All-in-One

This "All in One" Anti-Wandering Door Bar System functions with just a door alert and a resident wristband. Simply mount the door bar by any exit or doorway in your care facility, plug it in, and place wristband on resident. When a resident wearing a wristband gets within 8 to 14 feet of the door bar or attempts to go through the doorway, the door bar will alert audibly and visually.

Simple Installation

1. Mount Door Bar
2. Activate Wristband Transmitter
3. Test
