

Prevent Falls & Wandering

Wireless Deluxe Central Monitoring

Complete Resident Monitoring & Paging System

Wireless Deluxe Central Monitoring Unit – Designed to wirelessly connect with up to 999 devices. Monitor alerts caregiver when a resident is in need of assistance and displays which device triggered the alarm. The system can identify devices by location.

The Deluxe CMU has a 1 year warranty and functions with a variety of components and accessories including Anti-Wandering Door Systems, emergency call buttons, & LCD Pagers.

Easy setup and works with a large selection of wireless devices without any hard-wiring.
