

Ease caregiver stress

**TV Remotes
just got
a lot
simpler.**

At last. An easy-to-use, stress free TV remote designed specifically for seniors, children or partially sighted.

Our big button simpl TV Remote keypad turns on/off with a single press of the button. Simply program their five favorite channels on easy-to-see buttons and this remote takes users directly to the channels they love. Easy to set up, simple to use, our durable universal TV remote works with virtually every TV and set-top box on the market.

Helps ease caregiver stress by offering users an activity they can take charge of.
Promotes independent living and self-esteem.

Reminder Rosie™ tells them to take meds or any task, so you don't have to.

This simpl clock is a lot smarter than it looks. That's because Reminder Rosie tells them to do the things they're supposed to do, so you don't have to. And it reminds them in your voice so they listen. Reminder Rosie gives family & caregivers of seniors, children or anyone with visual, physical or memory impairments some much needed peace of mind. Also practical for busy people or business/ staff messages. Easy to use for care recipients and easy to set up. Moreover, Rosie offers 25 personalized spoken alarms.

In a Home Care Agency Pilot, this amazing personal reminder helped memory loss patients complete 80 percent medication compliance.

For this reason, and more, Rosie can help seniors stay in their homes longer. For caregivers, task compliance reduces stress. Now they can stay more focused at work and spend more quality time with care recipients vs worrying if they accomplish daily tasks.

Now making a phone call is stress-free

To reach a family member or doctor, dialing 11 numbers may not be so easy. Now, just press the large, red dial-tone button, followed by 1 of 6 photo buttons.

Photo Phone has a 3-level ringer volume. A light indicator tells them someone's calling. And for the hard of hearing, our adjustable earpiece not only has 4 volume levels, it's also hearing-aid compatible.

Setting up the simpl Photo Phone couldn't be simpler. All family members have to do is insert photos of the people a senior calls most into the big button keypad. This landline doesn't require power.

It works off any phone jack. Using the phone just got a lot simpler for seniors, their family and caregivers thanks to our simpl hands free dial Photo Phone. Now caregivers have one less thing to worry about.

The gift of music made simpl.

Our one-touch simpl Radio & Music Player allows seniors, even with significant cognitive decline or visual impairment, to listen to the radio and music they loved in their youth.

Healthcare Professionals acknowledge familiar music as a way of improving seniors' awareness, perception, and clarity of expression. This also helps promote independent living, allowing seniors to stay in their homes longer.

End result: by engaging their minds, our Music Player makes a significant contribution to seniors' quality of life. Eases caregiver stress by providing seniors an activity they can do on their own. Promotes independence, self-esteem and keeps them occupied. Caregivers have more time to do other things.

Extensive product testing has shown our plug-in Music Player is also simple to use. Pressing the large on/off button at the top of the unit is all they have to do.

Pre-loaded USB stick with 75 American Classics, the MP3 format can handle up to 1,000 different pieces of their favorite music.

Alerts.

Now you don't have to worry when they are about to wander off.

Now, our simpl Alerts Door, Motion and Help sensors, and portable Pager helps you keep track of anyone's movements at home when you are close by to help.

Designed specifically to help protect seniors, hearing and visually impaired and children from wandering, falls or other emergencies.

Never miss a Pager alert with sound, vibration and flashing wherever the caregiver is situated in and around the home.

Easy to install with double-sided tape and easy to use, the pager can be clipped to your belt, placed in your pocket or stay on a table.

Bottom line: simpl Alerts is a simple, complete and expandable home caregiver monitoring system with no Wi-Fi or fees. Increase peace of mind, independence and safety by alerting caregivers when they are about to wander, enter an unsafe area or if they need your help.

About simpl Technology

simpl was co-founded by Bruce Barnett. Bruce has spent the last 15 years creating products and consulting for senior living and care facilities nationwide. Our mission is to develop products with both the caregiver and care recipient in mind. simpl products are designed to ease caregiver stress by enabling those you care for to live a more engaged, independent and dignified life. We understand the burden, stress, and unselfishness of caring for a loved one.

Failing eyesight, trembling hands, diminished hearing, decreased mobility, memory loss... we've all seen loved ones experience these symptoms as they've aged. As a result, daily activities aren't so simple as they used to be.

simpl customer support includes live telephone agents, same-day email response, product introduction videos and product set-up videos.
