published Baseline[®], B & L and Jamar[®] studies.
- Max reading remains until reset.
- The strength reading can be viewed as pounds or kilograms.

12-0222
50 Lb. HD[™] Standard

The 23 kg. (50lb.) dial HD[™] has been redesigned with reinforced parts.

12-0228
ER Hi-Res[™] Head

The 23 kg. (50lb.) HiRes[™] head has a 9 cm (3.5") diameter head with a bigger dial and larger numerals. The dial contains 1-pound / 0.5 kg gradations.

12-0113
7-Piece Hand Evaluation Set

Instruments needed for a full hand evaluation. Grip strength is measured by the hydraulic hand dynamometer and pinch strength by the mechanical pinch gauge. Other measurements are made with the stainless steel goniometer (12-1010), 2-point discriminator with 3rd point (12-1481), Wartenburg pinwheel (12-1450), finger circumference gauge (12-1220) and functional finger motion gauge (12-1060).

12-0103
3-Piece Hand Evaluation Set

Contains all instruments necessary to evaluate the strength and range-of-motion of the hand and fingers. Set includes hydraulic hand dynamometer, hydraulic pinch gauge and 15 cm (6") stainless steel goniometer (12-1010).

12-0128
8-Piece Hand Evaluation Set

Set includes a carrying case with the following:

- 200 lb. hand dynamometer (12-0240)
- 50 lb. pinch gauge (12-0205)
- Finger goniometer (12-1010)
- Finger circumference gauge (12-1221)
- 180° 15 cm (6") plastic goni. (12-1005HR)
- Measuring tape (12-1560)
- Discrim-a-Gon™ (12-1492)
- Five piece tactile evaluation set (12-1662)

12-0114
4-Piece Wrist Set

Contains all the instruments needed to evaluate the strength and range-of-motion of the wrist and forearm. Set includes a wrist inclinometer (12-0502), wrist dynamometer and the door knob grip (12-0261), and the table mount bracket (12-0226).

HYDRAULIC PUSH-PULL DYNAMOMETERS

The heavy duty dynamometer features the hydraulic system that is used in the industry accepted Baseline® hand dynamometers and pinch gauges. Hydraulic system ensures accurate readings. The dynamometer is much lighter (1.5 lb. vs. 6 lb.) and easier to use than spring push-pull dynamometers that are in common use today.

Dial continuously shows instantaneous force and holds the maximum force reading. This maximum reading should be manually recorded prior to resetting for the next test.

Available with either an analog (dial) readout or a digital (LCD) readout. Choose either 23 kg., 45 kg., 115 kg., 225 kg. (50 lb., 100 lb., 250 lb., or 500 lb.) force capacity unit.

INCLUDED ACCESSORIES

- 12-0371 Padded Curved Push Pad

- 12-0370 Padded Straight Push Pad

- 12-0372 1cm² Circular Push Pad

- 12-0377 Medium Hook

- 12-0379 Oval Snap Hook

OPTIONAL ACCESSORIES

- 12-0373 Medium Circular
- 12-0385 Single Grip Handle

- 12-0376 Small Hook

- 12-0389 Dual Handle Grip

- 12-0446 Threaded Oval

- 12-0406 Regular Floor Base

Push-Pull and Back-Leg-Chest Dynamometers

12-0341 Electronic Dynamometer

Shown with push pad

The Baseline® Electronic Dynamometer uses state-of-the-art "load-cell" technology to assure the highest standards of accuracy, repeatability and reliability. The unit is available in four measurement ranges and comes complete with 3 push pads, 1 pull hook, 1 snap hook and a padded carrying case. Handles and accessories are interchangeable with other Baseline® push-pull dynamometers. Can be used with lift platform to conduct muscle strength and functional capacity tests. Accessories can be used with Baseline hydraulic push-pull dynamometer. 2-year warranty. CE certified.

12-0303 Economy Mechanical Push-Pull Dynamometer

In push mode, all positive features of the manual muscle test are retained. Use in pull mode to measure tension. Reading remains until reset. Shows kilograms and pounds. Comes with accessories.

10-0400 Back-Leg-Chest-Dynamometer

Measure strength of back, leg and chest. Base provides secure footing. Chain length is adjusted to accommodate for height differences or to vary the point of force application. Shows kilograms and pounds. Pointer remains at maximum until reset. Comes fully assembled with 5 foot chain. Oversize base 61 x 61 cm (24 x 24"), regular base 46 x 46 cm (18 x 18").

12-0410 Baseline® Cable Tensiometer

Measure strength of all muscle groups. Secure one cable to a stationary object; the other to the appropriate measurement accessory. Set comes with 4 measurement accessories (ankle, thigh, wrist, head). Scale shows pounds and kilograms. Pointer remains at maximum until reset. Includes: 2 five foot chains, 4 snap hooks.

MEASUREMENT ACCESSORIES FOR CABLE TENSIO METER AND PUSH-PULL DYNAMOMETER

The accessory is first securely fastened to the subject near the muscle group being evaluated. The cable tensiometer or push-pull dynamometer is then connected to the measurement accessory. Accessories manufactured with padded foam.

DIGITAL ABSOLUTE+AXIS™ GONIOMETER

12-1027 Digital Absolute+Axis™

12-1025 30 Cm (12") Absolute+Axis™ Goniometer

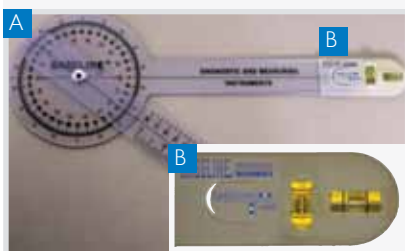

A NEW IMPROVEMENT IN GONIOMETRY

Many goniometric measurements require the practitioner to place one arm of the goniometer in either the horizontal or vertical (plumb) position. The other arm is then lined-up with the patient's body segment. Until now, the practitioner had to "assume" or "eyeball" the vertical or horizontal position. This interpretation of horizontal or vertical is often incorrect and allows for measurement error. The Absolute+Axis (AA) goniometer removes the "assume" and "eyeball" by establishing a "true" vertical or horizontal. The Absolute+Axis goniometer removes measurement variability and allows the practitioner to concentrate on correct placement of the other goniometer arm and the patient's body position. Some measurements the AA goniometer is designed to improve are: shoulder and hip rotation (internal, external); cervical flexion, extension, rotation and side bending; hamstring flexibility; and active ROM.

12-1026 Absolute+Axis™ Attachment

Perfect for those practitioners who currently own a 30 cm (12") 360° plastic goniometer. It slides "snugly" onto one arm of the goniometer. The attachment does not interfere with the goniometer's function. Absolute+Axis™ attachment [B] easily slides on to a standard 30 cm (12") 360° goniometer arm [A].

12-1027 Digital Absolute+Axis™ Goniometer

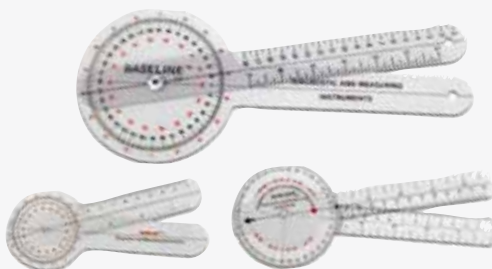

The integral absolute vertical and horizontal levels are permanently incorporated into the digital goniometer arm. Goniometer reads 0-180 degrees on LCD screen. Has ability to freeze angle measurement. Powered by 1 9V battery. Goniometer exterior is powder-coated steel with inch/cm marks screened onto arms. Digital angle readout in center. Horizontal and vertical levels to indicate level or plumb starting point.

Transparent Plastic Goniometers

PLASTIC 360° ISOM (STFR) GONIOMETERS

Clear transparent plastic permits observation of joint's axis of motion, and its range of motion. The 360° head has three scales calibrated to be used with the ISOM (International Standards of Measurement, STFR) system. One arm has a linear scale in inches and centimeters. Scale reads 1° increments.

ISOM PLASTIC GONIOMETERS

12-1000	30 cm (12") 360°
12-1001	20 cm (8") 360°
12-1002	15 cm (6") 360°

HIRES™ ISOM PLASTIC GONIOMETERS

12-1000HR	30 cm (12") 360°
12-1001HR	20 cm (8") 360°
12-1002HR	15 cm (6") 360°

POCKET PLASTIC GONIOMETERS

12-1005	15 cm (6") Pocket 180°
12-1006	15 cm (6") Rulongmeter 360°

POCKET HIRES™ PLASTIC GONIOMETERS

12-1005HR	15 cm (6") Pocket 180°
12-1006HR	15 cm (6") Rulongmeter 360°

PLASTIC FLEXION-HYPER EXTENSION GONIOMETER

12-1012	Flexion/Hyper-Extension
---------	-------------------------

BASELINE® HIRES™ PLASTIC 360° ISOM (STFR)

White background behind the gradations, numbers and text assures high contrast for added readability and resolution. Scale reads 1° increments.

BASELINE® PLASTIC POCKET GONIOMETERS

Inexpensive clear plastic goniometers have 5-inch linear scale calibrated in inches and centimeters. Goniometer fits in shirt pocket.

BASELINE® HIRES™ PLASTIC POCKET GONIOMETERS

White background behind the gradations, numbers and text assures high contrast for added readability and resolution.

12-1012

Flexion/Hyper-Extension Goniometer

Clear plastic finger goniometer measures a range of 30° hyperextension through 120° flexion. Easy to use for ROM measurements of MCPs, PIPs and DIPs.

Finger Goniometers

FINGER (SMALL JOINT) GONIOMETER

- 12-1010 Standard, 15 cm (6")
- 12-1011 Deluxe, 15 cm (6")
- 12-1015 Small, 9 cm (3.5")

180° DIGIT GONIOMETER

- 12-1016 Stainless Steel Goniometer
15 cm (6")
- 12-1014 Plastic (Black) Goniometer
15 cm (6")

GAUGE

- 12-1060 Finger Motion Gauge

- 12-1010
Standard 15 cm (6")

Stainless steel finger goniometer measures range-of-motion of finger joints (metacarpophalangeal and interphalangeal) and other small joints including toes. Head has two opposing 180° scales marked in 5° increments. A linear scale in inches and centimeters is on the arm. Deluxe model has larger head for more accurate reading.

180° DIGIT GONIOMETERS

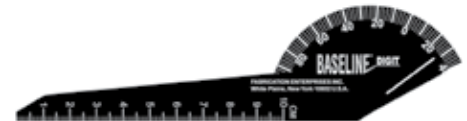

"One-Hand Goniometer"

Use only one hand to measure your patient! Using your finger, move the measurement head through flexion, extension and hyperextension. Measures 110° flexion through 40° hyperextension in 5° increments. Arm has 10 cm (4") scale. This goniometer is also known as a one-hand goniometer because readings can be taken by the therapist using only one hand. This frees up the therapist's other hand to stabilize the patient during measurement or to record the measurement.

- 12-1016
Stainless Steel 180° Digit Goniometer
Standard 15 Cm (6")

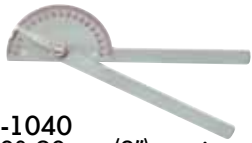

- 12-1014
Plastic 180° Digit Goniometer
Standard 15 cm (6")

- 12-1060
Finger Motion Gauge

Clear plastic gauge simplifies and speeds measurement of composite finger flexion and finger-thumb opposition measurement. Scales measure up to 10 centimeters.

12-1040
180° 20 cm (8") goniometer

Stainless steel goniometer has two opposing scales marked in 1° increments. Tension between the arms is controlled by the thumb knob.

12-1042
180° 15 cm (6") pocket goniometer

Robinson stainless steel pocket-sized goniometer has a 180° scale in 5° increments and a 5-inch (12.7 cm) linear scale.

12-1050
360° 36 cm (14") goniometer

Stainless steel goniometer has two opposing 180° scales and one 360° scale, all marked in 1° increments. Arm tension is controlled by thumb knob.

180° X-RAY GONIOMETERS

Document angles on X-ray negatives. 180° head has two opposing scales marked in 2 1/2° increments. Black aluminum with easy-to-read white radiopaque markings (doctors and therapists wearing glasses find this goniometer easy to read).

12-1043
6-Piece Goniometer Set

6 of the most frequently requested Baseline® stainless steel and X-ray Goniometers. Set includes: 15 cm (6") 180° 'Robinson' pocket (12-1042), 36 cm (14") 180° stainless steel (12-1041), 36 cm (14") 360° stainless steel (12-1050), 15 cm (6") stainless steel finger (12-1010), 20 cm (8") 180° x-ray (12-1031), 20 cm (8") 180° stainless steel (12-1040)

12-1020
SS Large Joint Goniometer

40 cm (18") stainless steel goniometer measures "large" joints (shoulders, hips, knees). Scale has two opposing 180° scales and a linear scale with inches and centimeters. Scale marked in 5° increments.

12-1035
180° Extendable Goniometer

Easy-to-read, accurate instrument, offers versatility for measuring large and small joints. Quality feel and features, including 4x magnifying lens to read the dual 180° high resolution scale and two stainless steel arms extending 23 - 66 cm (9 - 26"). Smooth precision glide.

STAINLESS STEEL GONIOMETERS

- 12-1040 SS 20 cm (8"), 180°
- 12-1041 SS 36 cm (14"), 180° (Not shown)
- 12-1050 SS 36 cm (14"), 360°
- 12-1042 SS 15 cm (6"), 180°

X-RAY GONIOMETER

- 12-1030 36 cm (14"), 180°
- 12-1031 20 cm (8"), 180°
- 12-1032 15 cm (6"), 180°

6-PIECE GONIOMETER SET

- 12-1043 Goniometer Set

STAINLESS STEEL LARGE JOINT GONIOMETER

- 12-1020 SS Large Joint

EXTENDABLE GONIOMETER

- 12-1035 Extendable 180°

Inclinometers

INCLINOMETERS

- 12-1056 Bubble Inclinometer
- 12-1149 Baseline® AcuAngle
- 12-1057 Digital Inclinometer
- 12-1055 Gravity Inclinometer
- 12-0502 Wrist Inclinometer
- 12-1070 Inclinometer with Clip
- 12-1071 Inclinometer with Headband

12-1056
Bubble Inclinometer

Place inclinometer near joint to be measured; turn dial until scale reads 0; take joint through its range; read range traveled directly from dial. Inclinometer standards are codified in the AMA Guide to the Evaluation of Permanent Impairment, third edition.

12-1149
Baseline® AcuAngle

Pointer is damped by fluid to assure accurate range-of-motion measurements. Place inclinometer near joint to be measured; turn dial to zero; take joint through its range; read range of motion from dial. Adjustable legs (side-to-side) adapt to body contours.

12-1057
Digital Inclinometer

Range-of-motion can be read directly after the joint has been taken through its range. Place inclinometer near the joint to be measured; press "zero" button; move joint through its range; press the "hold" button.

12-1055
Gravity Inclinometer

Accurately measures ROM. Place inclinometer near the joint to be measured; turn the dial to zero; take the joint through its range; read the total range directly from the dial.

12-1502
Wrist Inclinometer

Have patient grasp inclinometer handle; turn dial until scale reads 0; set first tab, take joint through its range; set second tab, read range traveled directly from dial. Inclinometer standards codified in the AMA Guide to the Evaluation of Permanent Impairment, third edition.

12-1070
Inclinometer With Clip

12-1071
Headband Inclinometer

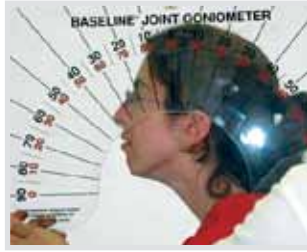

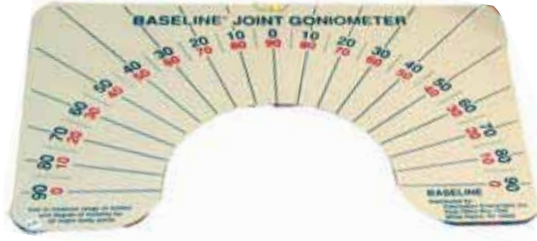

HEADBAND AND CLIP INCLINOMETERS

Measures range-of-motion of any body part. Set the moveable dial so that the weighted indicator points to zero, move joint through its range and read dial.

Chiropractic Measurement

12-1076 Arthrodial Protractor

Measure range-of-motion for all major articulations, cervical rotation, lateral flexion of the head and anterior-posterior cervical flexion. Bubble level assures measurement is made on horizontal plane. Two 180° opposing scales in 5° increments.

12-1078 Posture Evaluator

The posture evaluator can be used to provide posture evaluations that are more precise than those generated by the posture grid. Use the angle pointer to find and measure alignment.

12-1080 Posture Grid

Use to evaluate posture. The 63 x 122 cm (25 x 48") plastic posture grid can be suspended from the ceiling or wall bracket. Set includes a suspension cord and a plumb bob to measure alignment.

12-1090 Body Level

Determine whether body parts are properly aligned. Place moveable arms on two sites. Read amount of tilt (in degrees) from the scale. Ideal for Scoliosis screening.

12-1091 Scoliosis Meter

Measurements can detect scoliosis and abnormal anteroposterio curve. Also measures the unstable lumbosacral, cervical and thoracic curves. Scales in centimeters, inches and degrees.

33 x 13 x 23 cm (13 x 5 x 9")

12-3505 Partial Leg Set
33 x 15 x 61 cm (13 x 6 x 24")

12-3508 Large Partial Leg Set
5 x 20 x 41 cm (13 x 8 x 16")

12-1112
Economy Skinfold Caliper

Plastic skinfold caliper is the inexpensive alternative for skinfold analysis. Spring loaded arm assures reproducible "pinch." Read directly from the 5 cm (2") scale. Ideal instrument for screening large populations.

12-1110
Skinfold Caliper

Lightweight aluminum caliper. Measurement arms have "floating tips" to assure accurate and reproducible results. 6 cm (2.5") scale is large and easy to read. Complete with booklet and tables.

12-1125
Slim Guide

Ideal for screening large populations. Read skinfold measurement directly from the 6 cm (2.5") scale. Spring-loaded arm. Comes with instructions and tables.

12-1201
Gulick Tape

Spring exerts constant force on woven fabric for accurate and repeatable results. 152 cm (5') tape in centimeters and inches. Push button retractor.

12-1210
Tape

Measurement tape reads in inches and centimeters and unfurls to 152 cm (5'). Locks in place until reset button is pressed.

12-1205
Circumference Tape

Measure the circumference of a joint or digit. Wrap webbing around the finger and read circumference directly from the ruler. Measure by yourself: simply make loop, position loosely around waist, wrist or area being measured, and press button. Measuring tape will stay in place securely, while you have two free hands to make adjustments and record measurements.

EDEMA GAUGES

The volumeter is designed to objectively measure volume of the body part by using the fluid displacement method. The body part is placed in a water-filled tank. The resultant overflow is collected and measured. By taking measurements over time, amount of edema can be measured and quantified. Sets include volumeter, overflow cup and measurement vessel.

Body Fat Scales and Analyzers

WEIGHT, BODY FAT, HYDRATION SCALES

- Measures weight, body fat and water %

Monofilaments / Sensory (Feeling) Evaluation

TACTILE™ SEMMES WEINSTEIN™ MONOFILAMENTS

12-1660	Normal 2 Piece: 2.83, 3.61
12-1668	Protective 2 Piece: 4.56, 5.07
12-1662	Hand, Set Of 5 2.83, 3.61, 4.31, 4.56, 6.65
12-1664	Foot, Set Of 6 2.83, 3.61, 4.31, 4.56, 5.07, 6.65
12-1666	Set Of 20 Complete

Individual Monofilaments

	Size	Grams Of Force
12-1640	1.65	0.008
12-1641	2.36	0.02
12-1642	2.44	0.04
12-1643	2.83	0.07
12-1644	3.22	0.16
12-1645	3.61	0.4
12-1646	3.84	0.6
12-1647	4.08	1.0
12-1648	4.17	1.4
12-1649	4.31	2.0
12-1650	4.56	4.0
12-1651	4.74	6.0
12-1652	4.93	8.0
12-1653	5.07	10.0
12-1654	5.18	15.0
12-1655	5.46	26.0
12-1656	5.88	60.0
12-1657	6.10	100.0
12-1658	6.45	180.0
12-1659	6.65	300.0

Cases

12-1637	For 1 Or 2 Evaluators
12-1638	For 5 Or 6 Evaluators
12-1639	For 20 Evaluators

TACTILE™ SEMMES-WEINSTEIN™ MONOFILAMENTS

Measure cutaneous sensory perception threshold Each monofilament represents a unique amount of force.

BASELINE® MONOFILAMENTS

Damage resistant, portable monofilaments detect changes in neurological status Ideal for screening for peripheral nerve impairment. Can also be used in diabetic foot screening.

BASELINE® PERSONAL MONOFILAMENTS

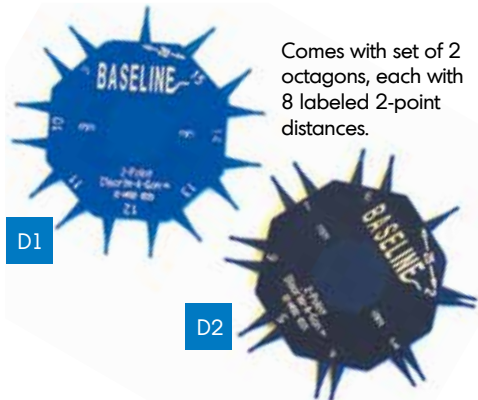

Inexpensive, monofilaments detect changes in neurological status. Ideal for screening peripheral nerve impairment. Can also be used in diabetic foot screening (10 gm).

BASELINE® DISPOSABLE MONOFILAMENTS

Disposable, individual 10gm monofilaments. Choose from ADA LOPS or LEAP program. For diabetic foot screening.

Sensory (Feeling) Evaluation

DISCRIM-A-GON™

DISCRIM-A-GON™ consists of 2 separate 2-point discrimination octagons (D1 and D2). Each octagon measures a different range of 8 labeled fixed 2 point intervals ranging from 1 mm to 25 mm for accurate and consistent measurements. Easy-to-use, lightweight plastic wheel is the perfect sensory evaluation tool to test static and dynamic 1 and 2 point discrimination.

12-1450
Wartenburg Stainless Steel

12-1451
Cleanwheel Disposable Pinwheel

Use for all sterile applications.

12-1455
Neuro-Aide Disposable Pinwheel

Use the pinwheel to elicit cutaneous sensory and pain perception responses.

12-1480
Plastic Two Point

12-1481
Plastic With Third Point

12-1482
Stainless Steel Two Point

BASELINE® 2-POINT DISCRIMINATORS

Evaluate cutaneous sensitivity and touch threshold. Third point permits alternating between single and double point stimulation without changing setting. Plastic points minimize influence of temperature. Measures up to 14 centimeters.

2-POINT DISCRIMINATORS

- 12-1492 Discrim-A-Gon™
- 12-1480 2-Point Discriminator, Plastic with Third Point, Plastic
- 12-1481 2-Point Discriminator

PINWHEELS

- 12-1450 Wartenburg Stainless Steel Pinwheel
- 12-1451 Cleanwheel Sterile Disposable Plastic Neurological Pinwheel
- 12-1455 Neuro-Aide Disposable Plastic Neurological Pinwheel

Hammers and Tuning Forks

BASELINE® TUNING FORKS

Tuning Fork Sets

12-1460 Set Of Six
(128,256,512,1024,
2048,4096 Cps)

12-1461 Sensory Set (30 And 256
Cps)

Weighted Tuning Forks

12-1465 30 Cps Weighted
12-1464 64 Cps Weighted
12-1466 128 Cps Weighted
12-1467 256 Cps Weighted

Unweighted Tuning Forks

12-1468 512 Cps
12-1469 1024 Cps
12-1470 2048 Cps
12-1471 4096 Cps

Student Grade Tuning Forks

12-1475 128 Cps Weighted
12-1476 256cps
12-1477 512 Cps

TAYLOR HAMMERS

12-1500 Taylor, Red Latex Hammer
with 128 Cps Tuning Fork
12-1501 Taylor, Red Latex Hammer
with 256 Cps Tuning Fork
12-1502 Taylor, Yellow Latex Free
12-1570 Taylor, Red Latex Free
12-1571 Taylor, Green Latex Free
12-1572 Taylor, Blue Latex Free
12-1573 Taylor, Black Latex Free
12-1574 Taylor, Black Latex Free

BUCK NEUROLOGICAL HAMMERS

12-1510 Buck Hammer
12-1516 W/ Pinwheel, Brush, Needle
12-1511 with 128 Cps Tuning Fork
12-1512 with 256 Cps Tuning Fork
12-1514 Buck, Latex Free Hammer

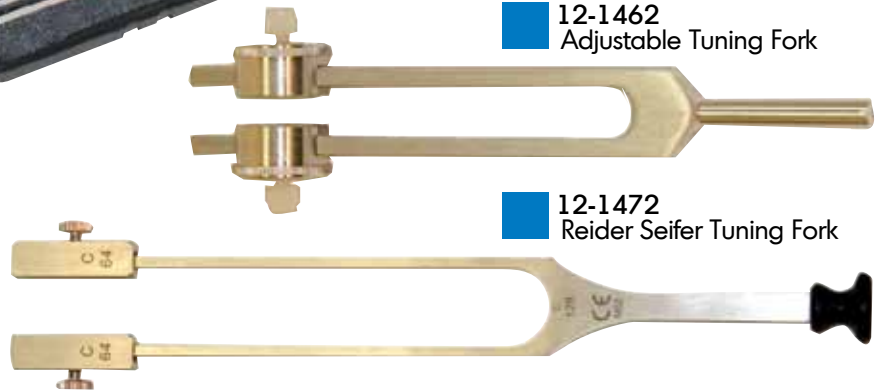

BABINSKI HAMMERS

12-1520 Babinski Hammer
12-1521 Babinski Extra Long Body
12-1524 Babinski, Latex Free
12-1526 Extra Long, Latex Free

12-1460
Set Of 6 Pieces

Use to evaluate hearing and vibratory sensation.

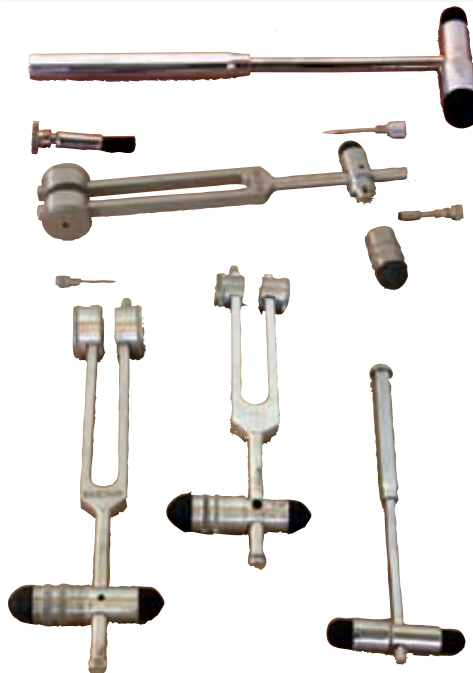

12-1462
Adjustable Tuning Fork

12-1472
Reider Seifer Tuning Fork

BUCK NEUROLOGICAL HAMMER

Two heads, point/brush [12-1510] for cutaneous sensation evaluation. Buck hammer [12-1516] has a pinwheel. Buck with tuning fork also has pinwheel. Latex free option!

TAYLOR HAMMERS

Use to elicit responses during examination. Can be combined with tuning fork. Latex or new Latex Free formula!

BABINSKI HAMMER

Adjustable head can be oriented in two directions. Use pointed bottom as a "gross" aesthesiometer. Latex free option!

BASELINE® DOLORIMETER / ALGORIMETER

Evaluate pain threshold. Standardized (1.52 cm² flat circular probe is pushed against subject's skin until pain threshold is reached. (kg. and lb.)

DOLORIMETER / ALGORIMETER

12-1440	1 Kg. (2 Lb.) (Shown)
12-1441	2 Kg. (5 Lb.)
12-1444	4.5 Kg. (10 Lb.)
12-1442	11kg. (25 Lb.)
12-1443	27 Kg. (60 Lb.)

SPIROMETER

12-1710	Buhl Spirometer
12-1714	250 Add'L Mouthpieces
12-1712	500 Add'L Mouthpieces
12-1713	1000 Add'L Mouthpieces

BODY FLEXIBILITY TESTING

12-1085	Standard
12-1086	Deluxe

12-1710 Buhl Spirometer

Compact, lightweight spirometer for screening large populations. Subject blows into disposable mouthpiece. Indicator registers forced vital lung capacity up to 7 liters. Reading stays at maximum until reset. Use as an incentive exerciser for respiratory problems. Weighs 6 ounces. Spirometer comes with 100 mouthpieces.

12-1085 Standard

Used to perform sit and reach test. It comes with scales printed in inches and centimeters. Sturdy construction, a built-in foot plate and a maximum stretch indicator. Powder-coated metal throughout.

12-1086 Deluxe Adjustable

Deluxe model used for modified sit and reach test. It allows for testing protocols to be used that vary the scale start point. This normalizes scores to account for variation in the arm and leg length of the person being tested.

BASELINE[®] is better

here's why:

- won't leak
- accurate
- repeatable
- made in USA

cut-away view

here's how:

- one-piece body
- rugged double-wall bellows
- durable metal gauge
