

REMEDY® WITH PHYTOPLEX™

The Remedy for Sensitive Skin

Clinical skincare. Botanical science.

CLINICAL SKINCARE. BOTANICAL SCIENCE.

Introducing new members of the Remedy with Phytoplex line. They're the Remedy for more sensitive skin. With a proprietary blend of botanicals and gentle ingredients, it's the union of cutting-edge science and nature.

When first launched in 2004, Remedy® with Olivamine® set off excitement throughout the healthcare community because of its remarkable clinical outcomes. Now, we've expanded the line to provide care for the most sensitive of skins – in neonates, geriatric, diabetic, and oncology patients.

Remedy with Phytoplex is the culmination of a clinical need for products intended for the most sensitive skin: formulated without aloe, parabens, sulfates or phthalates. It is formulated to include natural ingredients and is largely plant-based. Today, the line includes gentle cleansers, rich moisturizers, petroleum-free lip balm, skin protectants and an antifungal.

Soy extracts work as a natural humectant

Blue-green algae rich in nutrients and vitamins

Green tea provides antioxidants and more

Clove extracts help soothe and comfort

THE CHALLENGE OF SKINCARE

It's easy to forget, but the skin is our largest organ. It's a durable and self-sustaining system. However, consider the challenges it faces in different life stages:

External factors: Continenence, Radiation, Contact with detergents/soaps, Medications, Mechanical stress, Everyday drying conditions

Internal factors: Slowed cell replication due to aging, Decrease in protein synthesis, Increase in proteolysis, Hormonal changes, Fatigue, Obesity, Nutritional imbalance, Disease

As skin ages with time or photoexposure, **it produces less collagen and elastin**, key building blocks in healthy skin. The most striking and obvious changes include dryness, loss of elasticity, sagging skin and loss of tone. **These factors can cause elevated proteolytic activity** leading to redness, provoking undesirable changes in the skin.^{1,2,3}

Phytoplex – the Solution

The Phytoplex blend, exclusively from Medline, represents the latest advances in biotechnology and molecular biology. It was **developed and designed to nourish and soothe the skin, act as a structural moisturizer in the stratum corneum and help protect from free radical damage.**

Phytoplex is a blend of all-natural ingredients from botanical and marine sources. These ingredients penetrate the skin surface to modulate activity that has the potential to positively affect the skin matrix. Phytoplex helps to replenish elements and nutrients at the skin surface that may be diminished by external or internal factors.

A LINE DESIGNED WITHOUT:

Aloe	Although it is a widely used emollient, there is a small percentage of the population that may develop allergic reactions to it. ⁴
Parabens	The current FDA position continues to be that there is no reason for consumers to be concerned about the use of cosmetics containing parabens. However, some clinicians prefer other preservative methods. ⁵
Phthalates	Several studies link phthalates with negative health side effects. ⁷
Sulfates	Commonly used cleansing agents that can potentially dry out and irritate the skin. Typically present in products that are high sudsing. ⁸

THE SCIENCE OF PHYTOPLEX

The **Phytoplex system focuses on redness, dry skin and oxidative stress that have the potential to disrupt skin surface barrier function.** Phytoplex may help mitigate these negative effects by maintaining conditions necessary for normal skin function. Phytoplex helps to nourish, moisturize and soothe skin.

1 NOURISHING AND SOOTHING

Blue-green Algae extract (Aphanizomenon Flos-Aquae)

- Found naturally, blue-green algae is extremely rich in proteins, vitamins, antioxidants, essential fatty acids and carbohydrates.^{9,10}
- Skin soothing, refreshing and uplifting; reduces effects of everyday drying conditions.

2 STRUCTURAL MOISTURIZING

- Phytoplex helps to restore tight junctions between keratinocytes reducing porosity and preventing moisture loss.

- **Yeast extract¹¹ and Soy proteins¹²**

Proteins and polysaccharides from the yeast extract may increase the moisture retentive capacity of the skin and restore moisture balance.¹³ Soy proteins are film formers and help to reduce moisture loss. They also function as natural humectants, attracting moisture to the skin from the environment and from lower skin layers.¹⁴

- **Vitamin D¹⁵**

Phytoplex includes encapsulated Vitamin D. Encapsulation helps to stabilize the vitamin and permits efficient delivery onto the skin surface, due to a small electrostatic charge that has affinity to negatively charged surfaces (such as skin) thereby enhancing adherence to it.^{16,17}

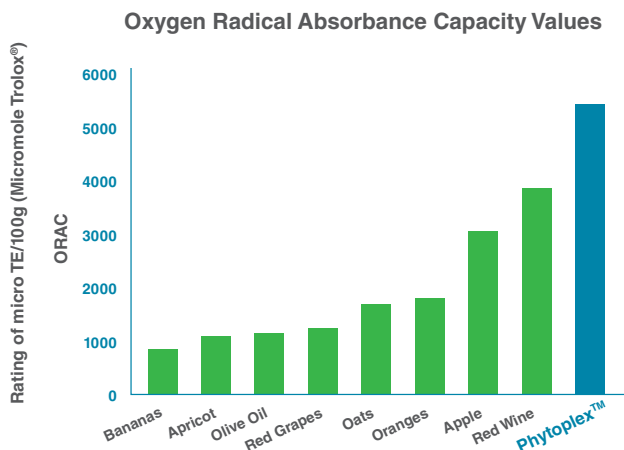

3 PROTECTING AGAINST FREE RADICAL DAMAGE

Hydrolyzed Soy Protein, Green Tea Extract and Clove Flower Extract

- Powerful antioxidants to help protect skin surface from reactive oxygen species. (ROS and oxidation that could cause damage at the skin surface.)
- Helps to soothe and comfort skin, reducing redness.

THE SCIENCE OF PHYTOPLEX

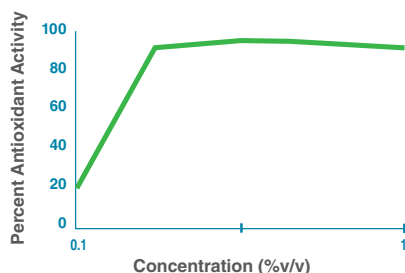

ANTI-OXIDANTS: FREE RADICAL SUPPRESSION AND SCAVENGING

ORAC Values of Phytoplex

The ORAC testing measures the total antioxidant capability of a substance, such as Phytoplex, in a comparative manner. The higher the ORAC value, the better the antioxidant capacity.

Phytoplex Singlet Oxygen Scavenging/Quenching

Singlet Oxygen Scavenging by Phytoplex

Singlet oxygen is another harmful species that originates from normal oxygen with the addition of UV radiation. It is heavily scavenged by Phytoplex, even at small concentrations.*

PHYTOPLEX COMPONENTS

INGREDIENT	PURPOSE
Blue-green Algae extract (Aphanizomenon Flos-Aquae)	Contributes nutrients: proteins, vitamins and anti-oxidants. Soothes and refreshes.
Hydrolyzed soy protein, yeast extract, vitamin D	Helps to restore tight junctions between keratinocytes and reduces porosity, preventing moisture loss
Potent Antioxidants such as green tea and clove flower extract	Helps protect skin surface from reactive oxygen species (ROS) and oxidation and helps to soothe and comfort skin, reducing redness
Natural oils including Avena Sativa Kernel Extract, Calophyllum Tacamahaca Seed Oil and Olea Europaea Oil	Provides rich antioxidants for the skin and skin conditioners
Borago Officinalis Seed Oil	Rich source of eight specific fatty acids including gamma-linolenic acid (GLA)
Phospholipids	Allows no-rinse cleansing and conditioning of the skin without stripping the skin's natural oils.

*Data on file

THE EVIDENCE FOR PHYTOPLEX

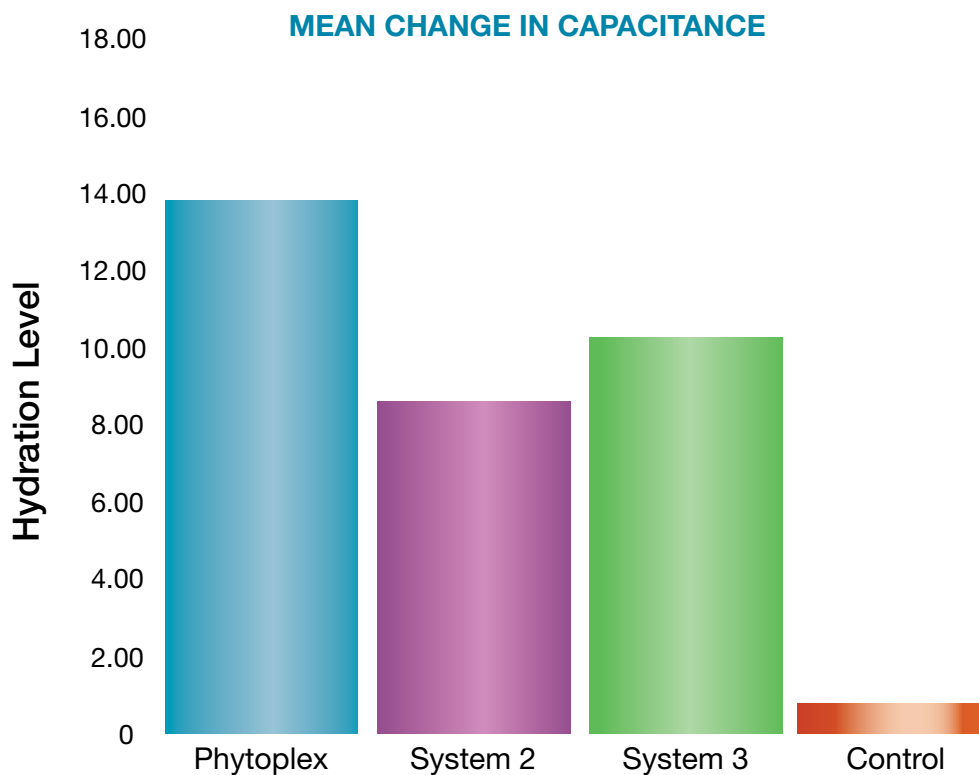

Clinical evidence shows that Remedy with Phytoplex provides higher degrees of skin moisturization compared with similar products, is safe and well-tolerated in neonatal subjects and is gentle for use on sensitive skin.

HEAD-TO-HEAD MOISTURIZING PERFORMANCE

The Moisturizing Ability of Remedy® with Phytoplex™ Cleanser/Moisturizer*

Objective: To compare the performance of cleansers and moisturizers as systems

Results: Statistically significant differences were found between the **high moisturization levels associated with the Phytoplex combinations**, and the lower moisturization levels associated with the other similarly branded products. The differences were statistically significant between both Remedy Phytoplex products and the other competitive cleanser/moisturizer combinations (System 2: Convatec® Aloe Vesta® 2-N-1 Body Wash and Shampoo with Aloe Vesta Skin Conditioner, and System 3: Coloplast® Gentle Rain® Extra Mild Moisturizing Body Wash with Coloplast Moisture Barrier Cream).

The combined use of a sulfate-free cleanser with a moisturizer led to significantly higher hydration of the skin as measured by capacitance. Other cleansers may reduce the natural oils present on the skin.

THE EVIDENCE FOR PHYTOPLEX

MANAGING NEONATAL SKIN DAMAGE

The use of Phytoplex™ and Soothe&Cool® in the management of damaged and at-risk skin in a NICU environment*

Objective: To determine the efficacy of Phytoplex on protecting neonatal skin. A clinical study was performed on a cross section of the neonatal population when a new micronutrient-based skincare product line (Remedy® with Phytoplex™) was introduced for general use to moisturize both normal body and perineal skin as well as erythematous areas, especially in the perineal area.

Results: Phytoplex Nourishing Skin Cream, Phytoplex Hydraguard™ and Soothe&Cool Skin Paste were found to be **safe and well tolerated in neonates (average age 31 weeks gestation) with no incidence of product related reactions** (over 1,489 discrete exposures to product). Phytoplex Nourishing Skin Cream and Phytoplex Hydraguard provided effective care for skin damage reduction.

Remedy with Phytoplex was well tolerated by neonates in an NICU environment.

TESTED FOR GENTLENESS IN ADULTS

Objective: To determine the safety of the Phytoplex™ range of products on an adult population via the repeat insult patch testing (RIPT) method over two weeks.*

Results: In this series of **testing of over 50 adults for 10-14 days**, the Phytoplex Hydrating Foaming Cleanser, the Phytoplex Nourishing Skin Cream, and the Phytoplex Hydraguard™ skin cream with silicone blend **did not cause adverse skin reactions**.

TESTED FOR GENTLENESS IN CHILDREN

Objective: To determine the safety of Phytoplex™ system on a pediatric population (2-36 months) during repeat exposure over 4 weeks of daily use*

Results: Phytoplex Hydrating Cleansing Foam and Phytoplex Nourishing Skin Cream did not demonstrate a potential to elicit dermal irritation when applied to the arms, legs, torso and back of 35 neonates. **No clinically significant evidence of increases in erythema, edema, or dryness was observed following two and four weeks of use.**

*Data on file, available upon request.

THE STORY OF CLEANSERS

Sensitive, fragile, erythematous or dry skin is very challenging to cleanse.^{18,19} Repeated cleansing with soaps and washing agents results in after-wash tightness, skin dryness, stratum corneum barrier compromise and redness.

Remedy Cleans Without Harsh Sulfates

Remedy with Phytoplex cleansers are formulated to be **low sudsing**, as suds typically are produced by harsh sulfate-based surfactants that remove skin's protective oils. Mild formulations that are pH-balanced and tear-free ensure that patients won't feel the sting of regular shampoos and soaps in their eyes or even on denuded skin. In addition, these cleansers are designed to be easily removed even when hard water is present.

How Remedy with Phytoplex Cleansers Work

Remedy with Phytoplex Cleansers work with phospholipids, which mimic the skin's own lipids. Their unique hydrophylic/oleophilic molecular structure helps lift away dirt and oils without stripping the skin dry.^{20,21,22}

Cleansers That Nourish and Moisturize

It's important that a cleanser not only **cleans** gently and effectively, but also conditions the skin without occluding it. The proprietary Phytoplex blend of botanicals **nourish** the skin, helps structurally **moisturize** skin cells with soy proteins and **soothes** the skin with the antioxidant power of green tea and clove flower.

Remedy with Phytoplex cleansers leave skin cleaned, well nourished, better hydrated and prepared for the next steps in your skin health regimen.

Coconut

Nourish

Cleanse

HYDRATING CLEANSING GEL

Low sudsing shampoo and body wash for use in the shower or at bedside as a no-rinse with wash basin

Features and Benefits

- Cleans and conditions both fragile hair and sensitive skin
- Low sudsing, tear-free, sulfate free formula to maintain natural pH and moisture balance
- Can be used on intact, irritated or denuded skin
- Ideal for neonates to geriatrics
- Natural emollients and a touch of dimethicone help boost skin moisture
- One 4 ounce bottle makes 1 gallon of no-rinse cleaning solution
- Enhanced with Phytoplex and other botanicals

Item Number	Size	Packaging
MSC092002	2 fl oz (59 mL)	96/cs
MSC092004	4 fl oz (118 mL)	48/cs
MSC092008	8 fl oz (236 mL)	12/cs
MSC092016	16 fl oz (472 mL)	12/cs
MSC092034	33.8 fl oz (1000 mL)	8/cs

Add H to the end of the item number to order by the each

Ingredients

Water, Coco-Glucoside, PEG-150 Distearate, Disodium Cocoamphodiacetate, Vanilla Planifolia Fruit Extract, Camellia Sinensis Leaf Extract, Eugenia Caryophyllus (Clove) Flower Extract, Phospholipids, Aphanizomenon Flos-Aquae (Algae) Extract, Yeast Extract, Hydrolyzed Soy Protein, 7-Dehydrocholesterol, Zea Mays (Corn) Oil, Dimethicone PEG-7 Phosphate, Hydrogenated Lecithin, Glycerin, Citric Acid, Sodium Hydroxide, Isopropyl Myristate, Ethylene Brassylate, Methylidihydrojasmonate, Disodium EDTA, Imidazolidinyl Urea, Potassium Sorbate.

Tear-Free | Hypoallergenic | Non-irritating | Non-sensitizing
Pediatrician Tested | Dermatologist Tested

HYDRATING SPRAY CLEANSER
HYDRATING CLEANSING FOAM

Gentle, no-rinse cleansers for use on hair, face and entire body

Features and Benefits

- Can be used on intact, irritated or denuded skin
- pH balanced to protect skin’s acid mantle, tear-free
- Strong enough for removing barrier pastes and creams, blood and fecal material
- Ideal for neonates to geriatrics
- Enhanced with Phytoplex and other botanicals

Additional Features for Hydrating Spray Cleanser

- Enables uniform application over larger areas of the skin
- Can be used on intact, irritated or denuded skin
- Contains conditioners to maintain moisture on skin

Item Number	Size	Packaging
MSC092204	4 fl oz (118 mL)	24/cs
MSC092208	8 fl oz (236 mL)	12/cs

Add H to the end of the item number to order by the each

Ingredients

Water, Coco-Glucoside, Dimethicone PEG-7 Phosphate, Disodium, Cocoamphodiacetate, Aphanizomenon Flos-Aquae Extract, Camellia Sinensis Leaf Extract, Eugenia Caryophyllus Flower Extract, Yeast Extract, Hydrolyzed Soy Protein, 7-Dehydrocholesterol, Zea Mays Oil, Olea Europaea Fruit Oil, Calophyllum Tacamahaca Seed Oil, Phospholipids, Tocopheryl Acetate, Glycerin, Hydrogenated Lecithin, Cellulose Gum, PEG-40 Hydrogenated Castor Oil, Citric Acid, Sodium Hydroxide, Isopropyl Myristate, Ethylene Brassylate, Vanilla Planifolia Fruit Extract, Methylidihydrojasmonate, Disodium EDTA, Potassium Sorbate, Imidazolidinyl Urea.

Additional Features for Hydrating Cleansing Foam

- Foam allows gentle cleaning and ease of application with no rinsing required
- Product clings where applied, while easy to remove with wipe or wash cloth, minimizing clean up

Item Number	Size	Packaging
MSC092104	4 fl oz (118 mL)	24/cs
MSC092108	8 fl oz (236 mL)	12/cs

THE STORY OF MOISTURIZERS

Remedy with PhytoPLEX™ moisturizers are specifically formulated for individuals with sensitive skin. By providing exceptional nutrition, emollients, vitamins, and hydration with each application, the skin is able to strengthen itself and in turn enhance overall health.

The Role of Moisturizers and Skin with Neonate Populations

For neonates, skin accounts for 10-13% of the body weight compared to a 3% of the body weight for an adult. Their stratum corneum is not totally formed yet, allowing the loss of water through the skin, called **trans epidermal water loss** (TEWL) and putting them at higher risk for infections. Studies have shown that to protect and restore the skin in neonates, daily use of emollients reduced visible dermatitis and improved skin integrity.¹

The Importance of Moisture and Natural Oils in Geriatric Care

One of the most **significant changes** of the skin as we age is increased dryness. This can be attributed to a reduction in the water content of the uppermost layer of the skin, a decrease in intercellular lipids and a decrease in sebum secretion, all of which are needed for skin to stay soft, supple and smooth. Without **proper moisturization** as part of a daily skin care regimen, these relatively minor issues of dry skin can quickly escalate into more serious skin conditions.^{25,26}

How Remedy with PhytoPLEX Moisturizers Work

Natural oils and the proprietary elements of PhytoPLEX help tighten the junctions between dead cells (keratinocytes) in the stratum corneum, improving the skin's barrier properties.¹³ In addition, silicones will help retain moisture without clogging skin.

Remedy with PhytoPLEX moisturizers also include tiny, naturally occurring oil packets surrounded by phospholipid "shells" known as oleosomes. These oleosomes rupture as they are spread onto the skin, resulting in long-lasting, controlled-release moisturization.

Safflower
provides naturally
encapsulated
moisturizers

ADDITIONAL INGREDIENTS

BOTANICAL NUTRIENT	BENEFIT
Avena Sativa Kernel Extract	Extracted from oat kernels and may exhibit the anti-oxidant and skin conditioning agent properties as in a soothing oatmeal bath ²⁷
Borago Officinalis Seed Oil	Rich source of eight specific fatty acids including gamma-linolenic acid (GLA), an essential nutrient that is sometimes lacking in the elderly ²⁸
Carthamus Tinctorius (Safflower) Oleosomes	Naturally occurring tiny oil packets surrounded by a phospholipid “shell”; it moisturizes and imparts softness to the skin and extends the release of other ingredients in the formulation ³⁰
Olea Europaea Oil	Used as a skin hydrating agent for millennia; it contains antioxidants to help scavenge free-radicals ³¹
Vanilla Planifolia Fruit Extract	Skin moisturizing agent that may add light natural deodorizer and a plant source of polyphenols that may provide antioxidant properties ³²
Zea Mays Corn Oil	Aids skin hydration and moisture preservation and it emulsifies to help keep other botanical ingredients distributed throughout the product ³³

NOURISHING SKIN CREAM

Helps restore sensitive skin's natural moisture balance and barrier properties

Features and Benefits

- Moisturizes with a blend of natural emollients including safflower oleosomes and carrageenan
- Soothes sensitive skin with oat kernel and licorice root extract
- Formulated without mineral oil or other petrochemicals to remain breathable
- Long-lasting formula with no greasy residue
- Ideal for use on hands, face and body
- Enhanced with Phytoplex, additional botanicals and essential fatty acids

Item Number	Size	Packaging
MSC092402	2 fl oz (59 mL)	96/cs
MSC092404	4 fl oz (118 mL)	48/cs
MSC092408	8 fl oz (236 mL)	24/cs
MSC092416	16 fl oz (472 mL)	12/cs

LIP BALM

Natural lip moisturizer that soothes and protects

Features and Benefits

- Composed of all-natural oils such as sunflower, soybean and jojoba oil.
- Shea butter and beeswax deliver essential Omega 3 and 6 fatty acids
- Encapsulated flavor crystals continue releasing citrus flavor for hours, while cooling menthyl lactate soothes and refreshes lips
- Contains no petrochemicals that are hazardous in oxygen-rich environments
- Enhanced with Phytoplex and other botanicals

Item Number	Size	Packaging
MSC092915	0.15 oz (4.25 g)	36/cs
MSC092915H	0.15 oz (4.25 g)	each

Ingredients

Helianthus Annuus (Sunflower) Seed Oil, Glycine Soja (Soybean) Oil, Beeswax, Euphorbia Cerifera (Candelilla) Wax, Flavor, Cannabis Sativa (Hemp) Seed Oil, Mangifera Indica (Mango) Seed Butter, Limnanthes Alba (Meadowfoam) Seed Oil, Zea Mays (Corn) Starch, Hydrolyzed Corn Starch, Simmondsia Chinensis (Jojoba) Seed Oil, Rosmarinus Officinalis, Aloe Barbadensis Leaf Extract, Tocopherol, Methyl Diisopropyl Propionamide, Ethyl Mentane Carboxamide, Menthyl Lactate, Lauryl Laurate, Glyceryl Oleate, Butyrospermum Parkii, Chamomilla Rectita (Matricaria), Isomerized Safflower Acid, Palmitoyl Tripeptide-5, Resveratrol, Punica Granatum Oil, Dimethyl Sulfone, Ceramide, Glyceryl Stearate, Glycerin, Sucralose, Sorbitan Monooleate, Aqua, Butylene Glycol, Aphanizomenon Flos-Aquae Extract, Hydrolyzed Soy Protein, Camellia Sinensis Extract, Soy Amino Acids, Yeast Extract, Eugenia Caryophyllus (Clove) Flower Extract, Phospholipids, Cholecalciferol

Hypoallergenic | Non-irritating | Non-sensitizing

THE STORY OF PROTECTANTS AND TREATMENTS

Before a product can be called “protectant” or “treatment”, it must be reviewed by regulatory agencies such as the Food and Drug Administration (FDA) for scientifically proven efficacy. In other words, it has to do what it's claimed to do.

Active Ingredients Protect

Remedy with Phytoplex Z-Guard™ skin protectant uses purified white petrolatum in a high concentration — 57 percent — to **guard** the skin from urine, feces and other environmental irritants. Because of its high insolubility in water, petrolatum is not easily washed away, maintaining its protective layer over skin.

Active Ingredients Treat

Remedy with Phytoplex Antifungal Clear ointment uses miconazole nitrate 2.0% to treat superficial mycoses, or skin infections caused by fungal organisms. It works by disrupting the organism's membrane structure and function, thus **inhibiting growth**. It may also act to **diminish** further fungal growth and proliferation by blocking the “sparkling” action of the compound ergosterol.

Phytoplex Ingredients Soothe and Nourish

In concert with the product's active ingredients, the Phytoplex blend of botanicals **moisturize and nourish** the skin with natural ingredients, including complex natural phospholipid structures called oleosomes, which slowly rupture releasing natural oils over time. Antioxidants and vitamins nourish the skin helping **support** normal skin functioning.

Cosmetic Advances

Hydraguard™ does not list an FDA active ingredient, but is formulated with 24 percent silicone to help skin **resist moisture loss**. This cosmetic designation lets CNAs apply Hydraguard to residents or patients.

HYDRAGUARD™ SKIN CREAM

Silicone-rich formulation that creates a breathable, water-resistant film over skin as it moisturizes and nourishes

Features and Benefits

- 24% silicone blend helps resist moisture loss
- Appropriate for perineal care since it forms a water-resistant film over skin
- Reduces the appearance of red, cracked and scaly skin while soothing dry, itchy skin
- Rich in oleosomes: naturally encapsulated safflower oils that release over time
- Cosmetic formulation allows it to be applied by CNAs and placed by the bedside
- Gentle enough for use on the most fragile skin, suitable for neonates, diabetics, geriatrics
- Nourishes the skin with the proprietary Phytoplex blend of botanicals

Z-GUARD™ SKIN PROTECTANT PASTE

Indicated for the relief of discomfort associated with diaper rash caused by wetness, urine and/or stool and other macerated skin conditions.

Features and Benefits

- White petrolatum-based formulation sticks on intact, irritated or denuded skin
- Enhanced with zinc oxide, allantoin, natural oils and Phytoplex
- Formulated without menthol or other analgesics that may cause a burning sensation on sensitive skin
- Ideal for neonates, geriatrics, oncology patients and anyone with macerated skin

Uses

- Helps treat and prevent diaper rash caused from wetness, urine and/or stool
- Temporarily protects and helps relieve chapped or cracked skin
- Temporarily protects minor cuts, scrapes and burns

ANTIFUNGAL CLEAR OINTMENT

Effective topical treatment for common fungal infections

Features and Benefits

- Helps relieve itching, cracking, scaling and discomfort associated with most common superficial fungal infections
- Miconazole nitrate 2.0% in a petrolatum base formula
- With carboxymethyl cellulose (CMC) to help adhere to wet or damp skin
- Invisible shield allows for easy monitoring
- Ideal for children over 2 years to geriatrics
- Enhanced with Phytoplex and other botanicals

Uses

- For the treatment of most athlete’s foot (tinea pedis), jock itch (tinea cruris), ringworm (tinea corporis)
- For the treatment of superficial skin infections caused by yeast (Candida albicans)
- Relieves itching, scaling, cracking, burning, redness, soreness, irritation, discomfort and chafing associated with jock itch.
- Not for use on scalp or nails or on children under 2 years of age
